Hong Kong College of Radiologists Education and Research Fund

The Hong Kong College of Radiologists (HKCR) Education and Research Fund has been set up early this year to promote and assist career development, continuing education and research activities among members of the HKCR as well as the international community of Radiology, Clinical Oncology and Nuclear Medicine.

Funding will be provided in the following four categories:

- *Education grant for HKCR members*

To assist members of the HKCR in receiving overseas advanced training including attachments, workshops and training courses, as well as active participation in international conferences.

- *Education grant for Mainland China and overseas radiologists*

To encourage fellow radiologists (in the specialties of Radiology, Clinical Oncology and Nuclear Medicine) to attend local conferences, seminars, workshops and training courses organized or co-sponsored by the HKCR.

- *Conference grant*

To assist members of the HKCR in organizing local conferences, seminars, workshops and training courses related to the specialties of Radiology, Clinical Oncology, and Nuclear Medicine.

- *Research grant*

To assist members of the HKCR in conducting pilot study in any field of research related to Radiology, Clinical Oncology and Nuclear Medicine before they apply for major grants from other sources. Both basic and clinical research will be supported.

The HKCR Education and Research Fund is administered by the Committee on Education and Research Fund (the Committee), the Chairman and members being appointed by the Council with a term of office of two years. The Committee is responsible for vetting applications, granting awards and monitoring the financial status of the Fund.

The fund is set up initially from the surplus of the Radiology 2000 International Congress organized by the HKCR. The interests obtained from this initial fund will be used to support education grants for HKCR members and overseas radiologists on a regular basis. Additional donation will be solicited to provide funding for conference grant and research grant.

Eligibility to Apply

1. *Education grant for HKCR members*: To be eligible, an applicant must be a Trainee Member, Member or Fellow of HKCR, with at least 2 years of working experience in the relevant specialty. Activities supported include overseas attachments, workshops, training courses, and conferences. For an overseas conference, the applicant must be presenting a paper or poster, with documentary evidence issued by the conference organizer confirming that the paper or poster has been accepted.
2. *Education grant for Mainland China and overseas radiologists*: The applicant must hold a full-time position in a Mainland China or overseas educational/public health care institution working in a department of Radiology, Clinical Oncology or Nuclear Medicine at the time of application, and intends to visit Hong Kong for the purpose of attending a conference, seminar or other academic activities organized or co-sponsored by the HKCR.

3. *Conference grant*: To be eligible, the applicant must be a member of the HKCR with a well-formulated plan in organizing a conference, seminar or workshop at either the regional or international level. The organized activity must be related to the specialties of Radiology, Clinical Oncology and Nuclear Medicine. International conference that happens to be held in Hong Kong will not be supported under this category.
4. *Research grant*: To be eligible, the applicant must be a member of the HKCR with at least 2 years of working experience in the relevant specialty. Funding is for new pilot projects only, not to support portions of previously funded work.

Application

Applications must be made on the requisite forms, together with supporting documents if necessary, and sent to the Chairman, Committee of HKCR Education and Research Fund, Hong Kong College of Radiologists, Rm 909, 9/F, Hong Kong Academy of Medicine Jockey Club Building, 99 Wong Chuk Hang Road, Aberdeen, Hong Kong. All applications must be accompanied by relevant documents and the applicant's brief curriculum vitae. Applications which are incomplete, not accompanied by the required supporting documents, or received after the deadline (15 April for Conference and Research grants. For Education grant, 15 April for conferences held in the second half of the year, and 15 October for conferences held in the first half of the following year) of application for the respective activities will normally not be considered.

The grant cannot be held in conjunction with any other award (apart from leave granted by the applicant's employing organization) for the same item of activity, unless prior approval has been sought with the College.

Examinations and Results

Nuclear Medicine Examination

Written : 13 October 2001

Oral : 17 October 2001

Final Examination For The Fellowship - Clinical Radiology

Part A Spring 2001

Successful Hong Kong Candidates:

CHAN, Tao

LAU, Shun

POON, Wai Lun

TUNG, Kin Shan Helen

KAM, Chi Kong

LUI, Chun Ying

SIU, Chi Wai Jimmy

YIU, Wai Chung Michael

LAI, Kwok Chung

NG, Kim Ching

TAM, Kwok Fai

Special Examination

The Special Examination (Radiology) was held on 10 April 2001 at the Department of Radiology of Queen Mary Hospital. The Special Examination is for full-time practicing radiologists residing in Hong Kong who have not passed the Joint Fellowship Examination organized by the Hong Kong College of Radiologists but wish to be considered for admission to Fellowship of the Hong Kong College of Radiologists and subsequent recommendation to the Hong Kong Academy of Medicine for consideration of admitting to Fellowship of the Hong Kong Academy of Medicine. The following were the examiners and the successful candidates:

External Examiner: Prof Judith Adams

Local Examiners: Dr FL Chan Dr KH Fung Dr HS Lam Prof Con Metreweli

Successful Candidates:

ANTONIO, Gregory Ernest

HON, Yu Wai

WANG, Ki

PWH

UCH

UCH

GILL, Narindar Pal Singh

LEE, Kwok Tung Rayson

NDH

Exit Assessment of Training

An Exit Assessment was held on 17 & 18 January 2001 at the Hong Kong Academy of Medicine. The Panel Chairman was Dr FL Chan. The assessors for Radiology included Dr HS Lam, Dr MC Au Yeung, Dr Susan CH Chan and Dr KH Fung. The assessors for Clinical Oncology were Dr Gordon Au and Dr Stewart Y Tung. The assessors for Nuclear Medicine were Dr CM Tong and Dr KM Ma. The following candidates were successful:

Radiology :

Name	Training Center	Name	Training Center
CHAN, Tak Man	RH	CHAU, Wai Keung	RH
CHIU, Chui Yin, Vivian	QEH	CHU, Chiu Wing Winnie	PWH
HOWARD, Robert	PWH	PANG, Lai Man	PWH
SIU, Kam Wang	QEH	WONG, Yik	QMH
YEUNG, Tai Kong	PWH		

Clinical Oncology :

Name	Training Center	Name	Training Center
AU, Kwok Hung	QEH	CHAU, Kwok Kwan	QEH
CHOY, Tim Shing	QEH	KAM, Koon Ming Michael	PWH
WAI, Pui Sze Henden	PYNEH		

Nuclear Medicine :

Name	Training Center
CHENG, Kam Chau	QMH

Hong Kong College of Radiologists Part 2 Fellowship Preparation Course in Clinical Radiology 2001

Includes rapid reporting sessions, film reporting sessions, slide quiz and tutorials.

Programme :

Core Tutorial Sessions : 18 August & 29 September 2001
Time : 9:00am – 12:10pm
Venue : Queen Elizabeth Hospital

Weekend Revision Course : 28 & 29 July 2001
Time : 9:00am – 5:00pm
Venue : Kwong Wah Hospital

Registration fee: \$1,500 payable to “Hong Kong College of Radiologists”. The fee covers both programmes. Registration forms can be obtained from the Secretariat of the College:
Executive Officer, Hong Kong College of Radiologists, Room 909, 9/F., Hong Kong Academy of Medicine Jockey Club Building, 99 Wong Chuk Hang Road, Aberdeen, Hong Kong
Tel: 2871 8830
Fax: 2554 0739
E-mail : hkcr@netvigator.com

Change in Admission Fees for Members and Fellows

Please note that the admission fees for members and fellows will be changed .

Trainee members are encouraged to change their membership early to the status of Member. A special concession will be given to Members and Associate Members when they are eligible to apply for Fellow.

A summary of the outcome as a result of the change is as follows. Those who would like to have further clarification regarding their individual status can approach our College's Executive Officer. A grace period of three months will be given starting from the issuing of this Newsletter.

For a Trainee Member who applies to be:

- A Member within 2 months after passing Part I, the cumulative admission fee on becoming a Fellow will be \$3,600.
- A Member more than 2 months after passing Part I, the cumulative admission fee on becoming a Fellow will be \$5,300
- A Member after passing Part II, the cumulative admission fee on becoming a Fellow will be \$13,300.
- A Fellow directly, the cumulative admission fee will be \$15,300.

For an Associate Member who applies to be a Fellow when eligible, the cumulative admission fee will be \$8,000.

For a non-member who applies to be: (For those eligible to apply in the normal pathway, the College would not normally entertain such applications.)

- A Fellow when eligible, the admission fee is \$15,000.
- A Member to complete the required Higher Training, the cumulative admission fee on becoming a Fellow will be \$13,000.

Prof Guozhen Li

Honorary membership of ECR was added to her numerous awards and accolades

Known as the “grande dame” of Chinese radiology, Prof. Guozhen Li is a worldwide recognized radiologist in China. After being awarded as honorary member of Radiological Society of North America in 1998, she received a further accolade as honorary member of European Congress of Radiology (ECR) in March, 2001.

Born in Beijing on 9 February 1915, Prof. Li began her career in 1943 after she had graduated from Peking Union Medical College. She received two years internship at the Red Cross Hospital of Shanghai Medical College and completed her residency at Peking Union Hospital in 1948. She then obtained her fellowship in radiology in Billing's Hospital, Chicago University in 1950.

After her return to China in 1950, she was appointed as assistant professor in Beijing Medical University. She became the professor and head of radiology in Beijing Medical University from 1965 up till now. She contributed a lot to Chinese health care, such as bringing in modern cross-sectional radiology. She is most proud of her ability to stay abreast of advances in the field of radiology, whether they are in CT, MRI or computed technology. Her interest in traditional Chinese medicine began three years ago and her research on the effects of acupuncture on blood flow in the brain has received international attention.

Her numerous achievements render her famous worldwide. She serves on the Advisory Board of the Radiology Outreach Foundation, and is a member of the editorial board of the International Journal of Neuroradiology. Her awards in China are also numerous, which include : the Award of the 80th Anniversary of Chinese Medical Society for distinguished contribution to the development of Medical Society and progress of medical new technology, the Government Award for distinguished achievement in medical and health care, and the Special Award for important contribution to Radiology and Chinese Journal of Radiology.

Members Status

The College has the following numbers of members as of 23 April 2001:

Status	Number
Honorary Fellow	8
Fellow	263
Member	47
Trainee Member	32
Associate Member	2

List of Members admitted from November 2000 to April 2001 is as follows:

Admission date	Name	Specialty	Training Center
27 Feb 2001	LAW Chi Ching	CO	QEH
27 Feb 2001	YEUNG Wing Kay	CO	PWH
17 April 2001	LUK Wing Hang	RD	UCH

List of Trainee Members admitted from November 2000 to April 2001 is as follows:

Admission date	Name	Specialty	Training Center
27 March 2001	CHO Hing Yan Danny	RD	UCH
27 March 2001	YANG Kwok Wai Michael	RD	UCH
27 March 2001	LEE Ann Shing	CO	TMH
27 March 2001	WONG Chi Ping	NM	QEH

Crème de la Crème: Medallists from Hong Kong

Each year, outstanding candidates in the first and final fellowship examinations of Royal College of Radiologists (UK) are awarded medals for their performance in the examination.

Rohan Williams Medal

The Rohan Williams Medal was endowed in 1965 by donations in memory of Dr Rohan Williams. The Rohan Williams Medal and honorarium is awarded to the outstanding candidates at the Final Examination for the Fellowship. The Medal is awarded by the Education Board based on the recommendation of the Final FRCR Examiners.

Dr F L Chan was the first Hong Kong candidate to receive the distinguished Rohan Williams Award for his outstanding performance in Final Fellowship Examination in Singapore in October 1975. He was followed by Prof Jonathan S T Sham, who was awarded Rohan Williams Medal in 1985. In October 1997, Dr M Y Luk received the same honor in the Final Examination of Clinical Oncology. Dr Stephen C W Cheung also obtained the Rohan William Medal in October 2000, for his performance in the Final Examination of Clinical Radiology. Before they received the medals of their Final Fellowship Examination, Dr Luk and Dr Cheung had already been awarded Frank Doyle Medals in their First Fellowship Examination.

Frank Doyle Medal

In 1984, Professor Frank Doyle generously endowed an award. This award takes the form of a medal, which is awarded, to the outstanding candidates in the First Examination for the Fellowship. The Medal is also awarded by the Education Board based on the recommendation of the First FRCR Examining Board.

Dr Susan C H Chan was the first Hong Kong candidate to receive the Frank Doyle Medal in September 1984. Dr C C Yau got the same medal in September 1988. This was followed by Dr Tina P W Lam in September 1992, and Dr Harry H Y Yiu in September 1993. Dr M Y Luk was awarded the Frank Doyle Medal in September 1995, and Dr Stephen C W Cheung in September 1997. Both of them were also presented with Rohan William Medals two years later.

Hong Kong has already produced a long list of medallist in the past decades. We are expecting the future generations of young, talented radiologists from the Hong Kong will add their names to that list.

A Trip To Chengdu

Dr KW Tang

In August 2000, I had the chance to join Dr FL Chan and Dr SH Luk to participate in the 7th Radiological Conference of Southwest China, which was held in Le Shan, a small town near Chengdu, Sichuan. It was a regional conference accredited for CME in China, for the radiologists of the provinces of Sichuan, Yunnan, Guizhou, Gansu and Guangxi. After the conference, we also went to Chengdu to visit the First University Hospital of the Western China University of Medical Sciences.

We were warmly welcomed by our Mainland colleagues. With special thanks to the special arrangements and hospitality of Professor Min Pengqiu, we shared our experience and had fruitful discussion with colleagues in Mainland China in different fields of radiology during the three days of conference. I was especially impressed by their live translation of our presented material from English into Putonghua. Back to Hong Kong, I need to improve my Putonghua before I dare to go north again.

The following lectures were delivered by the representatives of our College:

FL Chan	CT evaluation of abdominal injury Spinal pseudarthrosis in patients with longstanding ankylosing spondylitis
SH Luk	Interventional management of malignant pharyngeal and esophageal strictures Endovascular treatment of peripheral vascular diseases
KW Tang	Carotid angioplasty and stenting MR imaging in head and neck tumours

The venue town, Le Shan is famous for the huge Buddha carved out of the hill and its historic attractions. Chengdu is a busy city now with high-rise buildings and highways. But there still remains many scenery and historical places to visit. I would strongly recommend a place called " SANXINGDUI " which is about 40 km north of Chengdu. It is a recent developed archaeological site, with the lost ancient civilization having about four thousand to five thousand years history. I was astonished by their detailed and sophisticated craftsmanship. Don't miss it !

Left to right: Dr KW Tang, Prof Pengqiu Min, Dr FL Chan, Mrs Chan and Dr SH Luk

13th European Congress of Radiology, Vienna

Dr PL Khong

This was a double first for me; my first time at the ECR and my first visit to Vienna. Both Vienna and the ECR did not disappoint. With the motto - "Meet Europe", the ECR aims to bring together Radiologists from Europe and the rest of the world. A total of 6,040 delegates participated in the conference including 47 from China, 10 from Taiwan, 7 from Malaysia, 6 from Singapore and 2 from Hong Kong.

Over the 5-day conference, I was treated to superb lectures given by experts in their respective fields. Apart from scientific sessions, there were categorical courses, state-of-the-art symposia, special focus sessions, refresher courses and hands-on workshops. There were also two very well discussed image interpretation sessions pitched for junior radiologists. Every day, there were approximately 15 concurrent sessions, such that there was always something of interest for everyone. Naturally, I attended the Paediatric Radiology sessions, where the good and the great expounded on their research, related their vast experiences and highlighted intricacies of image interpretation. Amongst them were Professor Helen Carty, Professor O. Flodmark, Professor Ann Osborne and Professor J Valk, just to name a few. They were cornucopias of knowledge and an inspiration to me. The scientific sessions and poster exhibits were on important and contemporary topics which were thought provoking and on multiple occasions begged the question "Why didn't I think of that?".

With a sense of pride, we witnessed Prof Guozhen Li from Beijing delivered the Inauguration lecture as she was awarded an Honorary Membership to the ECR. It was a timely salute to a respected senior Chinese radiologist.

The ECR takes place in Vienna in the first week of March annually with the deadline for submission of abstracts in mid-September. A little preliminary news about ECR 2002; an important theme will be 'advanced imaging' with the emphasis on the transfer of advanced imaging into clinical practice.

On the social front, we were treated to the world-renowned Vienna Boys Choir and the Vienna Chamber Philharmonic Orchestra. Their repertoire included famous works originating from Vienna, by WA Mozart, J Brahms and J Strauss.

Not to miss the golden opportunity, I found time to discover the beauty of Vienna. Although it was chilly (10° C), there were several days of sunshine and blue skies. I managed to explore the city on foot to discover historical buildings of varied architectural styles from Gothic to Renaissance to Baroque and modern. In the evenings, there was the infamous Viennese opera and classical concert... awesome and grandiose... celebrations of sight and sound.

Alas, it was time to bid "auf wiedersehen", I left, enriched by the experience.

Hard at play: dinner with the Carty's and friends

PACS: Theory & Practice

Jennifer Khoo

A scientific seminar on PACS was conducted in Tseung Kwan O Hospital (TKOH) on 6th January 2001, a Saturday afternoon.

Dr Lilian Leong, President of the Hong Kong College of Radiologist, delivered the opening speech. TKOH is the first hospital in HA and in Hong Kong to adopt PACS for the Radiology Department. Dr Leong talked about the process of introducing PACS in a HA hospital, and the implementation of a digital radiology department which had been difficult, taking 5 years to complete.

Dr Henry Huang, Consultant Radiologist of TKOH, talked on “PACS: Impact on the Practice of Radiology”. This was followed by a Clinical Teleradiology Conference with Royal Brisbane Hospital in Australia, conducted by Dr Angus Chin (HK) and Dr Stephen Sinnott (Australia).

“Technical Aspects of PACS: the Essentials” was presented by Dr Carrison Tong, Physicist of PYNEH.

Dr Philip Templeton, Chairman of Diagnostic Radiology and Professor of Radiology of the University of Maryland School of Medicine, U.S.A., talked on “Cost Savings to be made with PACS”.

This was followed by a PACS Forum, visit of the TKO Radiology Department, and hands-on session.

Over 100 participants, including radiologists, radiographers, medical physicists, IT colleagues from Head Office and Hospital Administrators, attended the event. It has been a most informative and interesting afternoon.

The seminar was sponsored by AGFA Hong Kong Ltd.

Organizers and speakers

Hong Kong Society of Diagnostic Radiologists Research Grant

The Hong Kong Society of Diagnostic Radiologists (HKSDR) is now calling for the application of the HKSDR Research Grant. This grant aims at promoting research in Diagnostic Radiology in order to advance our knowledge and to serve our patients better. Successful applicant can receive up to HK\$50,000 from the grant for a research project.

The application should be made by the principal investigator of the research project related to the scientific or clinical aspects of Diagnostic Radiology to be conducted in Hong Kong. The principal investigator should be a trainee/specialist in the field of Diagnostic Radiology. He/she has to be a registered medical practitioner in Hong Kong.

Application and enquiry can be directed to:
Dr Lai Chi Wing
Hon Secretary, Trust Fund Working Group
Hong Kong Society of Diagnostic Radiologists
c/o Department of Radiology
North District Hospital
9 Po Kin Road, Sheung Shui, New Territories, Hong Kong
Tel: 2683 7378
Fax: 2683 7379

Generous Donation Required

As you are well aware that the current College web site is run and maintained by volunteered efforts.

The College has decided to contract out the design and maintenance of the web site.

The re-vamped web site will be able to provide a platform for effective communication between the College and its Members and Fellows, a 'Members- Only' section with individual members' email accounts.

I hope you can support our drive to raise fund for this project.

Please send your generous donation to the College Executive Officer, Rm 909, 9/F, Hong Kong Academy of Medicine Jockey Club Bldg, 99 Wong Chuk Hang Road, Aberdeen, Hong Kong. Tel: 28718788

Conferences

9th Asian Oceanian Congress of Radiology

Organizer : Asian & Oceanian Society of Radiology
Date : 22-26 July 2001
Venue : Singapore Expo, Singapore
Enquiry : Secretariat, 9th AOOR,
c/o Dept. of Diagnostic Imaging,
National University Hospital,
5 Lower Kent Ridge Road,
Singapore 119074
Tel : (65) 7724210
Fax : (65) 7730190
E-mail : aocr_2001@yahoo.com

The 6th Congress of the Asian Federation of Societies for Ultrasound in Medicine and Biology

Organizer : Malaysian Society of Ultrasound in Medicine
Date : 23-26 October 2001
Venue : Shangri-La Hotel, Kuala Lumpur
Enquiry : 6th AFSUMB Secretariat
c/o Dept. of Radiology,
University of Malaya Medical Centre
59100 Kuala Lumpur, Malaysia
Tel/ Fax : 603-7958 1973
E-mail :
