Course Organisers

Dr. Lilian Leong (Hong Kong)

Dr. Mark D. Murphey (USA)

Key Speakers

Dr. Mark D. Murphey

MD, FACR
(Physician-in-Chief,
AIRP & Chief in Musculoskeletal Imaging)

Dr. Mark D. Murphey has been an academic radiologist over 30 years and has directed all of his scholarly activities to his subspecialty of musculoskeletal imaging. In his early years at the University of Kansas, he published the first article on MRI of the sacroiliac joint. In 1993, Dr. Murphey moved to the Armed Forces Institute of Pathology (AFIP), which provided a unique opportunity to understand the pathologic basis of a disease's radiologic appearance. In 2010-2011, Dr. Murphey was instrumental in the transition from the AFIP to the American Institute for Radiologic Pathology (AIRP) as a program of the American College of Radiology (ACR). Dr. Murphey is currently the Physician-in-Chief of the AIRP and the chief of Musculoskeletal imaging. In his tenure at the AFIP and the AIRP he has particularly emphasized research on the imaging appearance of musculoskeletal tumors. Dr. Murphey has published 148 peer reviewed articles, 155 abstracts, 27 books and book chapters, 72 scientific exhibits and given 630 national and international presentations.

Dr. Murphey's academic career has been extraordinarily fulfilling, and he hopes that his efforts have broadened our knowledge and understanding of the imaging of musculoskeletal disease.

Prof. Jennifer A. Harvey

M.D., F.A.C.R.
(Chief in Breast Imaging)

Jennifer Harvey is a Professor of Radiology at the University of Virginia Health System, where she serves as Chief of the Division of Breast Imaging, Co-Director of the UVa Breast Care Program, and Vice-Chair of Faculty Development. She attended medical school and did her diagnostic radiology residency at the University of Arizona.

She is the author of "Making the Diagnosis: A Practical Approach to Breast Imaging," and is the section chief for Breast Imaging at the American Institute for Radiologic Pathology (formerly AFIP). Her research interest is the association of mammographic density and breast cancer risk. She serves on or chairs several national committees for the ABR, ACR, and SBI. She serves on the Editorial Board of RadioGraphics and JACR, and is a special consultant to the editor of Radiology.

Dr. Lauren M. Sena

M.D.
(Pediatric Radiology)

Lauren M. Sena, MD is a lecturer of congenital heart disease in the pediatric and cardiac sections for the American Institute of Radiologic Pathology in Silver Spring, Maryland. She holds as academic appointment as an Associate Professor of Radiology in the pediatric and thoracic divisions in the department of radiology of University of Massachusetts Memorial Medical Center in Worcester Massachusetts. Dr. Sena received her Bachelor of Science at Simmons College in 1983, medical degree at Medical College of Pennsylvania in 1990 and completed residency training in Diagnostic Radiology at University of Massachusetts Medical Center in 1995 followed by subspecialty training from 1995-97 in Pediatric Radiology at the Hospital for Sick Children in Toronto, Ontario. Dr. Sena worked as a staff pediatric radiologist at Boston Children's Hospital until 2016 with a focus on MR and CT imaging of congenital heart disease, and now works as a pediatric radiologist and plays a key role in developing the Cardiac MRI service for adults and children at UMass Memorial Medical Center in Worcester Massachusetts.
