

# HONG KONG COLLEGE OF RADIOLOGISTS NEWSLETTER

## President's Jotting

Dr. WONG Yiu Chung

As the world celebrated the recent Olympic Games, we witnessed not just athletic excellence but also the spirit of perseverance and innovation. Just like our athletes, we in the field of radiology strive for excellence every day, pushing the boundaries of what's possible in patient care and technology.

Since our last newsletter, the College has been buzzing with activities! As part of our mission on professional training, the College has continuously extended the scope in radiology education. Importantly, we have embarked in new venture of commencing the development of training faculty of College. We recognise the importance of competency-based education in enhancing the quality of postgraduate medical education (PGME). Along the way, workplace-based assessments (WBA) have already been adopted as essential components to drive self-directed learning through formative feedback by trainers and reflection by trainees. In the coming future, the College will incorporate WBA tools into various facets of its training progressively. Given the importance of trainers in the role of upholding the quality of PGME, the College has organised two educational courses in May 2024 for faculty development to help trainers putting

competency-based learning theories into practice. The College Warden, Dr. WL Poon & his team in Education Committee and the Working Group on WBA in Radiology convened by Dr. Kevin Fung deserve our highest praise for their tireless efforts devoted in this important training development.

At the same time, I am thrilled to announce the successful establishment of interventional radiology as a recognized subspecialty of Radiology in February 2024! This significant achievement will undoubtedly benefit our profession and enhance the training of our trainees, providing them with more focused educational pathways and opportunities for advanced practice. The IR Subspecialty Training Programme is scheduled to commence on 1<sup>st</sup> October 2024. The College is very grateful to the IR Subspecialty Board chaired by Dr. WL Poon, and the assistance of an external assessor in the

New Fellows

accreditation exercises and provide us with valuable recommendations.

On examination side, I want to assure our members and fellows that the College is constantly reviewing and updating our examination system to reflect the latest advancements and best practices in radiology. Our goal is to ensure that our assessments are not only rigorous but also relevant to the evolving landscape of our field. From Autumn 2024 onwards, there will be new changes to the marking system for the Joint Final (Part B) Examination in Clinical Oncology and Clinical Radiology. We are especially grateful for the contributions of a delegated team led by the Warden and Chairman of Examination Board, comprising of our Examination Board members, examiners, observers and secretarial staff who has been working closely with the RCR Examination team via regular virtual meetings on preparing the logistics and the technical requirements for online examinations. I would like to express my sincere gratitude to our Warden, Dr. WL Poon, and Chairman of Examination Board, Dr. Stephen Cheung, as well as all examiners, observers, invigilators and helpers who have contributed enormously.

The College has hosted a series of academic events that have brought together some of the brightest minds in radiology. Additionally, our overseas visits have opened doors to international collaborations and knowledge sharing. Highlights include the Launching Ceremony of Shenzhen Medical Specialist Training, 16<sup>th</sup> Congress of Asian Society of Cardiovascular Imaging (ASCI 2023), 14<sup>th</sup> Asian Oceanian Congress of Neuroradiology (AOCNR 2023) in Singapore, 7<sup>th</sup> AOSOR Youth Club (AOSOR-YC-2023) in Korea, 8<sup>th</sup> Asian Oceanian Radiology Forum (AORF 2023) at 79<sup>th</sup> Korean Congress of Radiology (KCR 2023) in Korea, 109<sup>th</sup> Scientific Assembly and Annual Meeting of Radiological Society of North America (RSNA 2023) in USA, European Congress of Radiology (ECR 2024) in Vienna, The 9<sup>th</sup> Asian Oceanian Radiology Forum (AORF 2024) during

22<sup>nd</sup> Asian Oceanian Congress of Radiology (AOCR 2024) in Chinese Taipei, The 6<sup>th</sup> Asian Radiology Summit (ARS) during Japan Radiology Congress 2024 in Japan. Our College continues to have close collaboration with other organisations like AOSR, AOSNHNR, ASCI, BIR, KSR, BSNR, etc. for various academic and scientific exchange.

While we have been kept busy in resuming our schedule back to normalcy from the Covid Pandemic and engaging in the packed programs of various Radiology activities, we have kept eyeing on the need to cultivate our next generation. Our College's Young Fellows Network (YFN) was formed in November 2017 with the objective to enhance communication between the Young Fellows and the College, to encourage more Young Fellows to contribute to the College and community, to nurture the Young Fellows in professional development and College involvement, as well as to organise activities that are in line with the objectives of the College. Fellows who have been awarded Fellowship of HKCR within the past 10 years are considered "Young Fellows" and automatically become members of the Young Fellows Network. Many thanks go to the Executive Committee of YFN, co-convened by Dr. Kevin Fung and Dr. Edwin Wong. Dr. Kevin Fung and Dr. Edwin Wong represented our College in the Young Fellows Chapter (YFC) of the Academy in 2023-2024. Dr. Joyce Chan and Dr. Kelvin Bao were nominated by our College and awarded by the Hong Kong Academy of Medicine to be the Distinguished Young Fellows in 2023.

As we move forward, let's carry the Olympic spirit with us - striving for excellence, supporting one another, and embracing innovation. And remember, while we may not all be able to dive like the gold medalist Quan Hongchan, we can certainly aim to win the gold in teamwork and collaboration! So, let's keep our eyes on the prize - whether it's curing our cancer patient or simply a well-done radiology report! 🏊

- 32 Congratulations
- 33 HKCR Council Meeting Dates in 2025
- 33 Forthcoming Meetings in 2025

It is with great enthusiasm that I share with you some of the recent milestones and advancements within our College, marking significant progress in radiology training and professional development. These achievements not only reflect our commitment to excellence but also align with global trends in radiology practice and education.

Once of the most noteworthy achievements is the successful establishment of **Interventional Radiology (IR)** as a new clinical subspecialty under our College. This landmark development has been approved by the Education and Accreditation Committee of the Medical Council of Hong Kong, which, at its meeting on **19 January 2024**, accepted the recommendation of the Hong Kong Academy of Medicine to include **"Interventional Radiology (介入放射科)"** in the Specialist Register. At the time of writing this column, we already have 74 college fellows accredited in the subspecialty of IR.

Interventional Radiology has emerged as a cornerstone of minimally invasive, image-guided therapies, offering patients less invasive and more effective treatment options. The formalisation of IR as a subspecialty demonstrates our commitment to advancing medical care and ensuring that our radiologists are equipped to meet the ever-evolving needs of healthcare systems, both locally and globally.

This achievement is the result of years of tireless effort from many individuals, including our council members, subspecialty board members, trainers, and fellows. I would like to take this opportunity to thank everyone involved for their dedication and hard work in laying the groundwork for this milestone. The establishment of this subspecialty is not just an endpoint but a beginning - a call to action for all of us to build on this foundation, nurture talent, and further elevate the standards of interventional radiology practice in Hong Kong.

By formally recognizing Interventional Radiology as a subspecialty, our College aims to:

1. **Promote Public Awareness:** Raise awareness about the vital work of Interventional Radiologists and improve public access to IR services.
2. **Facilitate Specialised Training:** Ensure that radiologists pursuing careers in Interventional Radiology receive the knowledge, skills, and expertise necessary to deliver safe and effective care to our patients.

3. **Foster Multidisciplinary Collaboration:** Enhance collaboration and knowledge exchange between Interventional Radiologists and other medical specialties, encouraging a holistic approach to patient management and treatment planning.
4. **Elevate Hong Kong's Healthcare Standards:** Strengthen the reputation of Hong Kong's healthcare system, attract top talent, and encourage research and innovation in this rapidly evolving field.

This achievement is not merely a milestone but a platform for further growth. Let us seize this opportunity to advance the field of Interventional Radiology, both locally and globally, and to integrate it seamlessly into our healthcare system.

As we continue to elevate our training standards, another significant development is the adoption of **Workplace-Based Assessment (WBA)** into our training curriculum. At the meeting with Training Heads on 19 June 2024, we discussed various updates on training, including WBA, Faculty Development, and the plan for the development of e-Portfolio. We will start off with incorporating Direct Observation of Procedural Skills (DOPS) to higher specialist training and IR subspecialty training. In preparation, dedicated hands-on training sessions for familiarisation with WBA will be jointly arranged with JCIMED of Hong Kong Academy of Medicine.

WBA represents a shift toward more dynamic, real-time, and practical evaluation methods, which emphasize the importance of assessing trainees in their actual clinical environments. This approach allows trainers to provide immediate feedback, identify areas for improvement, and foster a deeper understanding of clinical competencies. By embedding WBA into our

curriculum, we are not merely introducing a new tool but are taking a significant step in the process of **Faculty development**.

Faculty development is an evolving process that requires adaptability, innovation, and a forward-looking mindset. By integrating WBA, we are aligning ourselves with global best practices in medical education and ensuring that our training programs remain relevant and robust. This approach also underscores our commitment to nurturing competent, confident, and compassionate radiologists who are prepared to meet the challenges of modern healthcare.

### Moving Forward Together

These developments - the establishment of Interventional Radiology as a subspecialty and the integration of Workplace-Based Assessment - reflect our College's unwavering dedication to excellence in education, training, and professional development. They are also a testament to the collective vision and effort of our members, fellows, and trainees, who continue to uphold the highest standards of radiology practice.

As we look to the future, I encourage all of you to take an active role in shaping the growth and success of these initiatives. Whether through mentorship, active participation in training programs, or contributing to the development of new assessment tools, your involvement will be critical in ensuring the continued success of our College and the profession as a whole.

Let us celebrate these achievements and, at the same time, continue striving for excellence in all aspects of radiology. Together, we can build an even stronger foundation for the future of our specialty. 🩺

It is my honour and pleasure to receive the baton from Dr. Lui Chun Ying and serve as the new Chief Editor of the Newsletter subcommittee. The subcommittee would like to thank the leadership and guidance from Dr. Lui throughout the years. We would also like to thank the unwavering support from our College Secretariat.

After a hiatus of two years, the Newsletter subcommittee is proud to present to you the Autumn 2024 Issue. In this issue, fellows and members will continue to receive College updates from the President's Jotting and the Warden's Column. After three years of COVID-19 global pandemic, we witnessed how our community gradually resumed normalcy in full. Most College scientific meetings switched back to on-site meeting format from the interim virtual meeting format. Scientific meetings organisers have successfully re-created the sense of community and collective learning during on-site events.

The Newsletter Subcommittee is preparing the seventh issue of 'Heed, Knowledge, Cautionary in Radiology Reading Room' (HKCRRR). We aim to share with fellows and members interesting radiology cases with radiological findings which can be easily misinterpreted and present the learning points. Fellows and members are welcome to share their cases with us, as well as give feedback for the published cases. Stay tuned. 📖

## Call for Application – HKCR Education and Research Fund

**HKCR Education and Research Fund is now open for application to support research projects, conference attendance and other activities between 1<sup>st</sup> July 2025 and 31<sup>st</sup> December 2025**

The objective of HKCR Education and Research Fund is to promote and assist career development, continuing education and research activities among members of Hong Kong College of Radiologists (HKCR) and international professional community.

Four Categories of Grants are available from the Fund:

- I. Education grant to assist HKCR members for overseas advanced training and international conventions.
- II. Education grant for Mainland China and overseas radiologists to participate in activities organized by HKCR.
- III. Conference grant to assist HKCR members in organizing educational activities.
- IV. Research grant to assist HKCR members to conduct pilot study in basic and clinical research.

The completed application form should be submitted to the Secretariat Office to the attention of the Chairman of the Sub-committee of HKCR Education and Research Fund. Enquiries on details of grants and application forms can be directed to the College Secretariat. 📖

**Deadline for Application: 15<sup>th</sup> April 2025**

## Call for Application – HKCR 15A Travelling Fellowship 2025

HKCR 15A Travelling Fellowship aims to provide Fellows of Hong Kong College of Radiologists with advanced overseas training in United Kingdom for their continuous professional development, which may include attachment, workshops, short training courses, and study tours.

HKCR 15A Travelling Fellowship 2025 is now open for application. Application guidelines and application form are available at the College's website: [https://hkcr.org/news.php/events\\_list/cid,3/nid,203](https://hkcr.org/news.php/events_list/cid,3/nid,203) 📖

**Deadline for Application: 30<sup>th</sup> April 2025**

### Clinical Radiology

### First Examination for the Fellowship in Nuclear Medicine – June 2023

**Date** : 12<sup>th</sup> & 16<sup>th</sup> June 2023  
**Venue** : 5/F, Hong Kong Academy of Medicine Jockey Club Building, Aberdeen, Hong Kong  
**Examiners** : Dr. MA Wai Han (Chief Examiner)      Dr. HUI Yan Ho Yancol      Dr. KUNG Boom Ting John  
                         Dr. WU Kwan Kit Sam                              Ms. CHAN Yee Wah Eva

#### Successful Candidates:

CHAN Jasmine Ka-lei      *Pamela Youde Nethersole Eastern Hospital*      HUI See Fun      *Queen Elizabeth Hospital*  
CHEUNG Ho Ming      *Queen Elizabeth Hospital*      KONG Tai Wai      *Pamela Youde Nethersole Eastern Hospital*  
CHU Jocelyn Wai-Ling      *Tuen Mun Hospital*

### Final Examination for the Fellowship in Nuclear Medicine – September 2023

**Date** : 4<sup>th</sup> & 16<sup>th</sup> September 2023  
**Venue** : 5/F, Hong Kong Academy of Medicine Jockey Club Building, Aberdeen, Hong Kong  
**Examiners** : Prof. Erik S. MITTRA (External Examiner)      Dr. HO Wai Yin (Chief Examiner)      Dr. CHENG Kam Chau  
                         Dr. NG Koon Kiu                              Dr. WONG Sze Chun  
**Invigilator** : Dr. MA Kwok Man

#### Successful Candidates:

CHAN Ka Wai Gary      *Queen Mary Hospital*      TSOI Pak Lai      *Pamela Youde Nethersole Eastern Hospital*  
CHIU Ka Lun      *Tuen Mun Hospital*

### First Examination for the Fellowship in Nuclear Medicine – December 2023

**Date** : 11<sup>th</sup> & 15<sup>th</sup> December 2023  
**Venue** : 5/F, Hong Kong Academy of Medicine Jockey Club Building, Aberdeen, Hong Kong  
**Examiners** : Dr. HUI Yan Ho Yancol (Chief Examiner)      Dr. NG Koon Kiu  
                         Dr. WONG Yuet Hung Catherine                              Mr. TANG Chung Ting Teddy

#### Successful Candidate:

CHEUNG Ho Yan Michelle      *Pamela Youde Nethersole Eastern Hospital*

### First Examination for the Fellowship in Nuclear Medicine – June 2024

**Date** : 7<sup>th</sup> & 14<sup>th</sup> June 2024  
**Venue** : 5/F, Hong Kong Academy of Medicine Jockey Club Building, Aberdeen, Hong Kong  
**Examiners** : Dr. AU YONG Ting Kun (Chief Examiner)      Dr. WONG Kwong Kuen  
                         Dr. WONG Sze Chun                              Ms. CHAN Yee Wah Eva  
**Observers** : Dr. NG Kwok Sing                              Dr. WONG Wai Chung  
                         Mr. LI Fu Wing Alvin

#### Successful Candidate:

SO Ching      *Tuen Mun Hospital*

### Exit Assessment – January 2023

**Date** : 8<sup>th</sup> – 10<sup>th</sup> January 2023

**Venue** : Exam Rooms, 5/F, Hong Kong Academy of Medicine Jockey Club Building, 99 Wong Chuk Hang Road, Aberdeen, Hong Kong

#### Radiology

**Chairman of Assessment Panel:** Dr. POON Wai Lun

**Assessors:** Dr. HON Yu Wai Timothy, Dr. KHOO Lai San Jennifer, Dr. LAM Poy Wing Tina, Dr. WONG Ka Tak & Dr. WONG Yiu Chung

## 香港放射科醫學雜誌

All articles are available in full text on

[www.hkjr.org](http://www.hkjr.org)

ISSN 2223-6619

### Why HKJR?

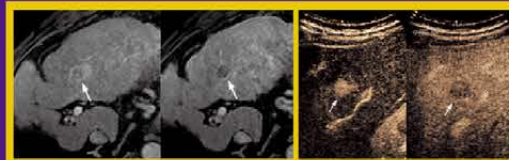

- Publishes review articles, original articles, pictorial essays, case reports, brief communication, and letters to the Editor
- Indexed in EMBASE/Excerpta Medica
- Publishes Chinese abstracts alongside with the English abstracts
- Awards will be presented to the Best Original Article and the Best Case Report of each volume and the awardees will be granted free registration for the annual scientific meeting of the Hong Kong College of Radiologists

VOLUME 20 • NUMBER 3 • 2017

**Theme of this issue:**  
Imaging and Treatment of  
Hepatocellular Carcinoma

**Highlights of this issue:**

- Gadoteric Acid-enhanced Magnetic Resonance

### Multidisciplinary management is the trend of clinical practice

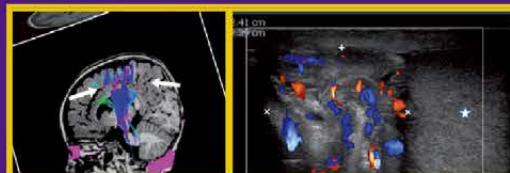

HKJR launches a series of **theme issues** which combine the expertise of **radiologists**, **oncologists**, and **nuclear medicine physicians** in the management of clinical problems. This enables in-depth exploration of specific clinical problems from different angles.

VOLUME 19 • NUMBER 3 • 2016

**Theme of this issue:**  
Paediatric Imaging

**Highlights of this issue:**  
**Review Articles**

- Radiation Protection in Paediatric Computed

## Harmonizing Compassion and Excellence: My Observership Experience at the Royal Marsden Hospital

### Introduction

London's brisk air welcomed me as I began my long-awaited month-long observership at the esteemed Royal Marsden Hospital (RMH) Sutton branch. Despite the drizzle, my spirits remained high. Let me share the memorable moments and valuable insights from my time in the heart of clinical oncology.

### The Breast Unit: Where Insights Blossom

The Breast Unit, a vibrant hub within the Royal Marsden, welcomed me with open arms. With over 9,000 referrals annually, it stands as one of the largest units of its kind in the UK. Patients from around the world seek care here, drawn by the promise of world-leading quality.

During my stay, I immersed myself in the daily rhythm of clinics, multidisciplinary meetings, quality assurance rounds and radiotherapy services. The clinical oncology team expertly managed patient care, striking a delicate balance between empathy and expertise. Their swift adoption of the latest evidence demonstrated a dynamic approach to medical advancements.

### Team Wonderful

Dr. Imogen Locke, with her elegant smile, was the embodiment of grace and wisdom, offering patients clear and well-constructed advice. Dr. Anna Kirby, the astute ESTRO president, expertly navigated the clinical landscape with her profound knowledge and sharp clinical acumen. (And she kindly invited us to the upcoming ESTRO Meets Asia!) Dr. Sara Settatree, one of the diligent investigators for the ongoing PARABLE trial, stands out as one of the kindest and gentlest clinicians I have ever encountered. Dr. Navita Somaiah, the KORTUC investigator and a heartwarming clinician, ran the MDT clinics efficiently with a finesse that spoke volumes of her expertise. And then there was the superintendent radiation therapist, Ms. Sophie Alexander. She is a valued member of the steering group for RCR's 'On Target 2: Updated Guidance for Image-Guided Radiotherapy.' During our conversation, she generously shared her insights on promoting and

developing RTT-led practice for a full hour—an experience that left me exceptionally inspired.

### The Lovely Morning Tea

As my time in London drew to a close, I stepped into the role of ambassador for HKCR at the RCR. Meeting President Dr. Katharine Halliday and Global Partnerships Manager Mr. Patrick Courtney over morning tea was delightful. We had some lively chats about family, work, reminiscing about our own FRCR exam survival stories, and delving into topics like college development plans and recent international collaborations (the RCR Clinical Oncology Officers had just helped to deliver a conference in Kolkata!)

Mr. Courtney gifted me a puzzle of London—a tangible reminder of their hospitality. And there was Dr. Louise Hanna, the Medical Director in Education and Training, and the author of our bible "Practical Clinical Oncology". We embraced at the entrance of the College, a moment that has spanned years. Back in 2015, she had signed my textbook in the Cardiff FRCR course. Her enduring grace stands as a testament to the fortitude of those who shape our field.

Dr. Katharine Halliday (Left) and Dr. Louise Hanna (Right)

### The Journey Continues

This observership extended beyond a professional excursion, evolving into a transformative journey that enriched my understanding of quality care. As I pen these reflections for the newsletter, I carry with me not only the wealth of knowledge gained but also the inspiration drawn from each encounter, every smile, and the stories of resilience and hope. The insights I gleaned from this experience will resonate in my practice, as I aim to embody the dedication to excellence shown by the RMH team.

*May our paths continue to intersect, like the winding streets of London! 🌸*

Left to Right: Dr. Sara Settatree, Dr. Navita Somaiah and the MDT team, Ms. Sophie Alexander, Dr. Anna Kirby and Dr. Imogen Locke

It is my great honor to be awarded the HKCR 15A Travelling Fellowship, supporting my Musculoskeletal overseas training at the Oxford University Hospital in May 2024, which is a valuable experience for me. This program has been a great opportunity for me to enhance my skills, deepen my knowledge and gain exposure in the field of musculoskeletal radiology.

Oxford University Hospital is a tertiary referral centre for various orthopaedics entities, including spine and tumor diseases. The musculoskeletal radiology service provided in Oxford University Hospital was vast, including full lists of ultrasound guided, CT guided and fluoroscopic guided musculoskeletal intervention apart from daily diagnostic service. It included a huge variety of disease entities, including bone and soft tissue tumor, rheumatological diseases and sports imaging. It also provided a lot of educational activities, which included weekly educational lectures and conferences.

Through joining the daily readout sessions with attending doctors and fellows, I learned a lot about imaging findings and presentation of rheumatological diseases and musculoskeletal tumors. I also had the chance to observe procedures including joint injections, aspirations, bone and soft tissue tumor biopsies and vertebral augmentations. Regular interdisciplinary conferences and discussions with orthopaedics surgeon and pathologists had enriched my understanding of the disease presentations and managements.

During my attachment, I had the pleasure to meet Dr. Katharine Halliday, the President of The Royal College of Radiologists at the headquarter of The Royal College of Radiologists. We enjoyed a nice chat and exchange regarding the ongoing development of artificial intelligence and healthcare system in the United Kingdom and Hong Kong.

Finally, I would like to sincerely thank HKCR, especially the chairman and members of the 15A Travelling Fellowship subcommittee and RCR for supporting this rewarding learning experience and opportunity to foster the link between two Colleges. It has been a wonderful learning experience and I hope I can apply the new knowledge to clinical practice. 🩺

The 2023 American Institute for Radiologic Pathology (AIRP) course in Hong Kong was held jointly by the AIRP and the Hong Kong College of Radiologists (HKCR) at the Hong Kong Academy of Medicine Jockey Club Building from 26<sup>th</sup> – 28<sup>th</sup> May 2023.

Due to the Covid-19 pandemic, this AIRP course has been repeatedly postponed for the past few years. We were excited to finally gather in person and learn from our distinguished speakers. This course attracted over 140 radiologists from Hong Kong.

AIRP is renowned in their unique teaching approach that emphasizes on the pathophysiological understanding of disease as the basis of radiological interpretation. The intensive three-day course focused on Musculoskeletal Imaging, Breast Imaging and Paediatric Radiology, with comprehensive lectures and interactive case-based sessions. We were privileged to have Dr. Mark Murphey, Prof. Jennifer Harvey and Dr. Lauren Sena from the United States deliver these educational sessions.

Dr. Murphey's "Alphabet Soup on Cystic Lesions of Bone" is highly educational, featuring lots of illustration of pathological slides that enhance the audience's understanding on this topic. His interactive teaching

approach also encourages constant feedback from the audience.

Prof. Harvey lectures and interactive cases on breast MRI effectively improved our knowledge on MRI assessment of breast lesions. She also shared her experience coaching her fellows emphasizing the importance of recognizing new lesion which inferred higher level of suspicion.

Dr. Sena is an expert in paediatric cardiac imaging. Her lectures on congenital heart disease were highly informative, with lots of emphasis on the embryology and pathogenesis of disease, making this complex field

much easier to understand. Her interactive cases on paediatric mediastinal mass also gave us a detailed approach in this disease group.

Overall this AIRP course received very positive feedback. The lecture series and case-based sessions were highly effective. The audience was enlightened on a new approach to radiologic diagnosis of disease.

We would like to express our heartfelt gratitude to the AIRP and HKCR for the effort and support in this highly rewarding and effective learning experience. 🍷

# 30<sup>th</sup> ANNIVERSARY CELEBRATION

## HONG KONG COLLEGE OF RADIOLOGISTS

17<sup>TH</sup> JUNE 2023

Dr. Kevin Fung & Dr. Elaine Kan

The College celebrated her 30<sup>th</sup> Anniversary with a magnificent evening at the Hong Kong Academy of Medicine. The dinner was a wonderful occasion for Fellows and Friends of the College to reminisce and reunite in a convivial atmosphere. The evening was filled with joy and laughter, as well as appreciation to those who have contributed to the establishment and success of our College. One of the highlights was the presentation of Distinguished Contribution Award of the Hong Kong College of Radiologists to Dr. Jennifer Khoo and Dr. Chan Tze Mun, for their immense contribution and dedication to the field of Radiology and Clinical Oncology respectively.

The dinner commenced with a special “Down memory lane” photo show. The photos were handpicked from the College’s photo archive by Dr. Lilian Leong and Dr. Jennifer Khoo, reminding us of fond memories of our College’s amazing achievements by members from the Preparatory Committee, Inauguration Preparatory Subcommittee, the College Council since the founding Council, various committees and subcommittees, honorary legal advisor and honorary auditors and Hang Seng Bank & Hang Seng Investment Management team in the past 30 years.

Dr. Lilian Leong, the Founding President of HKCR, shared with us precious moments of the Inaugural Ceremony of HKCR in 1992 and expressed gratitude to our College Secretariat, Mrs. Mabel Lui, Ms. Rosita Lee and Mr. Charles Chan for their unfailing service to our College.

Founding Council Members, Dr. Hector Ma, Professor Jonathan Shum, Dr. Peter Choi, Dr. Ming Tak Chau, and our then-President Dr. Chun Key Law, literally brought us down the memory lane by recounting fond memories and anecdotes during the early years of HKCR. Senior Fellows, Professor Ann King, Professor James Griffith and Dr. Ooi, as well as Honorary Treasurer Dr. Ka On Lam shared with us the College's contribution to Education and nurturing of Young Fellows.

The evening was filled with brilliant musical performance, starting with a fantastic Solo by Dr. Brian Lee and followed by our very own band "College Echo", formed by a group of talented young radiologists from various hospitals (Vocalists - Dr. Adrian Yeung, KWH and Dr. Peggy Tang, QEH; Keyboard - Dr. William Wong, UCH; Bass/Guitarist – Dr. Matthew Mak, KWH). The audience was swept off their feet with the band's rendition of classics like "Fly me to the moon" and "分鐘需要你".

To commemorate and celebrate the 30<sup>th</sup> Anniversary of HKCR, the HKCR Young Fellows Network, led by Dr. Billy Lai, has meticulously hand-picked photographs and designed a set of special souvenir stamps. Important milestones and progress in terms of College and technological innovation relevant to the fields of Radiology, Clinical Oncology and Nuclear Medicine were highlighted, including the Inaugural Ceremony, Ho Hung Chiu Lecture, Lilian Leong Oration and Joint Admission Ceremonies with the Royal College of Radiologists.

Special prizes were also arranged to commemorate this extraordinary occasion. In addition to HKU Mascot silver and gold plated pins, limited edition "Radiology 2000 Hong Kong" First Day Cover were amongst our bountiful table prizes. Everyone was indeed a winner – all dinner guests could bring home a specially designed tote bag which celebrates 31 years of HKCR's Establishment, 128<sup>th</sup> year of discovery of X-rays and symbolises many other great ideas which made our field an integral part of modern healthcare.

The evening concluded with an exciting lucky draw, with fantastic gifts generously donated by our College Councilors.

As the MCs at the Dinner, we were delighted to see that everyone enjoyed the evening immensely. We would like to thank Dr. Lilian Leong, Dr. CK Law, the Organising Committee, and the College Secretariat for their wonderful effort in making this event a huge success and one to be remembered! 🎉

## Seminar on Nuclear Power Plant & Radioactive Waste Water Disposal, 27<sup>th</sup> August 2023

Dr. Francis LEE, Department Manager (Medical Physicist), Department of Clinical Oncology, Queen Elizabeth Hospital

A seminar on 'Nuclear Power Plant & Radioactive Waste Water Disposal' was held on 27 August 2023 at the Hong Kong Academy of Medicine Jockey Club Building. The event was organized by the Hong Kong College of Radiologists, convened by Dr. Lilian Leong and Dr. Francis Lee. In view of the increasing concern on the plan to dispose waste water in the Fukushima Nuclear Power Plant by the Japanese authority, the College has promptly initiated such an event to help medical colleagues better prepare for queries from patients and the public.

The seminar attracted over 150 attendants, including radiologists, oncologists and medical physicists. It was an honour to have Prof. Afshin Gangi, Past President of the Cardiovascular and Interventional Radiological Society of Europe (CIRSE), to share his personal experience in France, when the Chernobyl incident happened in 1986. His sharing highlighted the worries of the public after a nuclear incident. The seminar also invited senior medical physicists from local hospitals, who are experts in radiation safety, to give an overview on the evolution of nuclear power technologies, and the handling of radiation emergencies. The seminar then moved on to discuss the radiation risk arising from the proposal of the Fukushima Daiichi Nuclear Power Station, to dispose of its radioactive waste water in storage to the open sea. An account of the Nuclear Plant incident caused by the 2011 Tohoku Earthquake and Tsunami, the summary of the IAEA report on the radioactive waste water disposal plan, and the potential radiation risk involved, was also presented.

Q & A session was conducted at the end, with enthusiastic attendants raising questions about potential radiation risk on Hong Kong citizens. Although it was by no means to give definitive answers to all questions, the local experts, consisted of a panel of senior medical physicists, tried their best to interpret the information on hand, and to explain and analyse the situation. It was hoped that medical colleagues could gain more insight into the incident, and be better equipped with knowledge that can help them advise their patients and the public. 💡

The meeting brought together more than 300 healthcare professionals, composing of international and local specialists in paediatric radiology from 20 countries/regions around the world. Lectures and multidisciplinary symposiums were delivered by both local and international faculties. We had the honour of hosting over 30 international and over 20 local faculty members who shared their knowledge and gave us insight into each of their respective subspecialised areas. There were lectures by outstanding speakers from around the world which covered a range of topics and anatomical regions including cardiovascular, nephro-urological, neurological, chest, abdominal, musculoskeletal and head

The 2-day conference not only facilitated the learning and sharing of knowledge in paediatric radiology, it also brought together colleagues and friends from around the world after years of isolation during the COVID pandemic, encouraging network building in the field and fostering foundations for future collaborations. As radiology trainees with a passion for paediatric radiology, we were inspired by the insightful talks by local and international speakers alike, bringing home heightened interest to further our exploration into the field of paediatric radiology. 🍷

## 10<sup>th</sup> Joint Scientific Meeting of RCR & HKCR 31<sup>st</sup> Annual Scientific Meeting of HKCR

**18<sup>th</sup> - 19<sup>th</sup> NOVEMBER 2023**  
**(SAT & SUN)**

HONG KONG ACADEMY OF MEDICINE JOCKEY CLUB BUILDING  
HONG KONG SAR, CHINA

Dr. WONG Yu Ting, Tuen Mun Hospital

After years of adapting to the challenges posed by the COVID-19 pandemic, we are excited to welcome the return of our long-awaited in-person annual conference! The 10<sup>th</sup> Joint Scientific Meeting of the Royal College of Radiologists & Hong Kong College of Radiologists and 31<sup>st</sup> Annual Scientific Meeting of Hong Kong College of Radiologists was successfully held at the Hong Kong Academy of Medicine Jockey Club Building on 18<sup>th</sup> and 19<sup>th</sup> November 2023.

The virtual ASM in the past three years were held with great success, but undoubtedly the vibrant engagement of face-to-face interactions in an on-site conference is irreplaceable. This year, we could finally reconnect each other with more dynamic discussions. The meeting comprised an extensive two-day scientific program featuring a diverse range of topics. We were delighted to be joined by a panel of renowned international experts from the United Kingdom, the United States, Singapore, South Korea, Italy, Germany, Mainland China, Macau, as well as our local faculties. The highlights of this year's meeting were "Urological Malignancies", "Cardiovascular Radiology", "Head & Neck Malignancies" and "Medico-legal Issues". The multidisciplinary symposium on prostate cancer offered a comprehensive review and insights into the latest advances from various experts in the field. It encompassed discussions ranging from imaging and staging to the latest advances in prostate cancer treatment, providing the audience with in-depth knowledge on this hot topic.

Numerous high-quality research projects and educational exhibits from Radiology, Clinical Oncology and Nuclear Medicine were accepted as oral and poster presentations. Accepted posters were available in the online E-poster showcase as well as electronically displayed on large touchscreens at the foyer. Various prizes were awarded to those with outstanding performances in the oral and poster presentations. Many congratulations to the prize recipients!

With a view to encourage more regional radiologists to attend the Scientific Meeting, the Education and Research Fund of our College sponsored Dr. Lee Bo Ching from National Taiwan University Hospital in Chinese Taipei, Dr. Tsuneta Satonori from Hokkaido University Hospital in Japan, Dr. Leong lat Cheng and Dr. Si Wai Tat from Conde S. Januário Hospital in Macau, Dr. Koi Vance Yung Chean from Hospital Wanita & Kanak-kanak Sabah in Malaysia, Dr. Chung Eric from University Malaya in Malaysia, Dr. Choi Yang Sean from Asan Medical Center in South Korea, as well as Dr. Xu Peng from Sichuan Cancer Hospital in Mainland China.

We would like to express our immense gratitude to the members of the Scientific and House Subcommittees, the College Secretariat for organizing this event, our colleagues who have helped us as chairpersons, film quiz organizers, abstract reviewers, adjudicators for various prizes and awards, our sponsors for their enthusiastic support, the audio-visual team, the photography team, our secretaries and other helpers, including trainees and fellows for their unfailing support and co-ordination of various activities. 🍷

### The HKSDR Trust Fund Award for the Best Oral Presentation in the Radiology Specialty:

#### Dr. YIP Wei-Lam Thomas

Department of Radiology, Queen Mary Hospital  
*"Making Use of Your Natural Partner to Assess for Instability in Ankle Fractures"*

### The Hong Kong Society of Clinical Oncology Award for Best Paper in Clinical Oncology:

#### Dr. LIU Tsz Chim

Department of Clinical Oncology, Pamela Youde Nethersole Eastern Hospital  
*"Moderate Hypofractionation versus Conventional Fractionation Volumetric Modulated Arc Therapy for Definitive Treatment of Localised Prostate Cancer – Single Centre Experience In Hong Kong"*

### The Hong Kong Society of Clinical Oncology Award for the Best Poster in the specialty of Clinical Oncology:

#### Dr. KAM Tsz Yeung

Department of Clinical Oncology, Pamela Youde Nethersole Eastern Hospital  
*"Implementation and clinical outcome of low dose total skin electron beam therapy (TSEBT) – single institution experience"*

### The Hong Kong Society of Nuclear Medicine and Molecular Imaging Award for Best Paper in Nuclear Medicine:

#### Dr. LI Wai Ip

Nuclear Medicine and Clinical PET Centre, Queen Elizabeth Hospital  
*"Influence of Hypoalbuminemia on 18F-FDG Uptake in the Liver and Mediastinal Blood Pool"*

### The HKSIR Award for the Best Oral Presentation in the sub-specialty of Interventional Radiology:

#### Dr. FUNG Kin Fen Kevin

Department of Radiology, Hong Kong Children's Hospital  
*"Percutaneous Thoracic Duct Intervention for Management of Traumatic and Non-Traumatic Chylothorax – A 5-Year Multicentre Experience"*

### The Young Presenter's Award

#### Radiology Stream:

# The 23<sup>rd</sup> Joint Ceremonies for Admission of New Fellows of the Royal College of Radiologists & HKCR, 18<sup>th</sup> November 2023

Dr. Shiobhon Luk, Pamela Youde Nethersole Eastern Hospital

Following three years of COVID-19 global pandemic, Hong Kong gradually resumed normalcy in full. With the lifting of mask-wearing requirement and end of social distancing measures, this year's Joint Ceremonies for Admission of New Fellows of the Royal College of Radiologists & Hong Kong College of Radiologists was held at the Run Run Shaw Hall, Hong Kong Academy of Medicine Jockey Club Building.

The Joint Ceremonies started with addresses by Dr. Yiu-chung Ivan Wong, President of the Hong Kong College of Radiologists, and Dr. Katharine Halliday, President of the Royal College of Radiologists. They welcomed new Fellows, addressing the major issues that the new generation and the profession would be facing.

Professor Zhengyu Jin, Professor of Radiology of Peking Union Medical College Hospital, and Professor Pek-Lan Khong, Director of Clinical Imaging Research Centre, Yong Loo Lin School of Medicine, National University of Singapore, were conferred the Honorary Fellowship of Hong Kong College of Radiologists. Ms. Lee Pui Shan Rosita, Director and Chief Executive Officer, Hang Seng Investment Management Limited, was conferred the Honorary Membership of Hong Kong College of Radiologists.

# The 23<sup>rd</sup> Joint Ceremonies for Admission of New Fellows of the Royal College of Radiologists & HKCR, 18<sup>th</sup> November 2023

Dr. Shiobhon Luk, Pamela Youde Nethersole Eastern Hospital

Being joined by family and friends at the Run Run Shaw Hall, successful candidates were presented to the Presidents and were admitted as new Fellows. This year 38 new Fellows were admitted to the Royal College of Radiologists, 25 in the Faculty of Clinical Radiology, 13 in the Faculty of Clinical Oncology.

The Frank Doyle Medal for Clinical Oncology for the Spring 2023 examination was awarded to Dr. Lok Hei Tse of Princess Margaret Hospital. The Gold Award for the Autumn 2022 sitting of the Joint Final FRCR/FHKCR Examination in Clinical Radiology was awarded to Dr. Wang Hei Hui of Prince of Wales Hospital. The Gold Award for the Autumn 2022 sitting of the Joint Final FRCR/FHKCR Examination in Clinical Oncology was awarded to Dr. Brian Chan of Tuen Mun Hospital.

33 new Fellows were admitted to the Hong Kong College of Radiologists. The Dr. F.L. Chan Medal for the January 2023 sitting of the Exit Assessment was awarded to Dr. Gavin Tin Chun Cheung of Queen Elizabeth Hospital. Certificates were presented to 7 successful candidates in the Sixth Palliative Medicine Subspecialty Board Examination.

After the Joint Ceremonies, Professor Gilberto Ka-kit Leung, President of the Hong Kong Academy of Medicine, welcomed the new Fellows and addressed the gathering. This was followed by the Fourth Lilian Leong Oration, entitled 'MRI services for underserved populations in South East Asia' delivered by Professor Pek-Lan Khong, Director of Clinical Imaging Research Centre, Yong Loo Lin School of Medicine, National University of Singapore. The evening concluded with the presentation of Lilian Leong Medallion by Dr. Ivan Yiu-chung Wong. 🎓

## 23<sup>rd</sup> Joint Admission Ceremonies of RCR & HKCR and 4<sup>th</sup> Lilian Leong Orator

## Dinner of the Colleges

## Appreciation to Sponsors

The Uro-Oncology Asia 2024 was successfully held on 13-14<sup>th</sup> January at JW Marriott Hotel Hong Kong. This scientific meeting was organised by the Hong Kong Society of Uro-Oncology (HKSUO) and supported by 11 healthcare professional organisations in Hong Kong and Macau. It featured a total of 13 presentations on the latest advancements in treatments of various urological cancers, including kidney, prostate and urothelial cancers, providing an excellent opportunity for all participants to learn about different management strategies for urological malignancies.

This year, over 350 oncologists and allied health professionals in Asia-Pacific region registered for the meeting. More than half of registrants attended the meeting physically, and the rest attended virtually. The online meeting platform amassed a viewership of 115 during this two-day event. Twelve local and overseas distinguished oncology experts were invited to present the latest clinical data of different oncology researches in the meeting, and share their knowledge and experience on clinical advances in uro-oncology with the participants.

In the opening remarks, Dr. Philip Kwong, President of HKSUO thanked the Members of the Organising Committee of Uro-Oncology Asia 2024, sponsors, supporting organisations, all distinguished speakers and participants for their unwavering support and outstanding contributions to the event. They all played a significant role in making the scientific meeting a remarkable success.

Welcoming speech by Dr. Philip Kwong, President of HKSUO

Uro-oncology Asia provides a great platform for networking and knowledge exchange

This two-day scientific meeting also consisted of panel discussions and Q&A sessions led by the Council Members of HKSUO and the Hong Kong Urological Association (HKUA). Participants were able to exchange their views on different treatment approaches to urological malignancies with the guest speakers, and learn from other oncologists through experience sharing.

In the closing remarks, Dr. Darren Poon, Vice President of HKSUO acknowledged the fact that the field of genitourinary oncology is rapidly evolving. A two-day scientific meeting may not be sufficient to cover every clinical aspect of the field, and a longer meeting may be needed in the future. Nevertheless, Dr. Poon once again extended his gratitude to all the speakers, especially those who travelled a long way to attend the meeting, and thanked the participants for their participation. 📌

Closing speech by Dr. Darren Poon, Vice President of HKSUO

# My Journey as an Awardee of the Ten Outstanding Young Persons of Hong Kong 2023

Dr. Neeraj Ramesh Mahboobani

'Have you heard of Ten Outstanding Young Persons (TOYP) Hong Kong (HK) Selection?', someone asked me in passing at work one day in May 2023. 'I think you can consider to participate in this year's TOYP HK Selection', he suggested.

I was dumbfounded. At first I was hesitant, but after discussing with my close confidantes, I gave it further consideration and eventually decided to participate. The shift in my thoughts about participating stemmed from my confidantes who said 'Regardless of the outcome, the process will be a good impetus for you to reflect on yourself and your journey thus far'.

Indeed, that is how it turned out. During the preparation process, I rewound the clock all the way back to my tender age days, and reminisced my journey from then up to the time of the Selection process. If I were to use one word to describe my sentiments at the end of this process, the word would be 'gratitude' – gratitude for the family, friends, and teachers who have been supporting me as I navigated the challenges and lessons of life.

The selection process and the events thereafter were rigorous, inspirational and humbling. I had to articulate my personal values derived from my journey. I had opportunities to speak about the work we radiologists do, and reflect to others the central roles our work plays in patient journeys and overall healthcare services. I was asked to share my aspirations on how I hope to impact radiology in the future, and in this process, I was reminded by titans in various fields about the privilege we radiologists have to be able to work in a specialty which has the potential to significantly drive advances in healthcare with artificial intelligence.

From this professional standpoint, I must express my gratitude to my mentors in Princess Margaret Hospital, Queen Elizabeth Hospital and Hong Kong College of Radiologists especially Dr. Lilian Leong, Dr. Wong Yiu Chung and Dr. Poon Wai Lun for their guidance in shaping my career and professional development.

It was a great honour to be recognized as one of the TOYP HK 2023. This award goes beyond a personal recognition – it is a testament to the collective efforts of all who have walked the journey with me, both personally and professionally, and I would like to thank you all for believing in me. I hope to inspire and join hands with budding talents in our College to drive positive changes, and I look forward to what the future holds for us. 🍷

# Congratulations

Our College Fellow **Dr. CHEUNG Chi Wai Stephen** from Department of Radiology of Queen Mary Hospital was elected as the **President** of **Asian Society of Cardiovascular Imaging** for the year 2023-2025.

Our College Fellow **Prof. James F. GRIFFITH** from Department of Imaging and Interventional Radiology of Prince of Wales Hospital was conferred as **Honorary Member** of **European Society of Radiology** in March 2023.

Our College Fellow **Prof. YU Chun Ho Simon** from Department of Imaging and Interventional Radiology of Prince of Wales Hospital was awarded the **Gold Medal Award** of the **Asia-Pacific Society of Cardiovascular and Interventional Radiology** in 2023 and the **Gold Medal Award** of the **Royal College of Radiologists** in 2024 for his outstanding contribution to Vascular and Interventional Radiology.

Our College President **Dr. WONG Yiu Chung** was conferred as the **Fellow** of the **Academy of Medicine, Singapore** in the 57<sup>th</sup> Singapore-Malaysia Congress of Medicine & Induction Comitia 2024.

Our College Fellow **Dr. YIP Stefanie Wai Ying** from Department of Imaging and Interventional Radiology of Prince of Wales Hospital was awarded the **Gold Medal Award** for her original research oral presentation titled "See it and Believe it! Ultrasound Accuracy for Brachial Plexus Pathology" in the **American Roentgen Ray Society Annual Meeting 2023**.

## Share your good news!

We are happy to share your good news in the College Newsletter. Do let us know your accomplishment such as winning of awards and advancement in academic research and we will list them in the coming issue of Newsletter. Please feel free to update us by sending information to [enquiries@hkcr.org](mailto:enquiries@hkcr.org). ✍️
