

# HONG KONG COLLEGE OF RADIOLOGISTS NEWSLETTER

## President's Jotting

Dr. Law Chun Key

Time flies again since my last jotting but Hong Kong remains heavily hit by COVID-19, although it seems that we are near the end of the tunnel as vaccination programme is gathering momentum both locally and world-wide.

After over a year of experience of working and living under tight hygiene measures and social restriction, we are moving to a new norm in our College activities. Virtual scientific meetings have been conducting far more frequently than what we held actual meetings in the past, with apparently more learning opportunity, albeit one-way, at the cost of less human interaction and information exchange. Similarly, all didactic lectures for Basic and Intermediate Training went successfully on screen, with great support from our lecturers. Although some paper examinations in early half of 2020 have been cancelled or postponed due to the rapidly evolving situation, our College had been working closely with RCR and we soon caught up and fortunately managed to keep the Joint Final (Part B) Examinations in Autumn and Winter on time, though in a different format with all Examiners and candidates far separated in place and time zone. Of special note that with good morale and determination of both local examiners and candidates we successfully held one session of Clinical Oncology Joint Final (Part B)

Examination under typhoon signal number 8, of course with our UK Examiners safely on-line. Over all there has been little disruption in the progression of training milestones in most candidates. We very much owed this success to our Warden Dr. YC Wong, his EC teams, Examiners, Observers, Invigilators and the College Secretariat.

Following the Joint Final Examinations, we conducted the Joint Admission Ceremonies on 14<sup>th</sup> November 2020 and the 28<sup>th</sup> Annual Scientific Meeting of HKCR on 14<sup>th</sup> - 15<sup>th</sup> November 2020 virtually. A completely new format of Technical Exhibition was devised to replace booths in the ASM venue, with favourable response. The Third Lilian Leong Oration was however deferred.

Guidelines

Despite difficult situation, our connections with our national and international peers continued as far as possible, especially the Greater Bay area where social restriction was less. On 28<sup>th</sup> August 2020, I presented "Vision of Hong Kong College of Radiologists" in the Opening Ceremony of GCOG AI lab (人工智能抗癌聯合實驗室) of The University of Hong Kong- Shenzhen Hospital (HKU-SZH). On 6<sup>th</sup> September 2020, I attended the 20<sup>th</sup> Annual Scientific Meeting of Macao Radiology Association. On 31<sup>st</sup> October 2020, I chaired a scientific session of 粵港澳中青年學者專場 in the 第二屆廣東省醫師協會放療分會換屆大會暨第三屆粵港大灣區放療聯盟年會 in Guangzhou with Drs. Lam Tai Chung and Adrian Chan as speakers from our College. On 1<sup>st</sup> November 2020, I gave a video recorded congratulatory message at the inauguration meeting of Macao Clinical Radiology Association 澳門臨床放射學會成立典禮暨影像新進展研討會, and Dr. KO Lam gave a lecture in the meeting. On 28<sup>th</sup> November 2020, I gave a lecture on "Specialist Training for Clinical Oncology in Hong Kong" at the International Oncology Symposium on Advances in Radiation Oncology and the 4<sup>th</sup> Sanming Project Symposium on Advances in Radiation Oncology and Specialist Education, held in HKU-SZH. This is closely related to the upcoming Clinical Oncology Specialist Training Programme of the Shenzhen-Hong Kong Medical Specialist Training Center which will be initiated this Autumn.

Overseas, while all actual attendance of meeting had come to a complete standstill, our College continued to maintain virtual contacts with major Societies and Meetings. Dr. Lilian Leong attended the International Assembly of International Society of Radiology (ISR) on 19<sup>th</sup> November 2020. She also represented our College in the International Trends Session during RSNA Annual Meeting 2020 on 1<sup>st</sup> December 2020. Meanwhile Dr. WL Poon attended 5<sup>th</sup> Asian Oceanian Radiology Forum 2020 at KCR 2020 and made presentation of "Challenges faced by HKCR amid COVID-19

pandemic" on 17<sup>th</sup> September 2020.

Other virtual overseas activities include the submission of a report about the working experience during the COVID-19 pandemic to ESR Board of Directors for online publication to celebrate the International Day of Radiology (IDoR 2020) by Drs. WL Poon, Hailey Tsang and Adrian Chan on 8<sup>th</sup> November 2020, and a paper about the recent efforts and activities related to radiological protection in radiology, nuclear medicine or radiation oncology in Hong Kong to AOSR Office by Dr. Francis Tang in December 2020. But the most important of all is the launching of The Lancet Oncology Commission on Medical Imaging and Nuclear Medicine during the European Congress of Radiology (ECR) 2021 in Vienna on 4<sup>th</sup> March 2021, led by Professor Hedvig Hricak, and of which our College is privileged to be one of the contributing organizations. My special thanks to our College's representatives, Dr. Lilian Leong and Prof. PL Khong, for their contributions

in this project. The Commission presented results from the first-ever comprehensive effort to quantify imaging and nuclear medicine resources worldwide, providing data and guidance to catalyze sustainable improvement of medical imaging and nuclear medicine services for cancer management, particularly in low-income and middle-income countries. May I also extend my sincere congratulations to Prof. PL Khong for being awarded the Honorary Membership of European Society of

Radiology at ECR 2021 in recognition of her outstanding, internationally-recognised achievements and leadership in the fields of paediatric and oncological radiology.

A Working Group led by Dr. Francis Tang had successfully developed the mobile application (for both iPhone and Android users) for the Clinical Referral Guidelines, which is now available for download in both Apple App Store and Google Play Store by using "HKCR" as a keyword to search or scan a QR code on College webpage: [https://www.hkcr.org/lop.php/clinical\\_referral\\_guideline](https://www.hkcr.org/lop.php/clinical_referral_guideline). This new mobile application will serve as a pocket-size interactive companion for the printed version.

Another working group, led by Dr. Stephen Kwok, had reviewed the steroid cover requirement for contrast CT studies and disseminated updated information on changes in the practice of steroid premedication to radiologists in Hong Kong. The Position Statement on Steroid Premedication for Intravascular Administration of Iodinated Contrast had been uploaded on College website: [https://hkcr.org/lop.php/position\\_statement](https://hkcr.org/lop.php/position_statement). My sincere gratitude to all the contributors, dedicated trainers and Fellows from the three specialties of the College for their immense efforts on the continuous review of guidelines.

As we repeatedly emphasized, young Fellows are the treasure and future of our College and we spare no effort to find every opportunity to encourage their

commitment to College activities. Dr. Tony Yuen from Department of Clinical Oncology of Queen Elizabeth Hospital was nominated as the College representative in the HKAM Young Fellows Chapter 2020-2021. Dr. Adrian Chan from Department of Clinical Oncology of Tuen Mun Hospital and Dr. Gregory Lee from Department of Radiology of Pamela Youde Nethersole Eastern Hospital were nominated to be the Distinguished Young Fellows in 2020 awarded by Hong Kong Academy of Medicine.

Perhaps this is shortest of my President's Jotting ever. This only reflects the cancellation and postponement of so many face-to-face meetings, both local and overseas. However it doesn't reflect the immense workload of our College, and more importantly, the anxiety – uncertainty – last minute alteration associated with planning and conducting the Examinations and the Annual Scientific meeting during this trying era of COVID-19. Life will never be the same again in the coming future, but our College will go from strength to strength to overcome these challenges, however how unpredictable they can be.

Last but not the least, as always, I wish to thank all members of the Council, Committees and Subcommittees for your hard work and selfless devotion, and the unfailing and whole-hearted support of our Secretariat.

May all of you continue keep safe and stay healthy, and may vaccination bring this COVID-19 to an end in the near future! 💉

In just more than a year's time since the Covid-19 was declared a pandemic, a lot has drastically changed. Predictably many of our old ways of living may have been altered forever. Social distancing, work from home and teleconferencing, once considered as temporary measures by many at the beginning of the disease outbreak, are being practiced with an increasing scale. The boundaries between ordinal workplaces, homes and personal lives have become blurred. The long-term impact of such changes is unquestionably deep-seated. Depending on which angle you look at it, the impact could have debatably both positive and negative sides such as increased efficiency and enhanced protection against infection, versus inciting estrangement, work-like imbalance and conference-fatigue. Nonetheless, the top priority of every walk of life is still on how we could struggle against the hardship created by the pandemic and to maintain our normal function. Perhaps the most viable strategy is to proactively reshape our system to ensure our needs are met and that those who are in need of support are adequately supported in these challenging times, and the same line has been taken by the College.

The College undertook tremendous efforts to make adaptive changes on our Training and Examinations last year. Tireless hard works have been devoted on the conversion of face-to-face interaction to on-line arrangement for these activities, planning and managing the change logistics, installation of necessary hardware and software to support the processes, preparation and rehearsal by the involved personnel, and building contingency plans to cope with the unexpected situations. More often than not, each single step demands countless email exchange of ideas and rounds of deliberation, as exemplified by the multiple evening Zoom meetings with Royal College of Radiologists (RCR) on examination matters that were conducted repeatedly last year. The fruits of our effort have paid off, and the College is proud to share with you that all the training and examination activities in last year were accomplished as effectively and maybe more vibrantly as they have all been. I have to extend my sincere thanks to all the trainers, examiners, observers of examinations, College's secretariat and every members of the Training Course Subcommittees of the respective Specialties of the College. I would also like to express my gratitude to RCR for their unfailing support and efforts. Every one of them has brought a breadth and depth of experience and wisdom on enhancing our system to effectively cope with the huge challenges.

In August 2020, in response to the debut application for training accreditation made by the Hong Kong Children Hospital (HKCH), the College conducted a site inspection to the hospital. The exercise was steered by an Accreditation Inspection Team headed by Dr. Stephen Cheung. After thorough evaluation, the hospital was approved for providing Basic Training with focus of Paediatric Radiology, thanks to the hard works of Dr. Cheung and all members of Accreditation Inspection Team. HKCH is the first accredited Center for Designated Training after the College established the mechanism of training approval for “Centers for Designated Training” in 2019-2020. The objective of the new mechanism is to provide a pathway for approving centers which could provide valuable training in a specific area of Radiology, but by themselves not functioning as a standalone unit for comprehensive training. The College expects that with the on-going development of subspecialization in medical care, more and more Centers for Designated Training will arise and enrich our training provision in the future. Taken into a wider perspective, the commencement of training in the HKCH also marks a starting point revolutionize not only Basic Training, but also Paediatric Higher Subspecialty Training in Radiology. Along with the on-going transformation of Paediatric services of Hospital Authority towards at ‘Hub-and-Spoke’ Model, in which the HKCH has assumed a centering point to foster advanced and high-quality paediatric patient care in Hong Kong, it is a prime time for the formation of a coordinated model of training for Paediatric Radiology through integration of different training centers under the College. The accreditation of HKCH has timely formed a key component for such framework and the College will actively co-ordinate in the related future development.

Still under the topic of Training Accreditation, the College is now taking preparatory works for the next Training Accreditation Exercise, which is expected to commence in 2022. Many initiatives have already been identified by College as important building blocks for our training development. Establishing an integrated training model for Paediatric Radiology as mentioned, developing mechanism to integrate valuable satellite training facilities into our training programs and introducing formative assessment are but some examples of such initiatives. To successfully take these forward, the College has resolved to form a Core Team of Accreditation to support Accreditation Subcommittee under Education Committee. The purpose is to recruit seasoned trainers with vision on training and fellows of College with ample experience on training development from the three specialties of College to support the process. Given the loads of works ahead, it is expected the upcoming Accreditation Exercise would not be an easy one. Yet as we have all seen in our lifetimes, taking the hard path often makes like in the long run much easier. For the progress of Training of Radiology, may I call for your support for College in walking through this path.

A year after we have been drawn into the war against the pandemic, glimmers of a bright future is finally on the horizon as vaccines are within our arm's reach. Although we might have witnessed some structures and systems of our society crumbling down in this period, we should always maintain a positive attitude in life. On working against the problems that we encounter, we are in fact strengthening our resilience. In the past year, through the collaborative efforts of our fellows, the College has aptly adjusted our capacity to prepare ourselves to face up to future adversity. I truly believe that we can overcome any hurdle that lies before us. 🍷

Despite facing the challenges of COVID-19 for a long period, our College has continued to carry on many activities, especially at the academic front, and has adapted quickly to the changing, “virtual” world with the use of information technology. You may find out more about how our College faced the challenges of the pandemic and adapted to the new norm in the President’s Jotting and Warden’s Column.

Locally, we have Dr. Stephen Cheung and Dr. Stephen Kwok showcasing the new arrangement for examinations and HKCR Training Courses during the pandemic. We also have Dr. Kevin Fung and Dr. Shiobhon Luk reporting on our very first virtual Annual Scientific Meeting, and the arrangement of the 20<sup>th</sup> Joint Ceremonies for Admission of New Fellows of the RCR and HKCR.

With most people using smart phones nowadays, our College has been working on more innovative ways to make our Clinical Referral Guidelines more accessible and handy. Our sincere thanks go to Dr. Francis Tang and his team for their successful development of the mobile application for the HKCR Clinical Referral Guidelines. The new app can be downloaded from “Apple App Store” for iPhones or “Google Play Store” for Android phones. Have you downloaded yours yet?

This year marked the 10<sup>th</sup> anniversary for the implementation of mandatory lectures in our Fellowship Training Course. In this issue we have invited young trainees to share their thoughts on the lectures. We have also invited Dr. Piter Lo, who wrote about this in our newsletter issue exactly 10 years ago, to share his reflections once again on how these lectures have influenced his professional development and radiology practice.

Last but not least, I’d like to thank our Newsletter Team and College Secretariat again, especially Ms. Karen Law and Ms. Phyllis Wong, for their excellent work in the production of this newsletter. ✍️

## Obituary – Dr. Michael Huckman

Hong Kong College of Radiologists is deeply saddened by the loss of Dr. Michael Saul Huckman (1937-2021) Professor Emeritus of Radiology at Rush University Medical Center in Chicago, died peacefully on 19 January 2021. He was 84 years old.

Dr. Huckman was a revered clinician educator, mentor and scholar, dedicated to his profession and instrumental in advancing the field of neuroradiology. In 1970, Dr. Huckman became the Director of Neuroradiology at Rush University Medical Center in Chicago, where he practiced for the next 42 years until retirement. Besides leading an exceptional professional career, his dedication to international neuroradiology led to honorary membership in the Neuroradiological societies of India, Japan and Turkey; the European Society of Neuroradiology; and the Radiological Society of Brasilia.

Dr. Huckman will be deeply missed, and his legacy will always be remembered. ✍️

SO Tsz Him *Queen Mary Hospital*  
WONG Ka Ming *Pamela Youde Nethersole Eastern Hospital*

#### Nuclear Medicine

**Chairman of Assessment Panel:** Dr. WONG Yiu Chung

**Assessors:** Dr. CHEUNG Shing Kee William, Dr. HO Wai Yin

#### **Successful Candidate:**

NG Koon Kiu *Queen Elizabeth Hospital*

# Examination Arrangement in 2020 under COVID-19

Dr. Stephen Cheung, Chairman of Examination Board

Since the epidemic of COVID 19 started early this year, our College has been aware of the potential impact of it on our training and examination. Our Warden and secretariat staff have been in constant contact with the Examination Board and the examination team staff of RCR. The prime aim was to have the examinations for our trainees as in previous years while keeping the safety and health of our examiners and candidates in mind.

It became clear that the Spring 2020 examinations for Radiology and Clinical Oncology could not take place. The same examinations were also cancelled in the UK and in other overseas locations. Obviously local candidates involved were disappointed. That also reminded us of the importance of holding the Autumn examinations as planned so as not to have further effect on the training pathway of our trainees. Dialogue was going on and by April we had a clearer picture of the situation. It was agreed that all parts of the Radiology and Clinical Oncology examinations in September to November this year could go on using various on-line platforms and real time on-line meeting applications. This was a major endeavour and first in the history of our examination. To make all these possible, the College has taken a series of actions. Our computer hardware and software need an upgrade. Various applications need to be installed and tested. Many on-line meetings were held between RCR and HKCR, both at Examination Board level and at administrative level. Thanks to the dedication of both parties, they were very fruitful. The challenge is specially huge for Clinical Oncology since the clinical examination could not be conducted in a hospital environment amid the epidemics. Thanks to Dr. KH Wong, Dr. HC Cheng and the team of CO examiners, a viable way to conduct the clinical examination and viva were worked out that is exactly the same as the examination in UK.

By early August, the project went into full swing. Multiple sessions of practice sessions were held, participated by both UK and local examiners and observers. These were to get them familiarise with the use of the examination platforms and test out the set up. I am glad to report that so far everything went well. Invigilators also attended training sessions since apart from image viewing platforms we had used before for Radiology Part 1 Anatomy module and Part 2B rapid reporting/reporting modules, there are new platforms for the written tests that were previously paper based.

In the coming few months there is still a lot of work to be done. We would ensure all the hardware and software work as planned. More trial run sessions would be arranged. Our candidates would get an opportunity to have hands-on experience with the examination setup. We would take it step by step and we are confident that the examination would be smooth and the candidates can show their best just as in previous years. ✍️

2020 was one of the most challenging years for the medical community. The COVID-19 pandemic not only caused interruption and delay in many clinical services, but also affected our professional training at various levels. A lot of training opportunities including local and international scientific meetings and courses were canceled, while daily hospital-based training and case exposure were affected due to service rearrangements. Under this circumstance, it would be important to maintain the provision of professional education and upkeep the standard of Fellowship training at College level.

As an integral part of Fellowship training, our College provides regular structured Fellowship Basic and Intermediate/Advanced Training Courses for the trainees of all her three specialties namely Radiology, Clinical Oncology and Nuclear Medicine. A Radiation Safety & Protection Mandatory Lectures Course is also established to educate on the essential knowledge of radiation safety. These courses are held every year and our trainees must achieve the required attendance before they are eligible to sit for Exit Assessment. To continue these essential Fellowship training during the COVID-19 pandemic, the Training Course Subcommittees of all the three specialties explored alternative means to deliver the lectures of the training courses. Thanks to technology advancement, the format of lecture delivery has been switched from traditional lecture room teaching to video conferencing for most of the lectures since March 2020. On the other hand, some of the lectures have been delivered by recorded presentations with narrations by the lecturers. These recorded presentations were delivered to training centers and kept under the custody of Training Heads, who would show the recorded presentations to their trainees at flexible schedules. Both methods of lecture delivery worked smoothly and the quality of the training courses was well maintained. As the outbreak in Hong Kong persists, the training courses will continue to be delivered through video conferencing and recorded presentations in 2021.

In addition to the Fellowship Basic and Intermediate / Advanced Training Courses, the College organizes examination preparation courses annually in the specialty of Radiology, namely Part I Anatomy Preparation Course and Part II Fellowship Preparation Course. These HKCR examination preparation courses are not mandatory for trainees but they are highly valued by candidates of the corresponding radiology examinations. Every year, our radiology trainees attend various local and overseas courses to prepare for examinations. Many of these courses were cancelled in 2020 due to the COVID-19 pandemic and it significantly impaired the trainees' preparation. Our College was aware of the imminent need of trainees and decided to continue organizing the HKCR examination preparation courses. The Part I Anatomy Preparation Course was held through video conferencing while the Part II Fellowship Preparation Course was conducted with modifications to enhance infection control. For instance, attendees were divided into smaller groups to improve social distancing, the time table of the course was revised to reduce the contact among different groups of candidates, all trainers and trainees were required to wear face masks throughout the courses, devices for temperature check and hand sanitizers were provided at the course venues. Furthermore, the format of viva sessions in the Part II Fellowship Preparation Course was adjusted to meet the change of examination format during the pandemic. Both examination preparation courses were successfully conducted with positive feedback from attendees.

The COVID-19 pandemic brings both challenges and opportunities to the provision of training courses. Although the outbreak causes disruption to the regular arrangements of our training courses, it motivates us to explore alternative methods and employ new technologies to deliver teaching, which may eventually benefit training in the future. I would also take this opportunity to thank all members of Training Course Subcommittees, lecturers, college secretariat, the class representatives of each training course and all attendees who facilitate the training courses to take place smoothly during the COVID-19 pandemic. 🍷

# HKCR Mandatory Lectures by Dr. CK Law and Dr. Lilian Leong, 4<sup>th</sup> July 2020

Dr. LO Yuk Fong Grace, Pamela Youde Nethersole Eastern Hospital  
Dr. Nicolo HAYAT, Kwong Wah Hospital

In July each year, a fresh cohort of trainees are welcomed into our College as they commence their formal training in Radiology, Clinical Oncology, and Nuclear Medicine. This year marks the 10<sup>th</sup> anniversary of the Mandatory Lecture Series. It was only befitting that this milestone was spearheaded with introductory lectures delivered by Dr. CK Law, the President of Hong Kong College of Radiologists and Dr. Lilian Leong, the Founding and Immediate Past President of Hong Kong College of Radiologists.

The day started with an introduction of the training path of a clinical oncologist by Dr. Law. Notably he emphasised on the 4-year basic training with Part 1 and 2A examinations where newcomers will go through in the forthcoming years and another 2 years of higher training, to achieve FRCR after Part 2B examination and Fellowship after Exit Assessment. He also walked us through the recent changes of the training course, with number of sittings allowed to recent examination due to COVID-19 outbreak, where the forthcoming examinations in September and October would be conducted as computer based and in virtual viva. Apart from guiding us through the career path and the latest amendments, Dr. Law reiterated the important of good documentation on legal documents, not only limiting to medical record, but also in our daily practice as well. He also showed us some examples of prior improper College membership application form and cheque that may delay membership application. It was a very informative lecture to prepare us for a successful and effective application of College membership and the subsequent training pathway. The lecture series was followed by Dr. Leong with introduction of the career path in Radiology.

Dr. Leong walked us down memory lane with the College's establishment in 1991 and its unyielding efforts to strive for recognition amongst local and international bodies. She placed great emphasis on our College's objectives – to encourage the advancement and practice of Radiology in our locality whilst upholding highest professional standards. Beyond introducing the history of our College, she also highlighted the value our College places on the voices of its young members – from Council involvement to a young fellow network, the College strives to foster a diverse yet cohesive community to direct its future practices.

Over the past decade, with the aim of representing the Asia-Pacific region globally, the hardships endured by our College have paved the path to offering internationally recognised education to its trainees. Through supporting local research and publications as well as participation in international conferences, our College takes great pride in supporting its members. Amidst the social unrest and global pandemic that have struck this year, our College has placed tremendous effort in ensuring the continuity of training. Beyond just locally, it has also contributed to the global efforts to combat the pandemic with its latest publication - "An overview of COVID-19, with emphasis on radiological features".

In Dr. Leong's lecture, she also mirrored the discussion by Dr. Law on training in Radiology, and further emphasizing on the minute details of the training curriculum and administrative responsibilities on our part as trainees to ensure a smooth training experience as to complete our specialist training on time.

Dr. Leong ended the lecture with a quote by Lois DeBaKey that left a strong impression - "An inquiring, analytical mind; an unquenchable thirst for new knowledge; and a heartfelt compassion for the ailing - these are prominent traits among the committed clinicians who have preserved the passion for medicine." It was a good reminder for us not to lose sight of the forest for the trees.

As trainees we can appreciate the effort our College has invested into piecing together all the essential components for our training. We would also like to take this opportunity to express our gratitude to our College and all the lecturers for sharing their knowledge and expertise. 💊

### Dr. LO Wai Keung Piter

The mandatory lectures in the fellowship basic training course lay the foundation upon which our career is built on. They are still as lucid as they were when I first attended the lectures as they were introduced to the first batch of trainees.

By learning about the background of HKCR, we understand and appreciate the hard work of our predecessors in the establishment and evolution of the college. We should try our best to uphold the honour and power of the College.

By learning about good practice and medical ethics, we would not engage in practice under conditions derogatory to the standing of the College.

They are in concert with the Fellowship declaration, which I proudly and solemnly took oath of at Fellowship conferment.

I am grateful to have attended and I am sure every trainee would benefit from them. 💊

# 28<sup>th</sup> Annual Scientific Meeting of Hong Kong College of Radiologists (Virtual Meeting), 14<sup>th</sup> – 15<sup>th</sup> November 2020

Dr. Kevin Fung,  
Hong Kong Children's Hospital

The 28<sup>th</sup> Annual Scientific Meeting of Hong Kong College of Radiologists was held successfully and for the first time – virtually, on 14<sup>th</sup> and 15<sup>th</sup> November 2020.

Despite the logistical challenges posed by the pandemic, the meeting continued with an extensive two-day scientific program covered by a panel of renowned international experts from the United Kingdom, Austria, Spain, United States, Singapore, China and Chinese Taipei, as well as our local faculties. The highlights of this year's meeting were "Sports Injury and Trauma", "Musculoskeletal/Bone Tumours" and "Medical Ethics".

The multidisciplinary symposium of gynaecological malignancy provided a comprehensive review and insight of latest advances from various experts in the field. The round-table discussion at the end of the symposium serves as an excellent reminder that battling these conditions often requires a multi-faceted approach with input from different specialties. The inspiring discussion from the conjoint session on medical ethics was certainly food for thought concerning our preparedness as radiologists in the era of artificial intelligence, especially in terms of ethical and legal aspects.

A user-friendly virtual lobby was developed specifically for the meeting this year to allow participants easy access to our keynote lectures, multidisciplinary symposiums, proffered paper sessions, electronic posters, film quiz and virtual booths of our sponsors. Multiple high-quality research projects and educational exhibits from Radiology, Clinical Oncology and Nuclear Medicine were accepted as oral and poster presentations.

This year, all the electronic posters were showcased virtually. They were well organized under different categories for easy viewing online. Various prizes were awarded to those with outstanding performance in oral and poster presentations. A big congratulations to the prize recipients!

I would like to express immense gratitude to the members of the Scientific and House Subcommittees, the College secretariat for organizing our first ever virtual online scientific meeting, our colleagues who have helped us as chairpersons, film quiz organizers, abstract

reviewers, adjudicators for various prizes and awards, our sponsors for their enthusiastic support, the audio-visual team, the photography team, our secretaries and other helpers, including trainees and fellows for their unfailing support and co-ordination of various activities. 🍷

## The HKSDR Trust Fund Award for the Best Oral Presentation in the Radiology Specialty:

### Dr. WAN Fong Ying Fiona

Department of Radiology & Imaging, Queen Elizabeth Hospital  
*"Are you stressed enough? Splenic T1-mapping for predicting adenosine stress adequacy in myocardial perfusion imaging using cardiac magnetic resonance imaging (CMR)"*

## The Hong Kong Society of Clinical Oncology Award for Best Paper in Clinical Oncology:

### Dr. WO Bar Wai Barry

Department of Clinical Oncology, Tuen Mun Hospital  
*"Early toxicities of ultrahypofractionated (UF) stereotactic body radiotherapy (SBRT) for intermediate risk localized prostate cancer using cone beam CT (CBCT) and real time 3D Transperineal Ultrasound (TPUS) monitoring"*

## The Hong Kong Society of Clinical Oncology Award for the Best Poster in the specialty of Clinical Oncology:

### Dr. CHUNG Hiu Shun

Department of Clinical Oncology, Queen Elizabeth Hospital  
*"Clinicopathological Features and Survival Outcomes of Breast Cancer in young women (<40 years old) in Hong Kong: A Single Institution Experience"*

## The Hong Kong Society of Nuclear Medicine and Molecular Imaging Award for Best Paper in Nuclear Medicine:

### Dr. CHOW Tsz Kit

Nuclear Medicine Unit, Department of Radiology, Queen Mary Hospital  
*"Semi-quantitative analysis of 99mTc-TRODAT-1 SPECT/CT imaging: a single-centre study"*

## The HKSIR Award for the Best Oral Presentation in the sub-specialty of Interventional Radiology:

### Dr. YU Chun Hung Kevin

Department of Radiology & Nuclear Medicine, Tuen Mun Hospital  
*"Portal Vein Embolization Using Sheathless Needle-Only Technique Versus Traditional Technique – Comparison of Procedure Time, Efficacy and Safety"*

## The Young Presenter's Award

### Radiology Stream:

#### Dr. TSUI Hoi Ling

Department of Radiology & Organ Imaging, United Christian Hospital  
*"Efficacy of Non-radioactive Magnetic Marker Wireless Localization of Breast Lesions versus Radioguided Occult Lesion Localization in Lumpectomy"*

### Nuclear Medicine Stream:

#### Dr. NG Koon Kiu

Nuclear Medicine Unit and Clinical PET Centre, Department of Radiology, Queen Elizabeth Hospital  
*"Dermatopathic lymphadenitis mimicking lymphoma: FDG PET/CT findings and its diagnostic challenge"*

## Winner of the HKSDR Trust Fund Award for the Best Radiology Poster:

### Dr. MAK Ka Fung Henry

Department of Diagnostic Radiology, LKS Faculty of Medicine, The University of Hong Kong  
*"Aberrant Inter-hemispheric Functional Connectivity in dementia: a resting state fMRI VMHC approach"*

## Winner of the HKSIR Award for the Best Poster in the sub-specialty of Interventional Radiology:

### Dr. LI Yan-Lin

Division of Interventional Radiology, Department of Radiology, Queen Mary Hospital  
*"Interventional Radiology Clinics"*

## Winner of the Best Original Paper of Hong Kong Journal of Radiology

### Dr. TSUI Hoi Ling

Department of Radiology & Organ Imaging, United Christian Hospital  
*"Efficacy of Non-radioactive Magnetic Marker Wireless Localization of Breast Lesions versus Radioguided Occult Lesion Localization in Lumpectomy"*

## Winner of the Award of the Best Original Article of Hong Kong Journal of Radiology (Volume 22):

### Dr. TANG Joseph Andrew Wing Kin

Department of Radiology, Pamela Youde Nethersole Eastern Hospital  
Volume 22 Number 1, "Contrast-enhanced Voiding Urosonography with Second-generation Ultrasound Contrast Agent versus Micturating Cystourethrogram for Diagnosis of Vesicoureteric Reflux"

## Winner of the Award of the Best Case Report of Hong Kong Journal of Radiology (Volume 22):

### Dr. FUNG Kin Fen Kevin

Department of Diagnostic and Interventional Radiology, Kwong Wah Hospital  
Volume 22 Number 4, "Positron-emission Tomography/Computed Tomography Staging and Evaluation of Post-transplant Lymphoproliferative Disorder after Paediatric Liver Transplant: a Case Report"

## Radiology Film Quiz Prizes

Dr. XU Lu Lena (QEH)

Dr. TSUI Waylon Wai-chung (KWH)

Dr. Stefanie YIP (PWH)

## Oncology Film Quiz Prizes

Dr. CHEUNG Sze Nga (PYNEH)

Dr. YU Jieyang (PWH)

Ms. LAM Wai Sze Ivy (QEH)

# The 20<sup>th</sup> Joint Ceremonies for Admission of New Fellows of the Royal College of Radiologists and Hong Kong College of Radiologists,

14<sup>th</sup> November 2020

Dr. Shiobhon Luk,  
Pamela Youde Nethersole Eastern Hospital

This year's Joint Ceremonies for Admission of New Fellows of the Royal College of Radiologists and Hong Kong College of Radiologists was held under unprecedented special circumstances with the COVID-19 global pandemic.

In the first-ever virtual ceremony, Dr. CK Law, President of the Hong Kong College of Radiologists, and Dr. Jeanette Dickson, President of The Royal College of Radiologists, welcomed new Fellows, addressing the major challenges and issues that the new generation and the profession would be facing, particularly in response to the COVID-19 pandemic.

Being joined by family and friends at the Run Run Shaw Hall and online, the successful candidates and members were presented to the Presidents and were admitted as new Fellows. This year 26 new Fellows were admitted to the Fellowship of The Royal College of Radiologists, 19 in the Faculty of Clinical Radiology and 7 in the Faculty of Clinical Oncology. 24 Fellows were admitted to the Hong Kong College of Radiologists, 19 in the Specialty of Radiology, 4 in the Specialty of Clinical Oncology and 1 in the Specialty of Nuclear Medicine.

Dr. Leung Ho Sang of Prince of Wales Hospital was announced as the recipient of the Gold Award for the Autumn 2020 sitting of the Joint Final FRCR/FHKCR Examination in Clinical Radiology and Dr. Cheung Gavin Tin Chun of Queen Elizabeth Hospital was announced as the recipient of the Gold Award for the Autumn 2020 sitting of the Joint Final FRCR/FHKCR Examination in Clinical Oncology. Dr. Chan Wai of Tuen Mun Hospital was awarded the Dr. FL Chan Medal for his outstanding performance during Higher Training and in Exit Assessment in January 2020. 🎓

# 28<sup>th</sup> Annual Scientific Meeting of Hong Kong College of Radiologists (Virtual Meeting)

## Appreciation to Sponsors

### Diamond

### Platinum

### Gold

### Bronze

## 20<sup>th</sup> Joint Ceremonies for Admission of New Fellows of RCR & HKCR

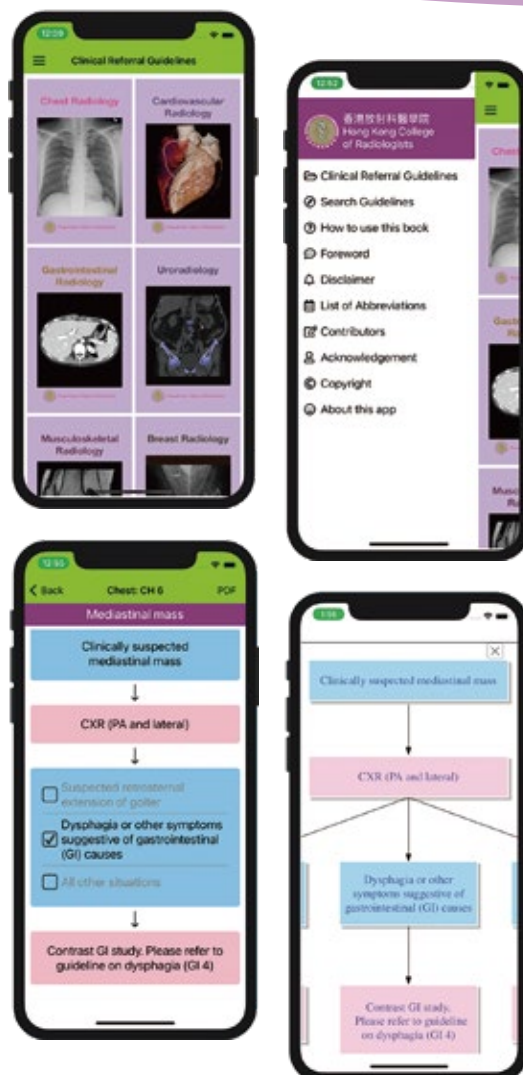

The Hong Kong College of Radiologists (HKCR) published a second edition of her clinical referral guidelines in 2017 with reprint in 2019. A PDF version is also available free online on its website. To further enhance accessibility and also to provide a pocket-sized interactive companion to the original guideline, a working group was set up in late 2019 to embark on producing a mobile app for both Android and iPhone. This group, consisting of some members of the original editorial board and also the Education Committee, set out to review the printed version of the guideline and came up with a design to reformat the paper form of the guideline into an interactive decision-tree type mobile app. The idea was to offer an easy-to-use touch-screen navigation at each decision node of all available guidelines or clinical algorithms. For each particular guideline or algorithm, a clinical endpoint is achieved through a step-by-step selection at each decision node and as a result forming a top-down list of clinical workflow before arriving at a final referral decision. The user can easily go back to list and choose for another pathway when necessary. It was hoped that this interactivity may scaffold another dimension in the usage of our original guideline.

The App working group, led by Dr. Francis Tang, a physicist by descent but also an “as needed” app developer, volunteered to write up the code. Dr. Tang’s commitment eventually materialized into a beta app which some of our early-bird College members had trialed in May 2020.

This app, called **HKCR Referral Guidelines**, is now available for download in both the Apple App Store for iPhone and Google Play Store for Android. One can search in app store using a simple keyword such as “HKCR” or scan a QR code on HKCR publication webpage with their mobile phones. [https://www.hkcr.org/lop.php/clinical\\_referral\\_guideline](https://www.hkcr.org/lop.php/clinical_referral_guideline)

## Mobile App for 2<sup>nd</sup> Edition (2017) of Hong Kong College of Radiologists Clinical Referral Guidelines

Apple App Store link for iPhones  
<https://apps.apple.com/hk/app/hkcr-referral-guidelines/id1542372117?l=en>

Google Play Store link for Android  
<https://play.google.com/store/apps/details?id=org.hkcr.guideline>

Some of our readers might have known Dr. Tang either at work or in attending FRCR physics training courses. Some past trainees may still recall his coaching for skills to tackle the MCQs during his tutorial classes! Dr. Tang was conferred an Honorary Membership of our College back in 2017 in recognition of his contributions in various fields. Dr. Tang retired from senior physicist of the Queen Mary Hospital in early 2020 and thereafter stepped down to continue to work for his Clinical Oncology Department. In his spare time Dr. Tang developed apps for the clinic when he saw the benefits of them. He had designed and implemented several apps in his 30-plus years of physics career. One such app is still being used at the Queen Mary Hospital where manual radiation survey during discharge of radioactive patients undergoing radionuclide therapy was automated with a mobile phone and wireless radiation monitor, hence minimising radiation exposure to staff. The recent clinical referral guidelines app marked Dr. Tang’s another effort in bringing information technology to clinical practice. Thank you Dr. Tang!

# Final Examination for the Fellowship in Nuclear Medicine, September 2020

## First Examination for the Fellowship in Nuclear Medicine, December 2020

Dr. Ho Wai Yin,  
Chairman, Training and Examination Subcommittee (Nuclear Medicine)

### Final Examination for the Fellowship in Nuclear Medicine, September 2020

The Final Examination for the Fellowship in Nuclear Medicine was held at the Hong Kong Academy of Medicine Jockey Club Building on 15<sup>th</sup> and 27<sup>th</sup> September 2020.

Due to the COVID-19 outbreak, the oral examination was conducted with remote participation of the external examiner via Zoom. Prof. John Buscombe from Addenbrooke' Hospital in Cambridge of United Kingdom was invited as the external examiner. Dr. Au Yong Ting Kun from Queen Elizabeth Hospital, Dr. Cheung Shing Kee William from Hong Kong Sanatorium & Hospital, Dr. Ho Wai Yin from Queen Mary Hospital and Dr. Lok Chiu Ming from Hong Kong Baptist Hospital were the local examiners. Dr. Wong Sze Chun from Pamela Youde Nethersole Eastern Hospital & Dr. Wu Kwan Kit from Hong Kong Sanatorium & Hospital were the observers and Dr. Wong Kwong Kuen from Gleneagles Hong Kong Hospital was the invigilator. Five candidates successfully passed the examination.

(from left to right): Dr. SK Cheung, Dr. KK Wu, Dr. KK Wong, Dr. TK Au Yong, Dr. YC Wong, Dr. Stephen Cheung, Dr. WY Ho, Dr. CM Lok and Dr. SC Wong

### First Examination for the Fellowship in Nuclear Medicine, December 2020

The First Examination for the Fellowship in Nuclear Medicine was held at the Hong Kong Academy of Medicine Jockey Club Building on 30<sup>th</sup> November and 5<sup>th</sup> December 2020. Dr. Cheng Kam Chau from Hong Kong Sanatorium & Hospital, Dr. Wong Chi Ping from Tuen Mun Hospital, Dr. Ho Wai Yin from Queen Mary Hospital and Physicist Mr. Tang Chung Ting Teddy from Queen Elizabeth Hospital were the examiners. One candidate successfully passed the examination. 🍷

Dr. Stephen Cheung,  
Chairman of Examination Board

Dr. YC Wong,  
College Warden

Examiners including Dr. KC Cheng, Dr. CP Wong, Dr. WY Ho and Mr. Teddy Tang

## Chinese Congress of Radiology 2020,

15<sup>th</sup> – 28<sup>th</sup> November 2020

Dr. Shiobhon Luk and Dr. Julian Fong,  
Co-convenors of HKCR Young Fellows Network

With the generous support from the Chinese Society of Radiology, 20 young fellows and members of the Hong Kong College of Radiologists attended the Chinese Congress of Radiology 2020 online meeting on 15<sup>th</sup> to 28<sup>th</sup> November 2020.

This year's national annual symposium of Radiology continues to have an excellent panel of international and national experts, in various Radiology subspecialties, sharing their expertise through a wide range of lectures and symposiums. Our young fellows and members made good use of the virtual platform to learn more about the advancement in Radiology in various aspects.

We sincerely thank the Chinese Society of Radiology for the opportunity to participate in this national annual conference. 🍷

## HKSH Symposium on Advances in Cancer Management 2020,

9<sup>th</sup> December 2020

The 4<sup>th</sup> HKSH Symposium on Advances in Cancer Management, entitled “Precision Medicine in Oncology Treatment”, was held on 9 December 2020. Organised by HKSH Medical Group since 2014, the Symposium aims at providing a forum where advances and best practices in multi-modality cancer management, spanning from diagnosis to treatment, from clinical research to practical care management, are discussed and shared with clinical health professionals with an ultimate goal to improve the well-being of cancer patients in Hong Kong and elsewhere. Hong Kong College of Radiologists has been one of the Supporting Organisations of the Symposium since 2017.

In light of the COVID-19 pandemic, this year's symposium was held by way of webinar, through which four prominent clinical specialists shared the latest advances in the application of precision medicine in cancer treatment. Mr. Wyman LI, Chief Operating Officer of HKSH Medical Group and Manager (Administration) of Hong Kong Sanatorium & Hospital, outlined the introduction of advanced cancer technology in HKSH Cancer Centre in his welcome speech, “Each patient has their own cancer experience and needs, precision medicine comes into play by customising treatment to individual patient for optimal accuracy and effectiveness. The opening of our HKSH Cancer Centre in 2019 reaffirms our mission to promote and provide multidisciplinary and comprehensive cancer management to patients.”

Mr. Wyman LI, Chief Operating Officer of HKSH Medical Group and Manager (Administration) of Hong Kong Sanatorium & Hospital, outlined the introduction of advanced cancer technology in HKSH Cancer Centre in his welcome speech

Dr. LAW Chun Key (left) and Dr. KWAN Wing Hong (right) acted as moderators in the HKSH Symposium on Advances in Cancer Management 2020.

Dr. LAW Chun Key, President of Hong Kong College of Radiologists, was invited to moderate the symposium with Dr. KWAN Wing Hong, Director of Department of Radiotherapy, Associate Director of Comprehensive Oncology Centre and Honorary Consultant in Clinical Oncology of HKSH. In the symposium, Dr. Darren POON, Honorary Consultant in Clinical Oncology of HKSH spoke on MRI-guided radiotherapy through the pilot use of MR-LINAC. Dr. CHUI Ka Lun, Private Specialist in Urology shared his clinical experience on the use of a new injectable hyaluronic acid biodegradable spacer to “salvage” the rectum for patients with pelvic SBRT. Dr. Garrett HO, Head of Department of Nuclear Medicine and Positron Emission Tomography of HKSH shed light on the bio-molecular basis and challenges of PET/CT in radiation treatment planning.

Dr. Darren Poon presented on “MRI-Guided Radiotherapy – Paradigm Shift in Precision Radiotherapy”

Dr. CHUI Ka Lun presented on “How Could Urologists “Salvage” the Rectum for Patients with Pelvic SBRT”

Dr. Garrett HO presented on “The Bio-Molecular Basis & Challenges of PET/CT in Radiation Treatment Planning”

From Italy, Prof. Umberto RICARDI, Full Professor of Radiation Oncology and Chairman of Department of Oncology at Health and Science Academic Hospital, Dean of School of Medicine and Deputy Rector of University of Turin shared the preliminary clinical experience for treatment on Radixact with Synchrony.

At the end of the symposium, Dr. Walton LI, Chief Executive Officer of HKSH Medical Group and Medical Superintendent of Hong Kong Sanatorium & Hospital thanked the speakers for their insightful presentations and reaffirmed HKSH’s commitment to patient safety amidst the COVID-19 pandemic.

Prof. Umberto RICARDI presented on “Radixact Synchrony: Preliminary Clinical Experience from University of Turin”

The Symposium was attended by over 500 healthcare professionals from Hong Kong and 36 countries over the globe. For the presentations of speakers, please refer to: [www.hksh.com/cms2020/eProgrammeBook/](http://www.hksh.com/cms2020/eProgrammeBook/)

◀ Dr. Walton LI, Chief Executive Officer of HKSH Medical Group and Medical Superintendent of Hong Kong Sanatorium & Hospital reaffirmed HKSH’s commitment to patient safety amidst the COVID-19 pandemic in his closing remarks

(Right) **Dr. Philip Kwong** President of Hong Kong Society of Uro-Oncology  
(Left) **Dr. Darren Poon** Vice-President of Hong Kong Society of Uro-Oncology

Uro-Oncology Asia 2021, this year annual meeting of the Hong Kong Society of Uro-Oncology (HKSUO), was successfully held from the 16<sup>th</sup>-17<sup>th</sup> January 2021. Due to the COVID-19 pandemic the meeting was conducted as a virtual conference, which was only possible with the generous assistance of our 10 supporting organizers and 16 sponsors. Another first was the use of virtual booths to showcase the most up-to-date and breakthrough data.

14 lectures were given by 12 world-class speakers, showcasing the latest clinical research as well as paradigm shifts in the treatment of kidney, urothelial and prostate cancers. A particular focus was immunotherapy and advanced targeted therapy.

The expert speakers are from six leading research countries including the United States, Germany and the United Kingdom, and include board members of many renowned international organizations such as the American Society of Clinical Oncology (ASCO) and the European Society for Medical Oncology (ESMO). All gladly shared their experience and expertise in their specific areas of competence, introducing new perspectives for an Asia Pacific (APAC) audience.

Helping with the presentations and joining in on the Q&A sessions were council members of HKSUO and the Hong Kong Urological Association (HKUA). More than 470 oncologists and other healthcare professionals in the APAC region were engaged during the event. 🍷

**Chairman**  
**Dr. Philip Kwong** President of Hong Kong Society of Uro-Oncology  
**Dr. Cheung Man Hung** Council Member of Hong Kong Urological Association

**Speaker**  
**Dr. Michael B. Atkins** Deputy Director, Georgetown-Lombardi Comprehensive Cancer Center, William M. Scholl Professor and Vice Chair, Department of Oncology Georgetown University Medical Center, United States

## List of Fellows admitted from 1 February 2020 till 31 January 2021

Admission date	Name	Specialty	Institute
28 July 2020	Dr. CHAN Siang Hua Victor	DR	QMH
28 July 2020	Dr. SIT Wing In	DR	UCH
28 July 2020	Dr. TSE Teresa	CO	PWH
28 July 2020	Dr. WONG Ho Lim	DR	TMH
26 January 2021	Dr. CHIN Wing Yan Thomas	DR	QEH
26 January 2021	Dr. CHIU Cheuk Lun	DR	NDH
26 January 2021	Dr. CHOW Denise Long Yin	DR	TMH
26 January 2021	Dr. FUNG Wai Yuk	DR	PMH
26 January 2021	Dr. KO Wei Sum Koel	DR	QEH
26 January 2021	Dr. LAU On Yee Justina	CO	PYNEH
26 January 2021	Dr. LENG Yongmei	DR	TMH
26 January 2021	Dr. LI Birgitta Yan Wing	DR	TMH
26 January 2021	Dr. LI Yan Lin	DR	QMH
26 January 2021	Dr. LUI Kam Ho	DR	PYNEH
26 January 2021	Dr. MO Kwun Man Cyrus	DR	PYNEH
26 January 2021	Dr. NG Koon Kiu	NM	QEH
26 January 2021	Dr. SO Tsz Him	CO	QMH
26 January 2021	Dr. TSAI Siu Chun	DR	PWH
26 January 2021	Dr. TSUI Hoi Ling	DR	UCH
26 January 2021	Dr. TSUI Waylon Wai-chung	DR	KWH
26 January 2021	Dr. WONG Ho Yuen Frank	DR	QMH
26 January 2021	Dr. WONG Ka Ming	CO	PYNEH
26 January 2021	Dr. YU Chun Hung Kevin	DR	TMH
26 January 2021	Dr. YU Man Leung	DR	QMH

## List of Members admitted from 1 February 2020 till 31 January 2021

Admission date	Name	Specialty	Institute
28 April 2020	Dr. LAM Heung Wing Benjamin	CO	PWH
26 May 2020	Dr. TAM Catherine Wing Yan	DR	NDH
27 October 2020	Dr. MAN Yan Yan	DR	NDH
24 November 2020	Dr. CHAN En Hao	DR	PMH
24 November 2020	Dr. CHAN Matthew Chun	DR	PWH
24 November 2020	Dr. CHEN Way Loon Jonathan	DR	KWH
24 November 2020	Dr. CHING Long	DR	QEH
24 November 2020	Dr. CHONG Yee Ming	DR	QMH
24 November 2020	Dr. CHOY Chun Hin	DR	TMH
24 November 2020	Dr. CHU Kiu Hui	DR	QEH
24 November 2020	Dr. DU Qijun	CO	PYNEH
24 November 2020	Dr. KWOK Shing Fung	DR	PYNEH
24 November 2020	Dr. LAM Pak Lun	DR	KWH
24 November 2020	Dr. LEE Sin Hang	DR	TMH
24 November 2020	Dr. LEUNG Joyce May-sum	CO	PWH
24 November 2020	Dr. LEUNG San Yu	DR	PYNEH
24 November 2020	Dr. LI Kwok Yan	DR	PMH
24 November 2020	Dr. LO Eugene Sean	DR	PMH
24 November 2020	Dr. MAK Siu Fung	DR	KWH
24 November 2020	Dr. NG Yuk Yiu	DR	QMH
24 November 2020	Dr. TANG Hok Him Wisely	DR	QMH
24 November 2020	Dr. TSANG Man Lung	DR	TMH
24 November 2020	Dr. WEI Jeremy Lok	DR	PWH
24 November 2020	Dr. WONG Ka Wai	DR	PMH
24 November 2020	Dr. WONG Kin Yiu	CO	PWH
24 November 2020	Dr. WONG Yu Ting	DR	TMH

## List of Members admitted from 1 February 2020 till 31 January 2021

Admission date	Name	Specialty	Institute
24 November 2020	Dr. YEUNG Wan Lung Ryo	DR	QEH
24 November 2020	Dr. YOUNG Yee Man Catherine	DR	PWH
22 December 2020	Dr. CHAN Brian	CO	TMH
22 December 2020	Dr. CHAN Long	CO	PMH
22 December 2020	Dr. CHAN Yan Hei	DR	PWH
22 December 2020	Dr. CHEUNG Cheuk Man Kelvin	CO	QEH
22 December 2020	Dr. LEE Fat Kei	CO	TMH
22 December 2020	Dr. LEUNG Sze Nga Sheona	CO	PMH
22 December 2020	Dr. LI Yun	CO	PYNEH
22 December 2020	Dr. NG Justin Kar Wai	CO	PYNEH
22 December 2020	Dr. NG On Wa	DR	PMH
22 December 2020	Dr. SUTANTO Leone Lok-hei	CO	QEH
22 December 2020	Dr. TONG Ming Ho	DR	PYNEH
22 December 2020	Dr. WONG Chung Yan	CO	TMH
26 January 2021	Dr. CHAN Kwan Kit	DR	NDH
26 January 2021	Dr. LI Wai Ip	NM	QEH

## List of Trainee Member admitted from 1 February 2020 till 31 January 2021

Admission date	Name	Specialty	Institute
25 February 2020	Dr. CHAN Ka Wai Gary	NM	QMH
25 February 2020	Dr. NGAI King Shing	NM	PYNEH
31 March 2020	Dr. HO Chun Yee Ryan	CO	QEH
28 April 2020	Dr. LI Kwok Yan	DR	PMH
25 August 2020	Dr. CHAN Chun Ho	NM	TMH
25 August 2020	Dr. CHAN Ga Lam	CO	PMH
25 August 2020	Dr. CHAN Kwan Kit	DR	NDH
25 August 2020	Dr. CHAN Lok Yee	DR	KWH
25 August 2020	Dr. CHAN Ying	CO	TMH
25 August 2020	Dr. CHEUNG Ho Ming	CO	TMH
25 August 2020	Dr. CHIANG Yan Wa	DR	PYNEH
25 August 2020	Dr. HAYAT Nicolo	DR	KWH
25 August 2020	Dr. HOON Oi Hang	DR	PYNEH
25 August 2020	Dr. HUI Ka Luen	DR	QEH
25 August 2020	Dr. JIM Wing Hong	DR	TMH
25 August 2020	Dr. LEE Kelsey Kimyin	DR	KWH
25 August 2020	Dr. LO Phoebe Hiu Wai	DR	PMH
25 August 2020	Dr. LO Yuk Fong Grace	CO	PYNEH
25 August 2020	Dr. PUN Amrit	DR	TMH
25 August 2020	Dr. TANG Cheuk Yin	CO	QEH
25 August 2020	Dr. TANG Chun Lang	DR	UCH
25 August 2020	Dr. TSANG Hiu Man Vivian	CO	PWH
25 August 2020	Dr. TSE Tak Mong Desmond	DR	PYNEH

Admission date	Name	Specialty	Institute
31 March 2020	Dr. NG Justin Christopher	DR	QEH

## Forthcoming Meetings in 2021

Date	Event	Venue	Website
28 -31 January 2021	2021 Virtual SNMMI Mid-Winter and ACNM Annual Meeting	Virtual	<a href="https://mwm.snmmi.org/iMIS/SNMMI-MWM">https://mwm.snmmi.org/iMIS/SNMMI-MWM</a>
21-25 March 2021	Society of Abdominal Radiology (SAR) 2021 Digital Annual Meeting	Virtual	<a href="https://abdominalradiology.org/sar-subpages/annual-meeting/">https://abdominalradiology.org/sar-subpages/annual-meeting/</a>
27-28 March 2021	Abdominal Radiology Group of Australia & New Zealand (ARGANZ) Meeting 2021	Brisbane, Australia	<a href="https://www.arganz.org/index.php/annual-meeting/home/registration-2021.html">https://www.arganz.org/index.php/annual-meeting/home/registration-2021.html</a>
15-18 April 2021	18 <sup>th</sup> Asian Oceanian Congress of Radiology (AOCR2021 Spring in YOKOHAMA)	Hybrid	<a href="https://site.convention.co.jp/aocr2021yokohama/registration/">https://site.convention.co.jp/aocr2021yokohama/registration/</a>
18-22 April 2021	ARRS 2021 Virtual Annual Meeting	Virtual	<a href="https://arrs.org/am21">https://arrs.org/am21</a>
22-24 April 2021	The 13 <sup>th</sup> Asian-Oceanian Congress of Neuroradiology (AOCNR 2021)	Seoul, Korea	<a href="https://www.aocnr2021.org/mail/mail_210106.html">https://www.aocnr2021.org/mail/mail_210106.html</a>
14-16 May 2021	10 <sup>th</sup> IDKD Asia 2021: Diseases of Chest, Heart and Vessels	Hong Kong, SAR	<a href="https://www.idkd.org/cms/idkd-asia-hong-kong">https://www.idkd.org/cms/idkd-asia-hong-kong</a>
21-23 May 2021	The 51 <sup>st</sup> Annual Scientific Meeting of the Australian and New Zealand Society of Nuclear Medicine (ANZSNM)	Sydney, Australia	<a href="https://eventstudio.eventsair.com/anzsnm-2021/">https://eventstudio.eventsair.com/anzsnm-2021/</a>
22-26 May 2021	ASNR 59 <sup>th</sup> Annual Meeting & The Foundation of the ASNR Symposium 2021	Virtual	<a href="https://www.asnr.org/annualmeeting/">https://www.asnr.org/annualmeeting/</a>
4-8 June 2021	2021 American Society of Clinical Oncology Annual Meeting (ASCO 2021)	Chicago, USA	<a href="https://meetings.asco.org/am/meeting-info">https://meetings.asco.org/am/meeting-info</a>
12-15 June 2021	The Society of Nuclear Medicine & Molecular Imaging (SNMMI) 2021 Annual Meeting	Washington, USA	<a href="https://am.snmmi.org/iMIS/SNMMI-AM">https://am.snmmi.org/iMIS/SNMMI-AM</a>
1-4 July 2021	19 <sup>th</sup> Asian Oceanian Congress of Radiology (AOCR) incorporating Malaysian Congress of Radiology (MCOR) 2021	Kuala Lumpur, Malaysia	<a href="https://www.aocr2021.com/">https://www.aocr2021.com/</a>
19-21 August 2021	The 14 <sup>th</sup> Congress of Asian Society of Cardiovascular Imaging 2021 (ASCI 2021)	Da Nang City, Vietnam	<a href="https://asci-2020.org/">https://asci-2020.org/</a>
September 2021	Annual Scientific Meeting of Asian and Oceanic Society for Paediatric Radiology (AOSPR 2021)	Bali, Indonesia	<a href="https://aospr2021.com/">https://aospr2021.com/</a>
16-19 September 2021	RANZCR 71 <sup>st</sup> Annual Scientific Meeting (RANZCR 2021)	Melbourne, Australia	<a href="https://www.ranzcr2021.com/">https://www.ranzcr2021.com/</a>
17-21 September 2021	ESMO 2021 Congress	Paris, France	<a href="https://www.esmo.org/meetings/esmo-congress-2021">https://www.esmo.org/meetings/esmo-congress-2021</a>
20-23 October 2021	34 <sup>th</sup> Annual Congress of the European Association of Nuclear Medicine (EANM)	Hamburg, Germany	<a href="https://www.eanm.org/congresses-events/future-congress/">https://www.eanm.org/congresses-events/future-congress/</a>
21-24 October 2021	The 53 <sup>rd</sup> Congress of the International Society of Paediatric Oncology (SIOP 2021)	Hawaii, USA	<a href="https://siop-congress.org/">https://siop-congress.org/</a>
24-27 October 2021	2021 ASTRO Annual Meeting	Chicago, USA	<a href="https://www.astro.org/Meetings-and-Education/Micro-Sites/2021/Annual-Meeting">https://www.astro.org/Meetings-and-Education/Micro-Sites/2021/Annual-Meeting</a>
13-14 November 2021	9 <sup>th</sup> Joint Scientific Meeting of RCR & HKCR and 29 <sup>th</sup> Annual Scientific Meeting of HKCR	Hong Kong, SAR	<a href="https://www.hkcr.org/">https://www.hkcr.org/</a>
28 November - 2 December 2021	The Radiological Society of North America's 107 <sup>th</sup> Scientific Assembly and Annual Meeting (RSNA 2021)	Chicago, USA	<a href="https://www.rsna.org/annual-meeting">https://www.rsna.org/annual-meeting</a>

## HKCR Council Meeting Dates in 2021

26 January 2021	27 April 2021	27 July 2021	26 October 2021
23 February 2021	25 May 2021	31 August 2021	30 November 2021
30 March 2021	29 June 2021	17 September 2021	28 December 2021

# Congratulations to Professor Pek-Lan Khong – Honorary Member of the European Society of Radiology

Professor Pek-Lan Khong was awarded the Honorary Membership of the European Society of Radiology (ESR) at the European Congress of Radiology 2021 on 5<sup>th</sup> March 2021. This is an honor in recognition of her outstanding contribution to radiology. Prof. Khong in her acceptance speech thanked the support from the College and acknowledged the contributions of radiologists in Hong Kong and the region. Our College would like to congratulate Prof. Khong on obtaining this prestigious award in recognition of her outstanding, internationally-recognized achievements and leadership. 🎉

## Call for Application of HKCR Education and Research Fund

**HKCR Education and Research Fund is now open for application to support research projects, conference attendance and other activities between 1<sup>st</sup> July 2021 and 31<sup>st</sup> December 2021**

The objective of HKCR Education and Research Fund is to promote and assist career development, continuing education and research activities among members of Hong Kong College of Radiologists (HKCR) and international professional community.

Four Categories of Grants are available from the Fund:

- I. Education grant to assist HKCR members for overseas advanced training and international conventions.
- II. Education grant for Mainland China and overseas radiologists to participate in activities organized by HKCR.
- III. Conference grant to assist HKCR members in organizing educational activities.
- IV. Research grant to assist HKCR members to conduct pilot study in basic and clinical research.

The completed application form should be submitted to the Secretariat Office to the attention of the Chairman of the Committee of HKCR Education and Research Fund. Enquiries on details of grants and application forms can be directed to the College Secretariat. 📧

**Deadline for Application: 15<sup>th</sup> April 2021**

## FRCR 2021 Examination Schedule

### Spring 2021

Tuesday, 27 <sup>th</sup> April 2021	<b>First</b> FRCR in Clinical <b>Oncology</b> (Cancer Biology & Radiobiology / Clinical Pharmacology)
Wednesday, 28 <sup>th</sup> April 2021	<b>First</b> FRCR in Clinical <b>Oncology</b> (Medical Statistics / Physics)
Thursday, 29 <sup>th</sup> April 2021	<b>Final (Part A)</b> FRCR in Clinical <b>Oncology</b>

### Summer 2021

Wednesday, 9 <sup>th</sup> June 2021	<b>Final (Part A)</b> in Clinical <b>Radiology</b>
Thursday, 10 <sup>th</sup> June 2021	<b>First</b> FRCR in Clinical <b>Radiology</b> (Physics)
Friday, 11 <sup>th</sup> June 2021	<b>First</b> FRCR in Clinical <b>Radiology</b> (Anatomy)

### Autumn 2021

Wednesday, 1 <sup>st</sup> September 2021	<b>Final (Part A)</b> FRCR in Clinical <b>Oncology</b>
Thursday, 2 <sup>nd</sup> September 2021	<b>First</b> FRCR in Clinical <b>Oncology</b> (Cancer Biology & Radiobiology / Clinical Pharmacology)
Friday, 3 <sup>rd</sup> September 2021	<b>First</b> FRCR in Clinical <b>Oncology</b> (Medical Statistics / Physics)
Thursday, 9 <sup>th</sup> September 2021	<b>First</b> FRCR in Clinical <b>Radiology</b> (Physics)
Friday, 10 <sup>th</sup> September 2021	<b>First</b> FRCR in Clinical <b>Radiology</b> (Anatomy)

### Winter 2021

Wednesday, 17 <sup>th</sup> November 2021	<b>Final (Part A)</b> in Clinical <b>Radiology</b>

# Hong Kong Journal of Radiology

# HKJR

## 香港放射科醫學雜誌

All articles are available in full text on

[www.hkjr.org](http://www.hkjr.org)

ISSN 2223-6619

### Why HKJR?

- Publishes review articles, original articles, perspectives, pictorial essays, case reports, brief communications, and letters to the Editor
- Indexed in EMBASE/Excerpta Medica, SCOPUS, Emerging Sources Citation Index, and Index Copernicus
- Publishes Chinese abstracts alongside with the English abstracts
- Awards presented to the Best Original Article and the Best Case Report of each volume and awardees granted free registration for the annual scientific meeting of the Hong Kong College of Radiologists

VOLUME 20 • NUMBER 4 • 2017

**Theme of this Issue:**  
Gastrointestinal Imaging and Oncology

**Highlights of this Issue:**

- Magnetic Resonance Imaging for Staging of Primary Rectal Cancer: Imaging Prognosticators

### Multidisciplinary management is the trend of clinical practice

HKJR launches a series of **theme issues** which combine the expertise of **radiologists**, **oncologists**, and **nuclear medicine physicians** in the management of clinical problems. This enables in-depth exploration of specific clinical problems from different angles.

VOLUME 21 • NUMBER 2 • 2018

**Theme of this Issue:**  
Head and Neck Imaging & Oncology

**Highlights of this Issue:**

- Update on Ultrasound Diagnosis for Thyroid Cancer
