

President's Jotting

Dr. Law Chun Key

In the beginning of the Year of the Dog I like to offer everybody my best wishes for a happy, healthy and prosperous year.

The 7th Joint Scientific Meeting and Joint Admission Ceremonies of The Royal College of Radiologists (RCR) & Hong Kong College of Radiologists (RCR) was a great success with excellent participation of our members and other medical professionals. The 17th Ho Hung Chiu Lecture Orator, Prof. Sophia Chan, had made a comprehensive review of our health care system and captured the attention of the large audience. The Distinguished Contribution Award was presented to our two former Wardens, Dr. Peter Choi and Dr. Lam Hon-shing, during the Dinner of the Colleges in the same evening.

The examination season has just been over and my congratulations go to the successful candidates in both the Joint Final Examinations and the Exit Assessment. The number of Fellows has now well exceeded 560, ranking our College the 4th among the Colleges under the Hong Kong Academy of Medicine. I would also like to thank all trainers and training centres for their magnificent effort to achieve such enviable results.

The RCR is embarking on Examination Automation this year from Spring 2018 sitting, the Anatomy Examination and our Joint Final Examination will follow suit very soon. A Pilot Automated Examination involving anatomy, reporting and rapid reporting sessions, which was held on 10 November 2017 in the RCR specified venue in Hong Kong. A visit team comprising of our 15 examiners, trainers and secretarial staff, led by the Warden, participated in the piloting for this new and innovative examination delivery platform. A detailed report on the venue set up, logistic arrangement and examination software was prepared and subsequently sent to RCR for consideration of improvement after thorough discussion in the College Council. A revisit of the examination venue was arranged on 12 February 2018 and 8 March 2018 respectively to reassess several facets of the examination that have met the RCR requirements. The first automated Anatomy Examination attended by around 65 candidates was successfully conducted on 9 March 2018. I would like to express my sincere gratitude to the visit team and exam invigilators including Drs. Rickie Cheng, Stephen Cheung, Danny Cho, Timothy Hon, Stephen Kwok, Sherwin Lo, Alex Ng, Keith Pan, William Poon, Tony Sung, Jeffrey Wong, YC Wong, especially Dr. Benjamin

Fang and Dr. Neeraj Mahboobani, who compiled the very comprehensive reports giving feedback to RCR.

Apart from the changes in the format of future examination, there is also a need to change the intake capacity. At the annual meeting with RCR President and Examiners after the Joint Examination in November 2017, we decided that we would support RCR to increase examination capacity in Hong Kong progressively as it would be beneficial to cope with the growing local demand in future. As detailed in the Warden's Jotting in this issue of Newsletter, an Examination Board was set up under Education Committee to oversee various matters relating the changes of future examination and I thank Dr. Stephen Cheung to take up the Chairmanship. Meanwhile, Dr. YC Wong (RD), Dr. KH Wong (CO) and Dr. WY Ho (NM), representing our College, had attended the Assessment Workshop organized by HKAM on 6-7 January 2018 and got new insights on training and assessment.

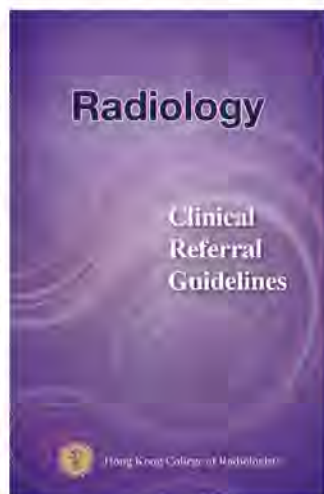

The update of Clinical Referral Guidelines is another major task in our College in recent years to upkeep our professional standards. I am happy to inform you that the revision was finally accomplished through intensive efforts of a group of contributors, and the second edition Guidelines had been uploaded on College website in February 2018 (https://www.hkcr.org/top.php/clinical_referral_guideline). A printed copy is on the way to our members.

As mentioned in last Newsletter, a Young Fellow Network (YFN) has been established within our College and Dr. Julian Fong and Dr. Shiobhon Luk had just been

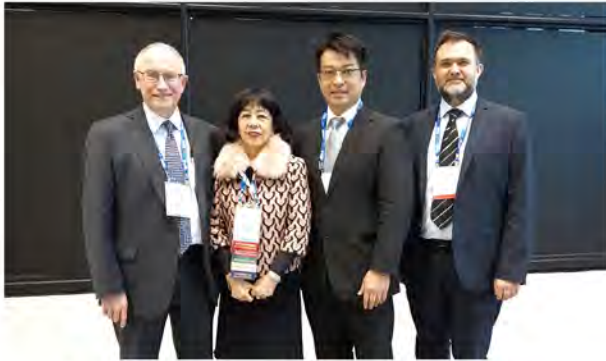

appointed as Co-Convenors. Fellows who have been awarded Fellowship of the College within the past 10 years are considered 'Young Fellows' and are members of the Young Fellows Network. The kick-off event of the YFN "Peak Circle Walk" will be held on 29 April 2018, which would be a great chance to network with Fellows and members of the College while getting active, enjoying the outdoors and photogenic panoramic view of Hong Kong from the Peak. More activities will follow.

Over the past few months, our College continued to participate in various symposia and functions both locally and overseas. I representing the College participated in the 68th Annual Scientific Meeting of The Royal Australian and New Zealand College of Radiologists (RANZCR) on 19-22 October 2017 in Perth, Australia. Besides delivering a lecture entitled "Translational research of NPC in the past 6 decades – Clinicians' perspectives" and acting as judges for the presentations by Radiation Oncology trainees on the Radiation Oncology Trainee Teaching Day, I had attended the meeting with Presidents of various overseas Colleges/Associations to discuss future trend and collaboration on education matters.

On 26 November to 1 December 2017, Dr. Lilian Leong and Dr. Danny Cho representing our College participated in the International Trends Meeting, the AOSR Executive Committee Meeting and RSNA-AOSR Leadership Meeting during the Annual Meeting of Radiological Society of North America (RSNA) in Chicago, USA. Upon delegation by the College's Council, Dr. Leong, on behalf of our College, signed the MoU with British Institute of Radiology (BIR) to join BIR World Partner Network, which is a community of international societies with the shared goal of advancing the knowledge and understanding of imaging and radiation oncology amongst radiologists, radiographers and physicists across the world. Our College members will receive regular online resources including papers from BJR, the BIR's flagship journal, webinars featuring the world's leading practitioners and video content by global experts through

newsletters and e-blast to individual members. Dr. Danny Cho was designated as the contact person for future communication with this Network.

From left to right: Mr. Andy Rogers (President of BIR), Dr. Lilian Leong, Dr. Danny Cho and Mr. Simon Thompson (CEO of BIR)

On 3 December, Dr. Leong and I attended the First International Symposium on Specialist Education and Advances in Radiation Oncology in HKU-Shenzhen Hospital. We delivered the talks on "Development of Specialist Training to International Status" and "Training of Clinical Oncologists – the Conjoint Hong Kong and United Kingdom System" respectively and shared with the attendees about training of radiologists in Hong Kong.

Dr. Law (upper) and Dr. Leong (lower) delivered talks at the First International Symposium on Specialist Education and Advances in Radiation Oncology

On 25-28 January 2018, Dr. Cho attended the 17th Asian Oceanian Congress of Radiology (AOCR 2018) in Mumbai, India and participated in the AOSR Executive Committee Meetings. Most recently, Dr. Leong attended the 11th General Assembly of European Society of Radiology (ESR) in Vienna, Austria on 4 March 2018.

Locally, Dr. Shiobhon Luk represented our College to join the Kick-off Ceremony of Care You Deserve Carnival organized by Hong Kong Anti-Cancer Society on 29 October 2017.

Dr. Luk at the Kick-off ceremony of Care You Deserve Carnival

On 26 February 2018, I participated in the HKAM 25th Anniversary Celebration Kick-off and Spring Luncheon with Media. Our College would participate in a series of activities arranged for the 25th anniversary of HKAM.

Lastly this year our College would be extremely busy. On academic side, we co-organize a multitude of educational events with international organizations including American Society of Neuroradiology (ASNR) – HK International Imaging 2018 on 24-25 March, IDKD Intensive Course on 15-17 June, 2018 AIRP Course in Hong Kong on 30 June - 2 July, and then our Annual Scientific Meeting followed by Asian Oceanian School of Radiology (AOSOR) Youth Club in mid-November. Please mark your diary and support these important events.

As a final remarks at all times, I wish to thank all members of the Council, Committees and Subcommittees for your hard work and selfless devotion, and the unfailing and whole-hearted support of our Secretariat. 🍷

Since its inception in September 1991, the Hong Kong College of Radiologists has been at the forefront of upholding good practice of radiology through ensuring the highest professional standards of competence and ethical integrity. The task has always been daunting, and perhaps is the toughest ones among all specialties in the medical field in the face of the rapid technology advancement which has been accompanying our development. Whilst Radiology has just witnessed a quantum leap from conventional imaging to functional imaging in the past 2 decades, the profession gets almost nonstop into a new journey heading speedily towards a multitude of new developments including personalized imaging and application of artificial intelligence for imaging. Notwithstanding the challenges ahead of us, the College continues to stay focused on perfecting training and continuous education, which remains beyond doubt as the cornerstone in up keeping the standard of practice in our three specialties, namely Radiology, Clinical Oncology and Nuclear Medicine.

Artificial Intelligence

The past few years have seen a gigantic wave of enthusiasm on the potential applications of Artificial Intelligence (AI) in the Radiology. Common to the development of all new technology, the initial zest of AI has inflated a lot of speculation on its future roles, which can range from the positive side as a reliable assistant to an unsettling view as the substitute of radiologists. Before this rapidly evolving technology can be embraced as part of our practice, the basic concepts behind should be well understood first. Perhaps at this stage what matters most in preparing ourselves for the new era is to learn how to appraise the related validated evidence in the medical science. The College has devoted much effort in exploring different ways to help members to prepare for this new journey. In June 2017, Dr. Lilian Leong, our Founding President, delivered a keynote lecture on "Meeting Challenges in an Evolving Profession" at 21st Asia-Australasia Conference of Radiological Technologists. This is one of the first open lectures in the medical community in Hong Kong addressing the potential role of AI for Radiology. The lecture was warmly welcomed and it had sparked off a series of initiatives that the College had subsequently embarked on to further explore the AI era. A task force chaired by Dr. WL Poon, Dr. Alex Leung and Dr. Benjamin Fang was formed under the Council in January 2018 to steer the IT and AI development and training in our College. At the time of writing, the College is appointing delegates from the Council to visit the Department of Statistics & Actuarial Science of Hong Kong University to meet with the AI image team for on-site learning and sharing of knowledge. A one-day symposium with AI for Radiology as the theme will soon be arranged this year. Members are strongly encouraged to join the symposium and learn the updated knowledge from the experts of the field.

Hybrid imaging

In line with the on-going endeavor of the College in enhancing training on hybrid imaging and PET-CT for our trainees, reciprocal training of PET-CT has already been implemented for trainees of Radiology and Nuclear Medicine since July 2017. This is one of the milestones of on-going endeavor of the College in enhancing training on hybrid imaging and PET-CT for our trainees. The Education Committee and Council of College have started active discussion on the international trend of

training on Hybrid Imaging since 2015. The College is fully aware that concerted effort from trainers of both Radiology and Nuclear Medicine of the College is required to ensure the success of the training development. Aligning with this objective, the College organized a round table discussion in June 2016 with Professor von Schulthess, Professor and Director of the Nuclear Medicine Division in the Department of Radiology at Zurich University Hospital, Switzerland, for PET-CT and PET-MR training, to collect views from international and local experts of the field in this regard. High-level meetings between the Hospital Authority and the College were also conducted in December 2016 & January 2017 to share the updated trend of hybrid imaging as well as the manpower implication of future training development on Nuclear Medicine. The College would continue to monitor the efficacy of the reciprocal training of our trainees after its debut, and would explore different ways for enhancing hybrid training in the coming future.

Credentialing

Credentialing is an important aspect for maintaining quality of our profession. The College is working with the Neurosurgical Board of The College of Surgeons of Hong Kong on the development of Credentialing of Endovascular Procedures for Neurovascular disease. As the first inter-collegial joint effort in developing credentialing standard in Hong Kong, the course is expected to be long and arduous. On the other hand, ultimately the fruits will be well worth of our efforts, considering the rapid development and growing importance of neurointervention in our profession and also in the clinical care of patients. The progress has been smooth so far and I am optimistic that the results of credentialing development can be consolidated in the coming months.

Medical Manpower

The manpower shortage in Radiology is phenomenal, not only in Hong Kong but also for the rest of the world. The College is deeply concerned that the continuous outward brain draining of experienced trainers from the training centers could adversely affect the quality of Fellowship training. Since 1995, the College has taken painstaking effort in compiling the manpower planning projection inclusive of both public and private sectors for our 3 specialties and the result was submitted to Hong Kong Academy of Medicine for the medical profession manpower planning periodically. In 2017, a total of 33 doctors from our College (24 for Radiology and Nuclear Medicine, 9 from Clinical Oncology) left

the Hospital Authority, the great majority of whom had been serving as trainers in their respective specialties. On the other hand, only 28 new Fellows graduated in the Exit Assessment of College in the same period. This was but just another record of negative yearly balance in the account of trainers, and has been common occurrence for our profession over the past decade. The figures are disheartening as they indicate the continuous loss of not only the headcounts but also valuable experience of trainers who constitute the most valuable assets in all training centers. The increasing episodes of suspension of higher subspecialty training programs in Radiology caused by the shortage of trainers or co-trainers in the past few years had already rung the bells loudly. The College would critically monitor the local manpower situation and seek opportunities to work with relevant stakeholders, including the Hospital Authority, to tide over the adverse situation and in the long run to ensure a stable manpower provision for trainers and trainees.

Examination Board

To uphold standard and to keep abreast with international development, the College has resolved to strengthen the governance of matters relating to examination and assessment. In September 2017, an Examination Board, chaired by Dr. Stephen Cheung, was formed to oversee the conduction of examination and assessment and to steer the future development in this regard. The key mission of the examination board is to develop overarching policies and to provide structural management for examinations and assessment of the three specialties of the College. Functionally, the Examination Board would also work closely with the RCR to make necessary arrangement in accordance to the updated changes of examination format. It would also shoulder the task of periodical review of the examiners pool to cope with future needs. As Hong Kong is evolving as an international hub of Fellowship Examinations of Radiology and the number of candidates, locally and overseas, keeps on increasing, the Examination Board is vested with the responsibility to plan and take necessary preparation to expand the capacity of candidates in the future examinations and assessments.

In the past years, the College has accomplished many tasks in the enhancement of training. These could not be achieved without the commitment of trainers and dedicated Fellows of the College. I would like to take this opportunity to thank all of you for the contribution in high quality training to ensure the good practice of radiology. 🍷

As I have mentioned in the last Message from the Editor, the first issue of HKCRRR is now available and is distributed to you together with this newsletter. What is HKCRRR? It's the synonym of 'Heed, Knowledge, Cautionary in Radiology Reading Room' or the HKCR Reading Room. It aims to serve as an educational platform for members and Fellows to share interesting Radiology cases with diagnostic or management challenges. Members and Fellows are most welcome to share your cases with us. CME/CPD points will be granted to the authors and expert reviewers. I would like to take this opportunity to thank the review panel and the experts who provided comments to the cas-es of the HKCRRR. Special thanks go to Dr. Lilian Leong, who contributed to the naming of this meaningful HKCRRR. Our members can use the included binding folder to keep the coming issues of HKCRRR. Hope you find it useful!

Another new column in this issue of Newsletter is the Warden's Column. Dr. YC Wong will brief us on matters related to training, education and examination issues and also discuss the trends in the Radiology field. Don't miss it!

Again, in the past few months there were a lot of activities organized by the College. One of the highlights was the 7th Joint Scientific Meeting of the Royal College of Radiologists and Hong Kong College of Radiologists and 25th Annual Scientific Meeting of Hong Kong College of Radiologists. Dr. Lorraine Sinn brought us back to these memorable events and I'm happy to participate as a speak-er in one of the lectures as well.

In the Do You Know section, we have Dr. Shiobhon Luk and myself talking about the Fellowship Declaration of HKCR. All Fellows of HKCR had made the Fellowship Declaration and it is time for us to know more about it. We have also included the Fellowship Pledge of some other Colleges around the world for your reference.

I wish to thank again the Newsletter subcommittee and welcome Dr. Jacqueline Sitt in joining the newsletter team. I'd also like to thank the College secretariats, especially Karen Law and Phyllis Wong, for contributing to the success of the Newsletter. ✍️

Congratulations

Honour

Our College Fellow, **Prof. Lee Wing Mui Anne** from Department of Clinical Oncology of the University of Hong Kong, had been conferred the Alice Ho Miu Ling Nethersole Charity Foundation Professorship in Holistic Cancer Care at the University of Hong Kong Dedication Ceremony on 31 October 2017.

Awards

Our College Member, **Dr. Chow Chung Hang James** from Department of Clinical Oncology of Queen Elizabeth Hospital, was awarded the Silver Medal of 2017 Best Original Research by Trainees (BORT) at the Hong Kong Academy of Medicine 24th Annual Fellowship Conferment Ceremony on 15 December 2017.

Presentations

Radiological Society of North America Annual Meeting 2017 (RSNA 2017)

Exhibit Title : Pitfalls when interpreting digital breast tomosynthesis

Authors : L.H.Y Sinn, J.C.M. Sitt, C.Y. Fong, C.Y. Lui

Share your good news!

We are happy to share your good news in the College Newsletter. Do let us know your accomplishment such as winning of awards and advancement in academic research and we will list them in the coming issue of Newsletter. Please feel free to update us by sending information to enquiries@hkcr.org. ✍️

College Examinations Successful Candidates Joint Final Examinations for Fellowship – November 2017

Clinical Radiology

Date : 14 - 16 November 2017

Venue : 2/F & 5/F, Hong Kong Academy of Medicine Jockey Club Building, Aberdeen, Hong Kong

Examiners : Dr. Ruchi SINNATAMBY (Senior Examiner) Dr. Frances A AITCHISON

Dr. CHEUNG Chi Wai Stephen Dr. MA Ka Fai Johnny

Dr. LO Shing Wai Sherwin Dr. LUI Chun Ying

Observers : Dr. CHENG Lik Fai Dr. LAM Poy Wing Tina

Successful Candidates:

CHAN Ka Yuk (Tuen Mun Hospital), CHAN Rois L.S. (Princess Margaret Hospital), CHAN Siang Hua Victor (Queen Mary Hospital), CHEUNG Michelle (Queen Mary Hospital), CHEUNG Wai Pan (Kwong Wah Hospital), CHIN Hoi Kevin (Pamela Youde Nethersole Eastern Hospital), CHIN Wing Tsung Anthony (United Christian Hospital), CHU Yin Lun Edward (Queen Mary Hospital), EL GHONIEMY Inas Ahmed Gamal El Din (Cairo University Hospital), HIBA Mona Ahmad Mohammad (Nizwa Hospital), LEE Ka Yin Gregory (Pamela Youde Nethersole Eastern Hospital), LI Yan Wing Birgitta (Tuen Mun Hospital), LIU Jingkai Joel (Tan Tock Seng Hospital), MUTHUKALATHI Karunakaran (Assam Medical College & Hospital), NG Ting Fung Karson (Princess Margaret Hospital), NG Wing Kei Carol (Princess Margaret Hospital), SIT Wing In (United Christian Hospital), SNG Weizhong Jonathan (National University Hospital), SO Man Hon (Kwong Wah Hospital), TANG Wai Kiu (Prince of Wales Hospital), TENG Victor Sheng Yeow (National University Hospital), WONG Ho Lim (Tuen Mun Hospital), YU Wen Ming (United Christian Hospital)

Clinical Oncology

Date : 15 November 2017

Venue : 4/F, Block R, Department of Clinical Oncology, Queen Elizabeth Hospital

Examiners : Dr. Simon D PLEDGE (Senior Examiner) Dr. Elena M WILSON

Dr. LUK Mai Yee Dr. YEUNG Mei Wan Rebecca

Dr. YIU Ho Yin Harry

Observer : Dr. NG Wai Tong

Successful Candidates:

CHAN Wai (Tuen Mun Hospital), FOK Leslie (Queen Elizabeth Hospital), LAU On Yee Justina (Pamela Youde Nethersole Eastern Hospital), LEE Tin Yan (Queen Elizabeth Hospital), NG Yue Hinn Brian (Princess Margaret Hospital), WONG Sean Man Natalie (Tuen Mun Hospital)

College Exit Assessment Successful Candidates

Exit Assessment – January 2018

Date : 15 & 17 January 2018 (Monday & Wednesday)

Venue : Exam Rooms, 5/F, Hong Kong Academy of Medicine Jockey Club Building
99 Wong Chuk Hang Road, Aberdeen, Hong Kong

Radiology

Chairman of Assessment Panel: Dr. WONG Yiu Chung

Assessors: Dr. CHEUNG Chi Wai Stephen, Prof. KHONG Pek Lan, Dr. POON Wai Lun, Dr. WONG Ka Tak

Successful candidates:

CHAN Pui Kwan Joyce	Queen Elizabeth Hospital	LAW Ka Chai Eric	Prince of Wales Hospital
CHAN Wai Tat Victor	Queen Elizabeth Hospital	LEE Hong Ching	United Christian Hospital
CHENG Hei Man	Pamela Youde Nethersole Eastern Hospital	LO Wai Keung	Kwong Wah Hospital
CHONG Wing Ho	Tuen Mun Hospital	TANG Chun Wah	Pamela Youde Nethersole Eastern Hospital
DAI Yuk Ling Eunice	Prince of Wales Hospital	TSE James Chi Hon	Pamela Youde Nethersole Eastern Hospital
IP Siu Kwan Natalie	Tuen Mun Hospital	WONG Kin Hoi	North District Hospital
LAU Hon Wai	Tuen Mun Hospital		

Clinical Oncology

Chairman of Assessment Panel: Dr. WONG Yiu Chung

Assessors: Prof. KWONG Lai Wan Dora, Dr. WONG Kam Hung, Dr. YEUNG Mei Wan Rebecca

Successful candidates:

CHAN Chun Hin	Queen Elizabeth Hospital
LEE Shing Fung	Tuen Mun Hospital
TSE Pui Ying	Queen Mary Hospital
YIP Wing Ling Winnie	Tuen Mun Hospital

Call for Application of HKCR Education and Research Fund

HKCR Education and Research Fund is now open for application to support research projects, conference attendance and other activities between 1 July 2018 and 31 December 2018

The objective of HKCR Education and Research Fund is to promote and assist career development, continuing education and research activities among members of Hong Kong College of Radiologists (HKCR) and international professional community.

Four Categories of Grants are available from the Fund:

- I. Education grant to assist HKCR members for overseas advanced training and international conventions.
- II. Education grant for Mainland China and overseas radiologists to participate in activities organized by HKCR.
- III. Conference grant to assist HKCR members in organizing educational activities.
- IV. Research grant to assist HKCR members to conduct pilot study in basic and clinical research

The completed application form should be submitted to the Secretariat Office to the attention of the Chairman of the Committee of HKCR Education and Research Fund. Enquiries on details of grants and application forms can be directed to the College Secretariat. ✍

Deadline for Application: 15th April 2018

Spring 2018

Monday, 26 February 2018	First FRCR in Clinical Oncology (Cancer Biology & Radiobiology / Clinical Pharmacology)
Tuesday, 27 February 2018	First FRCR in Clinical Oncology (Medical Statistics / Physics)
Wednesday, 28 February 2018	Final FRCR (Part A) in Clinical Oncology
Thursday, 8 March 2018	First FRCR in Clinical Radiology (Physics)
Friday, 9 March 2018	First FRCR in Clinical Radiology (Anatomy)
Monday, 19 March 2018	Modular Final FRCR (Part A) in Clinical Radiology
Tuesday, 20 March 2018	Modular Final FRCR (Part A) in Clinical Radiology

Summer 2018

Thursday, 14 June 2018	First FRCR in Clinical Radiology (Physics)
Friday, 15 June 2018	First FRCR in Clinical Radiology (Anatomy)

Obituary – Dr. William G. Bradley

Hong Kong College of Radiologists is deeply saddened by the loss of Dr. William Bradley (1948 – 2017), Distinguished Professor Emeritus and former Chairman of the Department of Radiology at the University of California, San Diego.

Dr. Bradley was a pioneer in Magnetic Resonance Imaging (MRI) and had researches on MRI of flow phenomena, haemorrhage, stroke, MS, and normal pressure hydrocephalus and MRI of the brain. He was the President of the International Society of Magnetic Resonance in Medicine (ISMRM) in 1988 and was honoured with the Gold Medal by ISMRM in 1989. He was on the Board of Trustees of the Radiological Society of North America (RSNA) Research and Education Foundation (1995 – 2001) and served as the Chairman of the Fund Development Committee of that organization from 1996 to 2008. He was honoured with the Gold Medal of the RSNA in 2003. He served as the Vice President of the American College of Radiology in 2005 and was on the Board of Chancellors of the American College of Radiology (ACR) from 1999 to 2005. He was honoured with the Gold Medal of the ACR in 2012. Dr. Bradley supported our College activities and visited Hong Kong many times, and made his presence available to deliver lectures on MRI to local radiologists in 2005, 2006, 2008 respectively. His contribution in Radiology had benefited the profession.

Dr. Bradley will be dearly missed and his legacy will always be remembered. 🍀

The 4th Hong Kong International Oncology Symposium, 3rd – 4th November 2017

Dr. Siu Kie AU,
Hong Kong Adventist Hospital

The 4th Hong Kong International Oncology Symposium (HKIOS) was co-organized by the Hong Kong Lung Cancer Study Group and Hong Kong Society of Clinical Oncology, supported by the Hong Kong College of Radiologists, Hong Kong Adventist Hospital, Hong Kong Integrated Oncology Centre and City University of Hong Kong.

We have come to a golden era of rapid progress in the management of cancer. The themes of the symposium included next generation sequencing technologies, big data analysis, liquid biopsies, new targeted agents, immunotherapies and proton therapy.

Due to the explosion in knowledge, the first most important task of HKIOS is to educate our fellow colleagues in all related disciplines and to ensure that they are kept abreast of all such new developments. Secondly, we should promote their networking with the more experienced experts in the field and establishment of collaborations between different cancer centres around the world so that they can have first-hand knowledge and opportunities for practice. Thirdly, we should advocate such new treatments and facilitate the health administrators and the community to set priorities in the allocation of resources.

Day 1 of the symposium was conducted in the Auditorium of Hong Kong Adventist Hospital (Tsuen Wan). Professor Raymond Yeung from University of Washington in Seattle, USA, gave an update on the Pathogenesis and biomarkers for Hepatocellular carcinoma. Yu Jun, Beijing Institute of Genomics, Chinese Academy of Medicine, discussed on the

problem of cellular heterogeneity of cancers and during the discussion, it was pointed out that although there has been great advances in genomic sequencing technologies, real advances in clinical application is still limited due to multiple genetic evolution in the cancer. The way forward is to develop the technologies of sequencing on individual cancer cells (i.e. single cell sequencing). Dr. Joseph Siu-Kie Au of Hong Kong Adventist Hospital gave an overview of current clinical applications of immunotherapy in common solid cancers. Dr. F Y Cheung, Hong Kong Integrated Oncology Centre, and Dr. Philip Kwong, Queen Mary Hospital, gave updates on the management of urogenital cancers.

Day 2 was conducted in City University of Hong Kong. Prof. Patrick Paddison, Fred Hutchinson Cancer Research Center, USA, shared some interesting cases of application of functional genomics in the management. Prof. Ju-wei Mu, Shen Zhen Center, Cancer Hospital, Chinese Academy of Medical Sciences & Peking Union Medical College, discussed on the challenges in the surgical management of lung cancer. Drs. Roger Ngan, Jacky Li and Jeannie Chik of Queen Elizabeth Hospital talked on updated management of breast cancer, EGFR TKI resistance in lung cancer and stereotactic ablative radiotherapy respectively. Dr. Oscar Chan, Pamela Youde Nethersole Eastern Hospital, talked about anti-angiogenesis therapies in lung cancer. Prof. Patricia Tai, Allan Blair Cancer Center of Canada, gave a review of radiotherapy for skin and urogenital cancers.

The full details of the program and most presentation videos are available in the website: www.ios.org.hk

The Asian Oceanian School of Radiology Youth Club [AOSOR-YC], 9th – 12th November 2017, Seoul, Korea

Dr. Jeanie Betsy Chiang,
Queen Elizabeth Hospital

A rare and exceptional learning experience, the Asian Oceanian School of Radiology – Youth Club (the “AOSOR-YC”) gathers young radiologists throughout the Asia Pacific region with the aim of fostering fruitful discourse, uniting similar minds, and through this, nurture future leaders in Radiology within the Asia Pacific region. This year, the AOSOR-YC was held from 9 to 12 November 2017 by the Asian Oceanian School of Radiology (the “AOSOR”) under the Asian Oceanian Society of Radiology in Seoul, Korea. It was my honor to be invited to the four-day leadership training program, providing a wide array of lectures delving deep into topics ranging from ethics, global leadership and the future of radiology.

The 3rd AOSOR Youth Club November 9-12, 2017, Seoul, Korea

The program started with the opening session of the AOSOR-YC where all delegates and trainers met for an Orientation followed by the Directors dinner. Over the dinner table, a group of newly met strangers swiftly became friends. The ambience was warm and friendly and full of fun and laughter. Throughout the next few days, we had many interactive lectures and workshops delivered by AOSOR executive members, regional leaders and professors. Topics included, although not limited to, risk management, intersociety relationship, culture on leadership, environment of Asian radiology, risk management and even

finance management. On behalf of the Hong Kong College of Radiologists, we were honored to have a lecture delivered by Dr. Lilian Leong titled “Society Member Management”. The lectures provided immense food for thought, inspiring us to be better leaders and provided better appreciation of the complexities involved in leadership. It provided insight on the skills required to be a leader, both at the level of the regional society and extending bigger to international collaboration.

Apart from lectures, delegates were also given the opportunity to enjoy fall foliage while learning Korean history and culture. Our visit to Gyeongbokgung palace was impeccable as we were surrounded by red leaves while we learnt about the culture, history and recent developments of Korea. We also visited Dongdaemun market, which was an incredible feast for the eyes. The most memorable though, of course, was the friendship that was built through the conference. All of us were from different institutions in the Asia Pacific region, encompassing radiologists from all walks of their professional career and even included administrative staff and vendors. AOSOR-YC allowed a mélange of culture,

practices and experience, and through this encouraged understanding and respect while also strengthening international ties. The program provided a valuable experience, equipping us with leadership skills, allowing us to explore different cultures and practices, and harbored the seed of friendship.

Last but not least, I would like to thank the Hong Kong College of Radiologists for the opportunity and immense support they have given me to attend such a fruitful conference. 🍷

2018 AIRP Course in Hong Kong

30th June – 2nd July 2018

Hong Kong Academy of Medicine Jockey Club Building

Subspecialty Focus:
Musculoskeletal Radiology
Breast Imaging
Women's Imaging

The renowned, unique training course for the pathophysiologic understanding of disease as the basis for radiologic interpretation

Register now and learn more at
airp.org and hkcr.org

26th Annual Scientific Meeting of Hong Kong College of Radiologists
17th – 18th November 2018 (Saturday & Sunday)

MARK YOUR DIARY! SUBMIT YOUR ABSTRACTS!

You are cordially invited to submit abstracts for presentation in the proffered paper session, or poster presentation. Abstracts must be submitted online at <https://www.hkcr.org/account.php/login> on or before 31 July 2018. Submission by post, email and fax will not be accepted. Late submission will not be considered. Please read the Notes on Electronic Submission of Abstracts for details of submission guidelines.

Awards

The Hong Kong Society of Diagnostic Radiologists Trust Fund Award (kindly supported by HKSDR Trust Fund)

Hong Kong Society of Clinical Oncology Award (kindly supported by HKSCO)

Hong Kong Society of Nuclear Medicine and Molecular Imaging Award (kindly supported by HKSNMMI)

The Hong Kong Society of Interventional Radiology Award (kindly supported by HKSIR)

The Young Presenter's Award – Radiology (kindly supported by Dr. Lilian Leong)

The Young Presenter's Award – Clinical Oncology (kindly supported by Dr. Lau Wai Hon)

The Young Presenter's Award – Nuclear Medicine (kindly supported by HKSNMMI)

The Best Original Paper for the Hong Kong Journal of Radiology (kindly supported by HKCR Education & Research Fund)

Meeting with The Royal College of Radiologists (RCR) Officials & Examiners, 17th November 2017

On 17 November 2017, our College Council held a meeting with the RCR Officials and Examiners including Dr. Nicola Strickland (President of RCR), Dr. Ruchi Sinnatamby (RD Senior Examiner of RCR), Dr. Simon Pledge (CO Senior Examiner of RCR), Dr. Frances Aitchison (RD Examiner of RCR) and Dr. Elena Wilson (CO Examiner of RCR) in China Room, 1/F, Hong Kong Club. During the meeting various matters with collaboration between RCR and HKCR were reported and discussed, including the Joint Final Examination of Fellowship 2017 and our future direction as well as the progress of HKCR 15A Travelling Fellowship. The meeting was fruitful and Dr. C.K. Law, our College President representing our College Council, expressed sincere gratitude to Dr. Strickland and all the RCR Examiners for joining this meeting and thanked the Examiners for their great efforts and contributions in making the examination a big success. 🍷

Back row (from left to right): Dr. Alex Leung, Dr. Shiobhon Luk, Dr. Stephen Kwok, Dr. Danny Cho, Dr. Kam-Hung Wong, Dr. Chun-Ying Lui, Dr. Wai-Lun Poon, Prof. Anne Lee, Dr. Tze-Mun Chan, Dr. Elaine Kan, Dr. Wai-Tat Ngai

Front row (from left to right): Dr. Jennifer Khoo, Dr. Elena Wilson, Dr. Simon Pledge, Dr. Lilian Leong, Dr. Nicola Strickland, Dr. Chun-Key Law, Dr. Ruchi Sinnatamby, Dr. Yiu-Chung Wong, Dr. Frances Aitchison

RADIOLOGY

HONG KONG 2018

Details of eligibility of different awards are available at https://www.hkcr.org/call.php/call_awards

Authors who wish to have their papers considered for The Best Original Paper for Hong Kong Journal of Radiology should also submit the full manuscript, in addition to the abstract, to the College Secretariat via email at asm_abstract@hkcr.org by **31 August 2018**. Please refer to "Instructions for Authors" for details of manuscript format. **Participants who have submitted the abstract are strongly encouraged to submit the manuscript for this award.**

Accepted abstracts will be printed in the programme book only if the presenting author has registered and paid the registration fee in full by 30 September 2018. 🍷

Highlights

7th Joint Scientific Meeting of The Royal College of Radiologists & Hong Kong College of Radiologists and 25th Annual Scientific Meeting of Hong Kong College of Radiologists

18th – 19th November 2017

Dr. Lorraine Sinn
Hong Kong Women's Imaging

The 7th Joint Scientific Meeting of the Royal College of Radiologists & Hong Kong College of Radiologists and 25th Annual Scientific Meeting of Hong Kong College of Radiologists were held successfully at the Hong Kong Academy of Medicine Jockey Club Building on 18th and 19th November 2017. More than 650 delegates registered for the event.

This year, the 2-day programme was replete with various renowned overseas and local speakers on different exciting topics, with key focuses on lymphoma, oncological imaging and interventions. Oncological coverage of different parts of the body was included. The multidisciplinary symposium on topic of lymphoma and various sponsored satellite symposium were very stimulating. Apart from the inspiring academic and educational discussion that were brought along, special dedicated session on medical-ethical issues, which include the topic of informed consent and communication practice in particular, was also highlighted. These are indeed very useful information in our daily practices.

A total of 95 abstract submissions were received, of which 43 oral presentations and 41 posters were accepted. The accepted posters were electronically displayed on the large touch screens located at the foyer. Among the accepted abstracts, 5 were from overseas and 4 were from private sector. As one of the presenter of oral

presentations from private sector, I was really impressed by the vast diversity on various interesting research topics from different centres, and the passion in addressing different clinical questions, no matter we are working in private or in public institutions. Various prizes were awarded to those with outstanding performance in the oral and poster presentations.

With a view to encourage more regional radiologists to attend the Scientific Meeting, the Education and Research Fund of our College sponsored Dr. Kwon Lyo Min from Hallym University Sacred Heart Hospital in Korea to attend the meeting this year.

I would like to express immense gratitude to the members of the Scientific and House Subcommittees for organizing this event, our colleagues who have helped us as chairpersons, abstract reviewers, adjudicators for various prizes and awards, our sponsors for their enthusiastic support, the AV team, the photography team, our secretaries, college secretariat, and other helpers, including our higher trainees for their support and co-ordination of various activities. 🍷

The HKSDR Trust Fund Award for the Best Oral Presentation in the Radiology Specialty:

Dr. YIP Stefanie Wai Ying

Department of Imaging and Interventional Radiology,
Prince of Wales Hospital

"Ultrasound of Superficial Soft Tissue Tumours"

The Hong Kong Society of Clinical Oncology Award for Best Paper in Clinical Oncology:

Mr. Ian YEUNG

The University of Hong Kong

"Risk of Cerebrovascular Accidents After Radical Radiation Therapy for Nasopharyngeal Carcinoma"

The Hong Kong Society of Nuclear Medicine and Molecular Imaging Award for Best Paper in Nuclear Medicine:

Dr. NG Kwok Sing

Nuclear Medicine Unit, Department of Radiology & Imaging,
Queen Elizabeth Hospital

"Prognostic Factors for EGFR-mutated Metastatic Adenocarcinoma of Lung Treated with Tyrosine Kinase Inhibitor"

The Young Presenter's Award

Radiology Stream:

Dr. LI Yan Lin

Department of Radiology, Queen Mary Hospital

"Opportunistic Screening for Osteoporosis in CT Abdomen: Preliminary Local Experience"

Clinical Oncology Stream:

Dr. LO Wing Sim Anita

Department of Clinical Oncology, Tuen Mun Hospital

"The Predictive Factors of Pseudoprogression in Vestibular Schwannomas Treated with Fractionated Stereotactic Radiotherapy"

Nuclear Medicine Stream:

Dr. NGU Wee Ching

Department of Radiology, Newcastle Upon Tyne NHS
Foundation Trust, United Kingdom

"Incidental Findings on FDG PET-CT"

Winner of the HKSDR Trust Fund Award for the Best Radiology Poster:

Dr. CHAN Yik Shuen

Department of Imaging and Interventional Radiology,
Prince of Wales Hospital

"Safety and efficacy of ultrasound-guided Botox injection for Raynaud's phenomenon"

Winner of the HKSIR Award for the Best Poster in the sub-specialty of Interventional Radiology:

Dr. CHENG Hei Man

Department of Radiology, Pamela Youde Nethersole Eastern
Hospital

"Percutaneous Transhepatic Biliary Stones Removal – An Effective and Safe Alternative"

Winner of The Best Original Paper of Hong Kong Journal of Radiology

Dr. WONG Kin Hoi

Department of Radiology, North District Hospital

"Preoperative Assessment of Sonographic Features of Axillary Lymph Node Metastasis of Patients with Invasive Breast Cancer"

Winner of the Award of the Best Original Article of Hong Kong Journal of Radiology (Volume 19):

Dr. WONG Yue Kie Kevin

Department of Radiology & Imaging, Queen Elizabeth
Hospital

Volume 19 Number 4, "Mid-term Results and Efficacy of Uterine Artery Embolisation for Symptomatic Fibroids in the Local Population"

Winner of the Award of the Best Case Report of Hong Kong Journal of Radiology (Volume 19):

Dr. KWONG Yin Yee

Department of Diagnostic and Interventional Radiology, Kwong Wah Hospital
Volume 19 Number 3, "Evaluation of Congenital Mitral-aortic Interventricular Fibrosa Aneurysm: Role of Multidetector Computed Tomography in Congenital Heart Disease"

Film Quiz Prize:

TAM Man Pan (CHCSJ, Macau)

The 17th Joint Ceremonies for Admission of New Fellows of The Royal College of Radiologists & Hong Kong College of Radiologists and Dinner of the Colleges, 18th November 2017

Dr. Lorraine Sinn, Hong Kong Women's Imaging

The 17th Joint Ceremonies for Admission of New Fellows of the RCR & HKCR commenced with the addresses of the president of the Hong Kong College of Radiologists president, Dr. Law Chun Key, and president of Royal College of Radiologists, Dr. Nicola Strickland.

This year, Dr. Francis Nin Fai Tang, the senior physicist of Clinical Oncology of Queen Mary Hospital, was awarded the Honorary Membership of the Hong Kong College of Radiologists.

A total of 56 successful candidates, including 28 candidates at the November 2017 Joint Final Fellowship Examination

and 28 candidates at 2017 Exit Assessment of the Hong Kong College of Radiologists were admitted as new Fellows, including candidates in Clinical Radiology, Clinical Oncology and Nuclear Medicine.

After the admission of new Fellows, Dr. Lau Tsz Shan from Princess Margaret Hospital was awarded the Gold Award for the Autumn 2016 sitting of the Joint Final FRCR/FHKCR Examination in Clinical Oncology. Besides, Dr. Mahboobani Neeraj Ramesh from Department of Radiology in Princess Margaret Hospital was awarded the Dr. FL Chan Medal for his outstanding performance at the January sitting of Exit assessment.

This joyful occasion was attended by many distinguished guests. Radiology colleagues, families and friends came witness and showed their support for our newly admitted Fellows and shared their happiness.

After the Joint Ceremonies, Professor Sophia Chan, JP, Secretary for Food and Health of Hong Kong SAR, delivered the 17th Ho Hung Chiu Lecture entitled "Development of Primary Health Care in Hong Kong: Past, Present and Future", which gave us an inspirational account on the development of primary health care in Hong Kong from different facets and new horizons.

The 17th Joint Ceremonies for Admission of New Fellows
of The Royal College of Radiologists & Hong Kong College
of Radiologists and Dinner of the Colleges,
18th November 2017

The Dinner of the Colleges was then held at the Run Run Shaw Hall at the Academy Building. Successful candidates brought their friends and families along to share with them this memorable milestone in their professional careers.

One of the very important moments and highlight of the night was the presentation of Distinguished Contribution Award of the Hong Kong College of Radiologists, a very special award honouring two of our College's fellows, Dr. Peter Ho Keung Choi and Dr. Hon Shing Lam, who have immense contributions to their profession.

This gratified dinner was further enriched by the exciting Kung Fu and Acrobatics performances which wowed the audience. Another climax of the night was the wonderful singing performance by the K&D band, which was formed by a group of young and talented radiologists and radiographers from different hospitals. Being the mistress of ceremony

of this special event, I must say I was totally thrilled by the superb entertainment throughout the dinner.

The Dinner was concluded with the lucky draw. Lovely prizes for the lucky draw were generously donated by Dr. Lilian Leong, our Founding President, and other Council Members of HKCR. It was such a wonderful night and everyone enjoyed a lot! 🍷

7th Joint Scientific Meeting of RCR & HKCR 25th Annual Scientific Meeting of HKCR

17th Joint Admission Ceremonies of RCR & HKCR and 17th Ho Hung Chiu Lecture

Dinner of The Colleges

Appreciation to Sponsors

Hong Kong College of Radiologists Distinguished Contribution Award

The Distinguished Contribution Award is established to recognize and honour individuals who have rendered distinguished contribution to the College over a long period of time, and demonstrated tremendous influence on development and advancement of Radiology, Clinical Oncology, and Nuclear Medicine specialties.

The two Award recipients in 2017 are Dr. Peter Ho-keung Choi and Dr. Hon-shing Lam.

Dr. Peter Ho-keung Choi had made tremendous contribution to the public healthcare sectors in Hong Kong for over 25 years. Before commencing his private practice in 2005, he had been the Consultant in-charge of Clinical Oncology in Prince of Wales Hospital, Honorary Consultant of Bradbury Hospice and Clinical Coordinator of Clinical Oncology of New Territories East Cluster of Hospital Authority of Hong Kong. He is currently Honorary Associate Professor of Clinical Oncology, Chinese University of Hong Kong. As an expert in breast oncology, he is also a member of the Steering Committee of the Hong Kong Breast Cancer Registry.

Dr. Choi was one of the founding members of Hong Kong College of Radiologists and served in the Council from 1992 to 2009 and Education Committee from 1994 to 2007. He was Chairman of the CME/CPD Subcommittee from 1996 to 2004, a period during which the foundations of the College's CME/CPD guidelines were established. From 2004 to 2008, he took up the most challenging officer post of the College Council as Warden. Under his chairmanship of the Education Committee, the College successfully strengthened the training, examination and accreditation of all three specialties in the College. In 2001-2010, Dr. Choi served as the Coordinator of Radiologists Manpower Requirement Workgroup representing the College in the Hong Kong Academy of Medicine Working Group on Specialist Manpower Need / Medical Manpower Planning Committee. Through the tireless devotion of Dr. Choi and other members of the Workgroup, the College compiled landmark manpower reports for Hong Kong Academy of Medicine for the long term healthcare planning in Hong Kong. When Dr. Choi was elected Vice President from 2008 to 2009, he helped the Council of College in achieving the objectives of upkeeping the professional standards of competence and ethical integrity by using his ample experience in academia, training and education. Dr. Choi was also active in other College events, like being instrumental in obtaining the postmark "Roentgen Centenary Congress 8-12 Nov Hong Kong", which was one of the few postmarks that was issued in Hong Kong in 1995, for the Special Souvenir Cover in celebration of the Congress. Dr. Choi's outstanding contributions to the College and to the academic and professional development for the specialty of Clinical Oncology are highly recognised.

Dr. Hon-shing Lam is a leader in the development of Radiology in Hong Kong. In the early 90s, he successfully steered the first structured rotation programme of Radiology Training in Hong Kong, the Kwong Wah Joint Training Programme, and was the Head of the programme since 1993. Being a seasoned trainer with abundant experience in teaching and coaching, Dr. Lam has been actively contributing in numerous educational activities organised by various academic and professional societies / organisations, locally and internationally.

Dr. Lam contributed to the College tremendously in the past two decades and his passion in teaching and radiology education never ceases. He was one of the First Fellows in our College in 1992. He joined the College Council as Council Member from 1993 to 1996 and then served as Vice President from 1996 to 2008. He chaired the Training Course Subcommittee (Radiology) in 1995-2008, during which he endeavored to establish structured lectures in the basic and intermediate training courses and successfully organised annual preparatory courses in Radiology. Throughout the years, he was the Examiner for the College's Special Examinations, Joint Fellowship Examination, Exit Assessment, and represented HKCR in the Macau Consultant Examinations organised by the Health Bureau of Macao SAR. In 2008-2016, Dr. Lam served as the College Warden and continued to strengthening the College training and examination system such as migration towards electronic examination in Radiology. In addition, Dr. Lam was appointed the Chief Editor of the College Newsletter (1996-2005) and Homepage (1997-2005). He developed the section "Case of the Month" published on the website every month for CME purpose.

Apart from contributions in HKCR, Dr. Lam also played a key role in the development of breast imaging in Hong Kong. He pioneered the breast screening service in the Well Women Clinic TWGH since 1990. Dr. Lam's expertise in breast imaging is also well recognized regionally. He was the Founding Member & Honorary Treasurer (2003-2011) of Asian Breast Diseases Association. Furthermore, Dr. Lam was instrumental in developing the College Mammography Statement in 2006 (updated version in August 2015) which stated the policies and technical standards required for provision of mammography. To date, he has published over 50 publications and 80 presentations. His enthusiastic and longstanding contributions to Radiology training, services and to our College are highly respected.

Dinner with our Honorary Legal Advisor and Hang Seng Investment Management Limited (HSVM),

18th December 2017

Dr. Chan Tze Mun,
Honorary Treasurer of Hong Kong College of Radiologists

As a token of appreciation to the expertise financial planning and investment advice to our College, a dinner was organized on 18th December 2017 to express our gratitude to their support throughout these years.

Our honored guests in the dinner included:

Mr. Chris Tam	Executive Vice President, Institutional Business, HSVM
Mr. Steve Cheung	Senior Vice President, Institutional Business, HSVM
Mr. Chow Lai-Kit	Senior Vice President, Institutional Business, HSVM
Mr. Charles Chan	Honorary Auditor, Hong Kong College of Radiologists CEO, Crowe Horwath (HK) CPA Limited
Ms. Pammy Fung	Director, Crowe Horwath (HK) CPA Limited
Ms. Penny Chan	Principal, Crowe Horwath (HK) CPA Limited
Mrs. Mabel Lui	Honorary Legal Advisor, Hong Kong College of Radiologists Head of Greater China Commercial Practice, Corporate, Withers

Our College has engaged in many activities which frequently entails financial implications and complicated accounting matters. We have always been able to count on HSVM, Mr. Charles Chan and his colleagues for monitoring our portfolio and rendering sustained advisory services to secure a stable financial position throughout these years. In addition, Mrs. Lui, our Honorary Legal Advisor, has been very supportive since the early days of the founding of our College. We would like to take this opportunity to also express our appreciation to HSVM, our Honorary Legal Advisor Mrs. Mabel Lui and our Honorary Auditor, Mr. Charles Chan.

Back row (from left to right): Dr. Chan Tze-Mun, Dr. Danny Cho, Dr. Wong Kam-Hung, Ms. Pammy Fung, Dr. Wong Yiu-Chung, Prof. Anne Lee, Dr. Shiobhon Luk, Mr. Steve Cheung, Mr. Chow Lai-Kit, Dr. Jennifer Kho, Dr. Alex Leung, Dr. Stephen Kwok
Front row (from left to right): Mrs. Mabel Lui, Mr. Charles Chan, Dr. Lilian Leong, Dr. Law Chun-Key, Mr. Chris Tam, Ms. Pammy Fung

Call for Application – HKCR 15A Travelling Fellowship 2018

HKCR 15A Travelling Fellowship aims to provide Fellows of Hong Kong College of Radiologists with advanced overseas training in United Kingdom for their continuous professional development, which may include attachment, workshops, short training courses, and study tours.

HKCR 15A Travelling Fellowship 2018 is now open for application. Application guidelines and application form is available at the College's website: https://hkcr.org/news.php/events_list/cid,3/nid,103 🖋️

Deadline for Application: 30th April 2018

Interventional Radiology Practice in the United States and East Asia, 19th – 20th January 2018

Dr. SIT Wing In and Dr. YU Wen Ming,
United Christian Hospital

Opening remarks by Dr. Lilian Leong

The symposium on Interventional Radiology Practice in the United States and East Asia, jointly organized by Hong Kong College of Radiologists and the University of Chicago Medicine Department of Radiology, was held on 19th - 20th January 2018 at the University of Chicago Centre in Cyberport.

We were honoured to have invited multiple renowned overseas and local experts in the field of interventional radiology from the United States, China, Korea, Singapore, Taiwan and Hong Kong to share their different experience in various aspects of interventional radiology practice with us.

Topics discussed included the impact of minimally invasive procedures on health care, safety and quality issues faced in interventional radiology, ways to improve the outcomes of interventional procedures and expanding the practice of interventional radiology to benefit patients. It was a great opportunity to explore the local differences in factors affecting the performance of interventional radiology and interventional neuroradiology procedures in order to implement an effective quality program that addresses issues related to quality and patient safety. The sessions were informative, comprehensive and educational.

Group Photos of Speakers

On the second day, we came to the exciting highlight of the symposium. There were sessions on extreme interventional radiology case series during which our distinguished speakers shared a number of highly challenging and breathtaking cases they encountered during their careers from different specialties in neuroradiology, vascular, hepatobiliary and oncological radiology. The sessions on the novel approaches to difficult interventional radiological procedures in their own centres were well received by the enthusiastic audience and there was excellent feedback from the floor.

In conclusion, the symposium was a great success in fostering fruitful discussions on interventional radiology practice in various countries. This was truly an enlightening seminar, which aroused our interest in advances in interventional radiology. We would like to express our heartfelt gratitude to the organizing committee, Hong Kong College of Radiologists and University of Chicago, for their effort and support in this educational and rewarding learning experience. We look forward to further inspiring collaboration between them in the future. ✍️

The lectures were enlightening and motivating to many radiologists attending the seminar

Dr. Shiobhon Luk & Dr. Julian Fong,
Co-convenors of HKCR Young Fellows Network

The Hong Kong College of Radiologists Young Fellows Network was formed in November 2017 and is an established body within the structure of the College.

It is established with the objectives to enhance communication between the Young Fellows and the College, to encourage more Young Fellows to contribute to the College and community, to nurture the Young Fellows in professional development and College involvement, as well as to organize activities that are in line with the objectives of the College.

Fellows who have been awarded Fellowship of the College within the past 10 years are considered 'Young Fellows' and are members of the Young Fellows Network. The first committee meeting was held in February 2018 and the proposed activities to be organized were discussed.

First committee meeting of the HKCR Young Fellows Network

Front Row: Dr. Julian Fong (Co-convenor), Dr. Shiobhon Luk (Co-convenor), Dr. Tony Yuen (Member)
Back Row: Dr. Jacqueline Sitt (Member), Dr. Henry Sze (Member), Dr. Sam Wu (Member)

The kick-off event of the HKCR Young Fellows Network is the 'Peak Circle Walk'. This event is a great chance to network with Fellows and Members of the College while getting active, enjoying the outdoors and photogenic panoramic view of Hong Kong from the Peak.

Details of the 'Peak Circle Walk' are as follows:

Date : 29th April 2018 (Sunday)

Time : 10:00am – 12:00 noon

Assembly Point : Peak Road Garden (open space between The Peak Garden & The Peak Tower)

Walking Route : The Peak Tower → Lugard Road → Harlech Road → Lugard Road → The Peak Tower

Dress Code : Participants are encouraged to dress in purple

Fellows and Members are welcome to bring family members and pets. We look forward to seeing you at the 'Peak Circle Walk'!

We shall soon be organizing more activities and we welcome all Fellows and Members to join. Stay tuned! 🍷

Do You Know? Fellowship Declaration of the Hong Kong College of Radiologists

Dr. Shiobhan LUK, Pamela Youde Nethersole Eastern Hospital
Dr. C.Y. LUI, Council Member of Hong Kong College of Radiologists

Every year, distinguished guests, fellows, members and friends of our College gather together for a special occasion, the Ceremony for Admission of New Fellows, with history which dates back to more than two decades ago. More than 550 fellows have been admitted to the Hong Kong College of Radiologists since its incorporation in 1991.

Qualified members approved by the College Council, in accordance with the Articles of the College, are admitted as Fellows of the Hong Kong College of Radiologists. The qualified members have to satisfy the criteria for our fellowship with the required standard of accredited training, and have to be successful at the Intermediate Examination and Exit Examination prescribed by our College.

The Ceremony for Admission of New Fellows is conducted by our College Warden, who presents members of our College for the conferment of Fellowship of the Hong Kong College of Radiologists. By virtue of the authority vested in the President by the Council, the President admits the candidates as Fellows of the Hong Kong College of Radiologists.

New Fellows, clad in gowns, will make the fellowship declaration, declaring their loyalty to the College and their good moral standing in the profession. After declaring the oath, new Fellows will sign the Register and begin a new chapter of their profession as fellows of the Hong Kong College of Radiologists.

Fellowship Declaration of the Hong Kong College of Radiologists

'I declare that I will uphold by every means in my power the honour and interest of the Hong Kong College of Radiologists, and I will not engage in radiological practice under conditions derogatory to the standing of a Fellow of the College.'

HKCR New Fellows making the Fellowship Declaration at the Admission Ceremony

The ritual of making a fellowship declaration upon admission as a fellow has a long tradition in various specialties and in many countries. The fellowship pledge represents the commitment Fellows make to patients, to the profession and to the community at large. Fellows are expected to abide by the pledge throughout their career.

With Aristotle's oath being used less frequently and sometimes used in modified form, there are increasing scenarios in which declarations are required by specialty Colleges for admission of their respective Fellows. The Declaration of Geneva is a revised version of the Hippocratic Oath which is sometimes used by the medical profession. The below are the Declaration of Geneva, and declarations or pledges from different Colleges for their Fellows for your interesting readings!

Declaration of Geneva

AS A MEMBER OF THE MEDICAL PROFESSION:
I SOLEMNLY PLEDGE to dedicate my life to the service of humanity;
THE HEALTH AND WELL-BEING OF MY PATIENT will be my first consideration;
I WILL RESPECT the autonomy and dignity of my patient;
I WILL MAINTAIN the utmost respect for human life;
I WILL NOT PERMIT considerations of age, disease or disability, creed, ethnic origin, gender, nationality, political affiliation, race, sexual orientation, social standing or any other factor to intervene between my duty and my patient;
I WILL RESPECT the secrets that are confided in me, even after the patient has died;
I WILL PRACTISE my profession with conscience and dignity and in accordance with good medical practice;

*I WILL FOSTER the honour and noble traditions of the medical profession;
I WILL GIVE to my teachers, colleagues, and students the respect and gratitude that is their due;
I WILL SHARE my medical knowledge for the benefit of the patient and the advancement of healthcare;
I WILL ATTEND TO my own health, well-being, and abilities in order to provide care of the highest standard;
I WILL NOT USE my medical knowledge to violate human rights and civil liberties, even under threat;
I MAKE THESE PROMISES solemnly, freely, and upon my honour.'*

Royal College of Physicians Fellowship Pledge

'You faithfully promise, to the best of your ability, to maintain the welfare of the College; to observe and obey its Statutes, Bye-Laws, and Regulations, and to submit to such penalties as may be lawfully imposed for any neglect or infringement of them; to regard as secret its proceedings, when the College so desires it; to admit to the Fellowship those only who are distinguished by character and learning; and finally to do everything, in the practice of your profession, for the welfare of your patients and the community and to the honour of the College.'

American College of Surgeons Fellowship Pledge

'Recognizing that the American College of Surgeons seeks to exemplify and develop the highest traditions of our ancient profession, I hereby pledge myself, as a condition of Fellowship in the College, to live in strict accordance with the College's principles and regulations.'

I pledge to pursue the practice of surgery with honesty and to place the welfare and the rights of my patient above all else. I promise to deal with each patient as I would wish to be dealt with if I were in the patient's position, and I will respect the patient's autonomy and individuality.

I further pledge to affirm and support the social contract of the surgical profession with my community and society.

I will take no part in any arrangement or improper financial dealings that induce referral, treatment, or withholding of treatment for reasons other than the patient's welfare.

Upon my honor, I declare that I will advance my knowledge and skills, will respect my colleagues, and will seek their counsel when in doubt about my own abilities. In turn, I will willingly help my colleagues when requested.

I recognize the interdependency of all health care professionals and will treat each with respect and consideration.'

American College of Physicians Pledge

*'I affirm my belief in the mission of the American College of Physicians
To preserve and maintain the highest traditions and precepts of our professional calling
And I solemnly declare that I will conform to these ideals to the utmost of my ability*

*I therefore reaffirm my dedication to the practice of medicine
To act always in the best interests of my patients
To respect the reputation and integrity of my colleagues
To supplement my own judgement with the counsel of others when the occasion requires
To render assistance to my colleagues in every way
To extend my professional aid to the unfortunate
To increase my medical knowledge and understanding by continuing study
by association with physicians of the highest intellectual and ethical standards
and by the free exchange of information and experience with all of my medical colleagues*

I hereby pledge to uphold the ethics of medicine as exemplified by the standards and traditions of this College'

Royal Australasian College of Surgeons Fellowship Pledge

'I pledge to always act in the best interests of my patients, respecting their autonomy and rights.

I undertake to improve my knowledge and skills, evaluate, and reflect on my performance.

I agree to continue learning and teaching for the benefit of my patients, my trainees and my community.

I will be respectful of my colleagues, and readily offer them my assistance and support.

I will abide by the Code of Conduct of this College, and will never allow considerations of financial reward, career advancement, or reputation to compromise my judgement or the care I provide.

I accept the responsibility and challenge of being a surgeon and a Fellow of the Royal Australasian College of Surgeons.'

Dr. HUNG Hiu Yee, Esther
Dr. IP Jing Kun, Janice
Dr. LAM Hiu Yin, Sonia
Dr. LUI Chun Ying
Dr. MA Ka Fai, Johnny
Dr. SIU Yung Woon, Deyond
Dr. TAM Kwok Fai
Dr. TANG Yip Kan, Kendrick
Dr. WONG Kwok Chun
Dr. WONG Yiu Chung, Ivan

Clinical Oncology

Dr. LUK Mai Yee (Chairman)
Dr. AU Kwok Hung
Dr. CHENG Chi Kin, Ashley
Dr. CHENG Hoi Ching
Dr. NG Wai Tong
Dr. Francis TANG
Dr. Macy TONG
Dr. WONG Chi Sing, Frank
Dr. Timothy YIP

Training and Examination Sub-Committee
(Nuclear Medicine)

Dr. HO Wai Yin (Chairman)
Dr. CHENG Kam Chau
Dr. KUNG Boom Ting
Dr. Bryan LAM
Dr. Martin LAW
Dr. LOK Chiu Ming
Dr. MA Wai Han, Vivian

(e) Education & Research Fund Sub-Committee

Dr. CHEUNG Chi Wai, Stephen (Chairman)
Dr. CHAN Tao
Dr. CHAN Yu Leung
Dr. CHOI Ho Keung, Peter
Ms. Ruby FUNG
Dr. LEE Ho Fun, Victor
Dr. YAU Tsz Kok

(f) HKCR 15A Travelling Fellowship Sub-Committee

Dr. POON Wai Lun (Chairman)
Dr. LAW Chun Key
Dr. NGAI Wai Tat
Dr. WONG Ka Tak
Dr. WONG Yiu Chung, Ivan

(g) Subspecialty Board (Palliative Medicine)

Dr. YUEN Kwok Keung (Chairman)
Dr. LUI Cheuk Yu, Louisa (Honorary Secretary)
Dr. LO Sing Hung
Dr. WONG Kam Hung
Dr. WONG Yiu Chung, Ivan

II. Membership Committee

Dr. LAW Chun Key (Chairman)
Dr. LEUNG Kwok Cheung (Honorary Secretary)
Dr. CHEUNG Foon Yiu
Dr. CHOI Pak Tat, Frankie
Dr. FUNG Po Yan, Eliza
Prof. KWONG Lai Wan, Dora
Dr. LAI Bing Man
Dr. POON Wai Lun
Dr. TAN Chong Boon

III. Finance Committee

Dr. CHAN Tze Mun (Chairman)
Mr. Charles CHAN (Honorary Auditor)
Dr. CHIU Long Fung, Jeffrey
Dr. FONG Chun Yan
Dr. LAW Chun Key
Dr. Lilian LEONG
Dr. LEE Yim Ping

IV. Constitution Sub-Committee

Dr. CHEUNG Chi Wai, Stephen (Chairman)
Dr. CHAN Chi Sang, James
Dr. CHAU Ming Tak
Dr. CHO Hing Yan, Danny
Dr. LEE Ho Fun, Victor
Dr. TANG Kwok Wing

V. House Sub-Committee

Dr. KAN Yee Ling, Elaine (Chairman)
Dr. LUK Yiu, Shiobhon (Honorary Secretary)
Dr. CHEUNG Kenneth Kai Yat
Dr. FUNG Kin Fen, Kevin
Dr. IP Jing Kun, Janice
Dr. KHOO Lai San, Jennifer
Dr. LAW Chun Key
Dr. WONG Ho Ching, Amy

VI. HKJR Editorial Board

Prof. CHU Chiu Wing, Winnie (Editor-in-Chief)
Dr. NGAN Kai Cheong, Roger (Deputy Editor-in-Chief)
Dr. YUEN Ming Keung (Deputy Editor-in-Chief)
Dr. AU YONG Ting Kun
Dr. CHAN Tao
Dr. CHAN Yu Leung
Dr. CHEUNG Chi Wai, Stephen
Dr. CHOI Pak Tat, Frankie
Prof. KHONG Pek Lan
Prof. KWONG Lai Wan, Dora
Dr. LEE Ho Fun, Victor
Dr. NG Wai Tong
Dr. POON Wai Lun
Dr. WANG Ki
Dr. WONG Chi Sing, Frank

VII. Homepage Sub-Committee

Dr. FONG Chun Yan (Chairman)
Dr. Gregory Ernest ANTONIO
Dr. CHAN Sum Yin
Dr. CHAN Tze Mun
Dr. FANG Xin Hao, Benjamin
Dr. LAM Ho Ching
Dr. LO Shing Wai, Sherwin
Dr. Neeraj Ramesh MAHBOOBANI
Dr. PAN Nin Yuan

VIII. Newsletter Sub-Committee

Dr. LUI Chun Ying (Chairman)
Dr. CHO Hing Yan, Danny
Dr. HO Pui Ying, Patty
Dr. KHOO Lai San, Jennifer
Dr. LUK Yiu, Shiobhon
Dr. NGAI Wai Tat
Dr. SITT Ching Man
Dr. SOONG Sung, Inda
Dr. WONG Cheuk Kei, Kathy

Our College has the following numbers of members as at 28 February 2018

Status	Number
Honorary Fellow	18
Honorary Member	8
Fellow	563
Member	127
Trainee Member	43
Associate Member	5
Total	764

List of Fellows admitted from 1 October 2017 till 28 February 2018

Admission date	Name	Specialty	Institute
30 January 2018	CHAN Chun Hin	CO	QEH
30 January 2018	CHAN Pui Kwan Joyce	RD	QEH
30 January 2018	CHAN Wai Tat Victor	RD	QEH
30 January 2018	CHENG Hei Man	RD	PYNEH
30 January 2018	CHONG Wing Ho	RD	TMH
30 January 2018	DAI Yuk Ling Eunice	RD	PWH
30 January 2018	IP Siu Kwan Natalie	RD	TMH
30 January 2018	LAU Hon Wai	RD	TMH
30 January 2018	LAW Ka Chai Eric	RD	PWH
30 January 2018	LEE Hong Ching	RD	UCH
30 January 2018	LEE Shing Fung	CO	TMH
30 January 2018	LO Wai Keung	RD	KWH
30 January 2018	TANG Chun Wah	RD	PYNEH
30 January 2018	TSE James Chi Hon	RD	PYNEH
30 January 2018	TSE Pui Ying	CO	QMH
30 January 2018	WONG Kin Hoi	RD	NDH
30 January 2018	YIP Wing Ling Winnie	CO	TMH

List of Members admitted from 1 October 2017 till 28 February 2018

Admission date	Name	Specialty	Institute
28 November 2017	CHAN Yik Shuen	RD	PWH
28 November 2017	CHIEN Pui Yang Carol	RD	QMH
28 November 2017	CHIU Ho Hei Jeremy	RD	TMH
28 November 2017	HO Cheuk Him	RD	TMH
28 November 2017	KO Tsz Yan	RD	PYNEH
28 November 2017	LAU Chun Yin	RD	PYNEH
28 November 2017	LAU Hoi To	RD	QMH
28 November 2017	LEUNG Ho Sang	RD	PWH
28 November 2017	LIU Shing Him	RD	QEH
28 November 2017	NG Pan Pan	RD	QEH
28 November 2017	YANG Siyue	RD	TMH
28 November 2017	YIP Stefanie Wai Ying	RD	PWH
19 December 2017	CHAN Tak Kwong	NM	PYNEH
19 December 2017	KWOK Hoi Ming	RD	PMH
19 December 2017	Dicken WONG	RD	KWH
19 December 2017	WOO Stephanie Cheri	RD	PMH
30 January 2018	WONG Ka Ming	CO	PYNEH
27 February 2018	CHOI Wesley Yuen Lum	CO	PMH

List of Trainee Member admitted from 1 October 2017 till 28 February 2018

Admission date	Name	Specialty	Institute
28 November 2017	WONG Siu Chun	RD	PMH
19 December 2017	MAK Renata Kiri	RD	QEH
27 February 2018	FUNG Kiu-jing James	RD	PYNEH
27 February 2018	SUEN Chun Hong	RD	UCH

Forthcoming Meetings in 2018

Date	Event	Venue	Website
18 - 20 March 2018	12th Asian Oceanian Congress of Neuroradiology (AOCNR 2018)	Taipei, Taiwan	http://www.aosnhnr.org/meeting.html
24 - 25 March 2018	American Society of Neuroradiology (ASNR) - Hong Kong International Imaging 2018	Hong Kong SAR	http://www.diaradio.hku.hk/asnrhku/
20 - 24 April 2018	12th World Congress of the World Federation of Nuclear Medicine and Biology	Melbourne, Australia	https://wfnmb2018.com/
8 - 10 June 2018 15 - 17 June 2018	8th IDKD Intensive Course in Asia 2018	Hong Kong SAR & Beijing, China	https://www.idkd.org/cms/
1 - 5 June 2018	American Society of Clinical Oncology Annual meeting 2018 (ASCO 2018)	Chicago, USA	http://am.asco.org/
20 - 23 June 2018	20th World Congress on Gastrointestinal Cancer	Barcelona, Spain	http://www.worldgicancer.com/
23 - 26 June 2018	The Society of Nuclear Medicine & Molecular Imaging (SNMMI) 2018 Annual Meeting	Philadelphia, USA	http://www.snmmi.org/
30 June - 2 July 2018	2018 AIRP Course in Hong Kong	Hong Kong SAR	https://www.hkcr.org/
16 - 18 August 2018	12th Asian Society of Cardiovascular Imaging Congress	Beijing, China	http://www.scctchina.org/asci2018/
7 - 8 September 2018	16th Asian Breast Diseases Association (ABDA) Annual Scientific Meeting	Yogyakarta, Indonesia	www.abda-breast.org
12 - 15 September 2018	74th Korean Congress of Radiology	Seoul, Korea	http://www.kcr4u.org/
14 - 16 September 2018	The 18th Annual Scientific Meeting of Asian and Oceanic Society for Paediatric Radiology (AOSPR 2018)	Chandigarh, India	http://aospr2018.com/
13 - 17 October 2018	EANM'18 – 31st Annual Congress of the European Association of Nuclear Medicine	Düsseldorf, Germany	http://eanm18.eanm.org/
19 - 23 October 2018	ESMO 2018 Congress	Munich, Germany	http://www.esmo.org/Conferences/ESMO-2018-Congress
21 - 24 October 2018	2018 ASTRO Annual Meeting	San Antonio, USA	https://www.astro.org/Meetings-and-Education/ASTRO-Meetings/2018/Annual-Meeting/2018-Annual-Meeting/
25 - 28 October 2018	69th Annual Scientific Meeting of RANZCR	Canberra, Australia	http://www.ranzcr2018.com/
16 - 19 November 2018	50th Congress of the International Society of Paediatric Oncology (SIOP 2017)	Kyoto, Japan	http://siop.kenes.com/2018
17 - 18 November 2018	26th Annual Scientific Meeting of HKCR	Hong Kong SAR	https://hkcr.org/news.php/events_list
25 - 30 November 2018	Radiological Society of North America Annual Meeting 2018 (RSNA 2018)	Chicago, USA	http://www.rsna.org

Hong Kong Journal of Radiology

HKJR

香港放射科醫學雜誌

All articles are available in full text on

www.hkjr.org

ISSN 2223-6619

Why HKJR?

- Publishes review articles, original articles, pictorial essays, case reports, brief communication, and letters to the Editor
- Indexed in EMBASE/Excerpta Medica
- Publishes Chinese abstracts alongside with the English abstracts
- Awards will be presented to the Best Original Article and the Best Case Report of each volume and the awardees will be granted free registration for the annual scientific meeting of the Hong Kong College of Radiologists

VOLUME 20 • NUMBER 3 • 2017

Theme of this issue:

Imaging and Treatment of Hepatocellular Carcinoma

Highlights of this issue:

- Gadoteric Acid-enhanced Magnetic Resonance

Multidisciplinary management is the trend of clinical practice

HKJR launches a series of **theme issues** which combine the expertise of **radiologists**, **oncologists**, and **nuclear medicine physicians** in the management of clinical problems. This enables in-depth exploration of specific clinical problems from different angles.

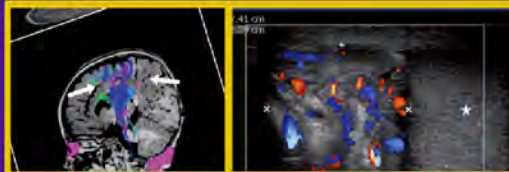

VOLUME 19 • NUMBER 3 • 2016

Theme of this issue:

Paediatric Imaging

Highlights of this issue:

- Radiation Protection in Paediatric Computed

HONG KONG JOURNAL OF RADIOLOGY
Official Publication of the Hong Kong College of Radiologists

Home | Journal Overview | Submit a Paper | Register | Guide for Author | Login | Help | Contact Us

Welcome to **HKAMedTrack**, a web-based manuscript system developed by the Hong Kong Academy of Medicine.

There are two phases to **HKAMedTrack**. In this first phase, authors are able to submit a manuscript electronically, and to check for updates on its status. In the second phase, the peer review process will be conducted online. Authors will be notified when the second phase is available.

For manuscript guidelines, please read [Guide for Author](#).
