Professor Gabriel M Leung, GBS

Dean, Li Ka Shing Faculty of Medicine

The University of Hong Kong

梁卓偉教授, GBS

香港大學醫學院院長

Gabriel Leung became the nineteenth Dean of the Li Ka Shing Faculty of Medicine at the University of Hong Kong in 2013. Leung, a clinician and a respected public health authority, is also Chair Professor in the School of Public Health. Previously he was Professor and Head of Community Medicine at the University and served as Hong Kong's first Under Secretary for Food and Health and fifth Director of the Chief Executive's Office in government.

Born in Hong Kong, Leung received his early education locally and in the UK. He read medicine at Western Ontario and completed family medicine residency training in Toronto. He earned his master's from Harvard and research doctorate from HKU. Leung is one of Asia's leading epidemiologists, having authored more than 350 scholarly papers and edited numerous journals. His research defined the epidemiology of two novel viral epidemics, namely SARS-CoV in 2003 and influenza A(H7N9) in 2013. While in government, he led Hong Kong's policy response against the 2009 influenza A(H1N1) pandemic. Non-communicable disease work from Leung's group has proposed novel insights into the fundamental biologic pathways leading to population-level origins of cardiovascular disease and Type II diabetes with global health relevance.

From 2010, Leung has been inaugural Chair of the Asia Pacific Observatory on Health Systems and Policies, a multipartite partnership of governments, development agencies and the research community. He regularly advises national and international agencies including the World Health Organisation, World Bank and the Chinese Center for Disease Control and Prevention. He was Vice President and Censor in Public Health Medicine of the Hong Kong College of Community Medicine, and is an elected Council member of the Hong Kong Academy of Medicine. He is a member of the Hospital Authority Board and of the University Grants Committee, respectively a statutory agency responsible for all public health care services and an advisory body on the development and funding requirements of the higher education sector in Hong Kong.

A firm believer in the importance of teaching and learning, Leung has always maintained a substantial commitment in the undergraduate medical and postgraduate public health curricula. His pedagogy has been recognised by the award of the University Teaching Fellowship and the Faculty Teaching Medal, respectively the highest honour for teaching achievements conferred by the University and the medical school.

Prof. John H.C. Ho, CBE

1916 - 2005

MBBS (HK), MD, DSc., FRCP (LOND)
FRCR (RD), FRCR (RT), FRCRA, FACR, FHKCR
HON. CLINICAL PROFESSOR IN CLINICAL ONCOLOGY,
THE UNIVERSITY OF HONG KONG

Prof. John Ho Hung Chiu graduated from University of Hong Kong in 1940, after which he served in the army in China during the Pacific War. After the war he was in charge of the Lai Chi Kok Infectious Disease Hospital till 1946, then he pursued his career in the field of radiology. He obtained MRCP in 1947 and was elected Fellow of the Royal College of Physicians in 1963. Prof. Ho underwent training in radiology in UK in the 50's, and he was amongst the few radiologists who obtained the double qualifications in both diagnostic and therapeutic radiology conferred by the Royal College of Radiologists.

Prof. Ho founded the Institute of Radiology & Oncology (IRO) in 1950 and had been the Consultant in-charge of the entire radiology service in Hong Kong Government, both diagnostic and therapeutic, until his retirement in 1985. Prof. Ho also founded the Hong Kong Anti-Cancer Society in 1963 and established the Nam Long Hospital which was the first hospital to provide palliative care and hospice service in Hong Kong. Because of his immense achievement, he was affectionately known as "Emperor Ho".

Prof. Ho's academic achievements were immense. He was internationally renowned for his work on the etiology, staging and radiotherapy of nasopharyngeal cancer. He delivered the 32nd Skinner Lecture to the Royal College of Radiologists in 1967; has been awarded the First Patrick Manson Gold Medal for his MD thesis on nasopharyngeal carcinoma in 1974; delivered the 6th Digby Memorial lecture in 1974; delivered the 1st del Regato Foundation Lecture in 1977; delivered the 5th Annual Lecture to the Gilbert H. Fletcher Society in 1980; conferred by Queen Elizabeth II the CBE in 1985; awarded a Certificate of Appreciation by the UICC in 1990; delivered the first Werner Henle's Memorial Lecture in 1996. He was the author of numerous textbooks and had published more than 150 original papers in most of the referred journals. He was also elected Honorary Fellow of the American and Canadian Colleges of Radiology.
